THE BOARD OF TRUSTEES

Legal Status and Operation

The Board of Trustees of Laurel School District No. 7 & 7-70 is the governmental entity established by the state of Montana to plan and direct all aspects of the District’s operations, to the end that students shall have ample opportunity to achieve their individual and collective learning potentials.

Policies of the Board define its organization and the manner of conducting its official business. The operating policies of the Board are those that it adopts from time to time to facilitate the performance of its responsibilities.

All handbooks approved by the Board are operating policies of the District.

Overview of Flexibility and Efficiency Policies

The Laurel Board of Trustees has adopted and committed to a governance structure that keeps the focus of the Board on students and that increases the District’s flexibility and efficiency to maximize the District’s resources that are available for the benefit of students and student achievement through available innovations.

In furtherance of this policy, the Board has adopted and implemented the AvancED framework to facilitate this process.
It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing the provision of law allowing proficiency-based ANB.

At the discretion of the District, a student may be given credit for a course satisfactorily completed in a period of time shorter or longer than normally required and, provided that the course meets the District's curriculum and assessment requirements, which are aligned with the content standards stated in the education program. Examples of acceptable course work include, but are not necessarily limited to, those delivered through correspondence, extension, and distance learning courses, adult education, summer school, work study, specially designed courses, and challenges to current courses.

Transfers for School Safety

It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing the provision of law allowing transfers of funds to improve school safety and security.

The District may transfer state or local revenue from any budgeted or non-budgeted fund, other than the debt service fund or retirement fund, to its building reserve fund in an amount not to exceed the school district's estimated costs of improvements to school safety and security.

The transfer of such funds can be for:
1. planning for improvements to school safety, including but not limited to the cost of services provided by architects, engineers, and other consultants;
2. installing or updating locking mechanisms and ingress and egress systems at public school access points, including but not limited to systems for exterior egress doors and interior passageways and rooms, using contemporary technologies;
3. installing or updating bullet-resistant windows and barriers; and
4. installing or updating emergency response systems using contemporary technologies.

Any transfers made under this policy and Montana law are not considered expenditures to be applied against budget authority. Any revenue transfers that are not encumbered for expenditures in compliance with the four reasons stated above, within 2 full school fiscal years after the funds are transferred, must be transferred back to the originating fund from which the revenue was transferred.

If transfers of funds are made from a District fund supported by a non-voted levy, the District may not increase its non-voted levy for the purpose of restoring the transferred funds.

- 20-9-503, MCA Budgeting, tax levy, and use of building reserve fund.
- 20-9-236, MCA Transfer of funds – improvements to school safety and security.
It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing multidistrict agreements whenever possible.

Montana law (20-3-363, MCA) allows the boards of trustees of any two or more school districts to enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts and to provide for the joint funding and operation and maintenance of all participating districts upon the terms and conditions as may be mutually agreed to by the districts.

The agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative. The agreement may be for a period of up to 3 years.

All expenditures in support of the multidistrict agreement may be made from the interlocal cooperative fund as specified in 20-9-703 and 20-9-704. Each participating district of the multidistrict cooperative may transfer funds into the interlocal cooperative fund from the district's general fund, budgeted funds other than the retirement fund or debt service fund, or non-budgeted funds other than the compensated absence liability fund. Transfers to the interlocal cooperative fund from each participating school district's general fund are limited to an amount not to exceed the direct state aid in support of the respective school district's general fund. Transfers from the retirement fund and debt service fund are prohibited. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law.

Expenditures from the interlocal cooperative fund are limited to those expenditures that are permitted by law and that are within the final budget for the budgeted fund from which the transfer was made.

If transfers of funds are made from a District fund supported by a non-voted levy, the District may not increase its non-voted levy for the purpose of restoring the amount of funds transferred.

Examples of flexibility under this policy and Montana Law include but are not limited to:

- A district with a separate high school and elementary budget can enter into an agreement within the district;
- A district may enter into an agreement with any other school district(s) for the sharing of resources, including supplies, services, personnel, etc.

Increase in Over-Base Levy Authority Without a Vote

It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing provisions in law that allow for increases in over-base levy authority without a vote through decreases in other non-voted levies.

Provided that budget limitations otherwise specified in law are not exceeded, the Board of Trustees may in its discretion increase the District's over-base budget levy without a vote if the Board reduces non-voted property tax levies authorized by law to be imposed by action of the Board by at least as much as the amount by which the over-BASE budget levy is increased. The ongoing authority for any non-voted increase in the over-BASE budget levy imposed must be decreased in future years to the extent the Board imposes any increase in other non-voted property tax levies.

Flexible Instructor Licensing

It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing the provision of law allowing flexibility in licensure of instructors and as a means of addressing recruitment and retention of staff. Cooperative Purchasing

It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing provisions in law that allow for cooperative purchasing without the formalities of the bidding process.

The District may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. This allows the District to participate in a cooperative purchasing group to purchase supplies and services through the group without bidding if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard.

It is the policy of the District to increase the flexibility and efficiency of the District’s resources by utilizing provisions in law that allow the District to levy amounts necessary to provide FAPE to resident students with special needs.

In addition to use of a tuition levy to pay tuition for out-of-district attendance of a resident pupil, a school district may also include in its tuition levy an amount necessary to pay for the full costs of providing a free appropriate public education to any child with a disability who lives in the District. The amount of the levy imposed for the costs associated with educating each child with a disability must be limited to the actual cost of service under the child’s individualized education program minus:

(A) the student’s state special education payment;
(B) the student’s federal special education payment;
(C) the student's per-ANB amount;
(D) the prorated portion of the district’s basic entitlement for each qualifying student; and

School Board Advocacy

The Board of Trustees of Laurel School District believes it has a responsibility to the students, parents, and community to advocate for student achievement and quality education. In order to meet these responsibilities, the District will work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal or modification of existing laws that impede this cause.

Trustees must keep themselves and community members informed of pending legislation and actively communicate board positions and concerns to elected representatives at both the state and national level. The Board must work with legislative representatives (both state and federal), with the Montana School Boards Association, the National School Boards Association, and other concerned groups in developing an annual as well as long-range legislative program.

Each Trustee is encouraged to participate in the MTSBA Delegate Assembly, the MTSBA Board Legislative Contact Program and the caucuses. We also encourage each board and trustee to be aware of the importance of building a relationship with the community, to be used to increase student success.

In doing so, the Board will:

1. At its annual organizational meeting appoint a member as its Board Legislative Contact (BLC) to the Montana School Boards Association (MTSBA). This person will:
   a. Serve as the Board’s liaison to MTSBA;
   b. Attend the Day of Advocacy during each legislative session;
   c. Attend other state and regional association meetings as approved by the Board; and
   d. Advise MTSBA of the Board’s views regarding MTSBA’s legislative positions and activities.

2. At least once each month, the Board meeting agenda will include an opportunity for the BLC to report on educational issues pending on the state and federal levels.

3. Work with the BLC, MTSBA, the National School Boards Association (NSBA), and other concerned groups and organizations on matters of mutual interest.

4. The BLC, or designee, will attend the Day of Advocacy during each legislative session.

5. The BLC, or designee, will attend the annual Delegate Assembly.

Board Meetings

Meetings of the Board must occur at a duly called and legally conducted meeting. “Meeting” is defined as the convening of a quorum of the constituent membership of the Board, whether in person or by means of electronic equipment, to hear, discuss, or act upon a matter over which the Board has supervision, control, jurisdiction, or advisory power.

Regular Meetings

Unless otherwise specified, all meetings will take place in the District Conference Room. Regular meetings shall take place at 6:00 p.m. on the 2nd and 4th Monday of each month, or at other times and places determined by a majority vote. Except for an unforeseen emergency, meetings must be held in school buildings or, upon the unanimous vote of the trustees, in a publicly accessible building located within the District. If regular meetings are scheduled at places other than as stated above or are adjourned to times other than the regular meeting time, notice of the meeting shall be made in the same manner as provided for special meetings. The trustees may meet outside the boundaries of the District for collaboration or cooperation on educational issues with other school boards, educational agencies, or cooperatives. Adequate notice of the meeting, as well as an agenda, must be provided to the public in advance. Decision making may only occur at a properly noticed meeting held within the District’s boundaries. When a meeting date falls on a school holiday, the meeting may take place the next business day.

Emergency Meetings

In the event of an emergency involving possible personal injury or property damage, the Board may meet immediately and take official action without prior notification.

Budget Meetings

Between July 1 and August 10 of each year, the Clerk shall publish a notice stating the date, time, and place trustees will meet for the purpose of considering and adopting a final budget for the District, stating that the meeting of the trustees may be continued from day to day until final adoption of a District budget and that any taxpayer in the District may appear at the meeting and be heard for or against any part of the budget. This notice shall be published in the newspaper with the widest circulation in the district.

On the date and at the time and place stated in the published notice (on or before August 20), trustees shall meet to consider all budget information and any attachments required by law. The meeting may continue from day to day; however, the Board must adopt a final budget not later than August 25.

Special Meetings

Special meetings may be called by the Chairperson or by any two (2) trustees. A written notice of a special meeting, stating the purpose of the meeting, shall be delivered to every trustee not less than forty-eight (48) hours before the time of the meeting, except that the forty-eight-(48)-hour notice is waived in an unforeseen emergency as stated in § 20-3-322(5), MCA. Such written notice shall be posted conspicuously within the District in a manner that will receive public attention. Written notice also shall be sent not less than twenty-four (24) hours prior to the meeting, to each newspaper and radio or television station that has filed a written request for such notices. Business transacted at a special meeting will be limited to that stated in the notice of the meeting.

Closed Sessions

Under Montana law, the Board may meet in closed sessions to consider matters of individual privacy. Before closing a meeting, the presiding officer must determine that the demands of individual privacy exceed the merits of public disclosure and so state publicly before going into closed session. The Board also may go into closed session to discuss a strategy to be followed with respect to litigation, when an open meeting would have a detrimental effect on the litigating position of the District. This exception does not apply if the litigation involves only public bodies or associations as parties. Before closing a meeting for litigation purposes, the District may wish to consult legal counsel on the appropriateness of this action. No formal action shall take place during any closed session.

THE BOARD OF TRUSTEES

School Board Meeting Procedure

Agenda

The authority to set the board agenda lies with the Board Chair in consultation with board members and the administration. The act of preparing the board meeting agendas can be delegated to the Superintendent.

The Board Chairperson must approve any items submitted by Board members or members of the public, to be placed on the agenda. Citizens wishing to make brief comments about school programs or procedures will follow the public comment procedures in district policy.

The agenda also must include a “public comment” portion to allow members of the general public to comment on any public matter under the jurisdiction of the District which is not specifically listed on the agenda, except that no member of the public will be allowed to comment on contested cases, other adjudicative proceedings, or personnel matters. The Board Chairperson may place reasonable time limits on any “public comment” period to maintain and ensure effective and efficient operations of the Board. The Board shall not take any action on any matter discussed, unless the matter is specifically noticed on the agenda, and the public has been allowed opportunity to comment.

With consent of a majority of members present, the order of business at any meeting may be changed. Copies of the agenda for the current Board meeting, minutes of the previous Board meeting, and relevant supplementary information will be prepared and distributed to each trustee at least twenty-four (24) hours in advance of a Board meeting and will be available to any interested citizen at the Superintendent’s office twenty-four (24) hours before a Board meeting. An agenda for other types of Board meetings will be prepared, if circumstances require an agenda.

Consent Agenda

To expedite business at its meetings, the Board approves the use of a consent agenda, which includes those items considered to be routine in nature. Any item that appears on the consent agenda may be removed by a member of the Board. Any Board member who wishes to remove an item from the consent agenda must give advance notice in a timely manner to the Superintendent. Remaining items will be voted on by a single motion. The approved motion will be recorded in the minutes, including a listing of all items appearing on the consent agenda.

Minutes

Appropriate minutes of all meetings required to be open must be kept and must be available for inspection by the public. If an audio recording of a meeting is made and designated as official, the recording constitutes the office record of the meeting. If an official recording is made, a written record of the meeting must also be made and must also include:

- Date, time, and place of the meeting;
- Presiding officer;

© MTSBA 2019
Board members recorded as absent or present;  
Summary of discussion on all matters discussed (including those matters discussed during the “public comment” section), proposed, deliberated, or decided, and a record of any votes taken;  
Detailed statement of all expenditures;  
Purpose of recessing to closed session; and  
Time of adjournment.

When issues are discussed that may require a detailed record, the Board may direct the Clerk to record the discussion verbatim. Any verbatim record may be destroyed after the minutes have been approved, pursuant to § 20-1-212, MCA.

If the minutes are recorded and designated as the official record, a log or time stamp for each main agenda item is required for the purpose of providing assistance to the public in accessing that portion of the meeting.

Unofficial minutes shall be delivered to Board members in advance of the next regularly scheduled meeting of the Board. Minutes need not be read publicly, provided that Board members have had an opportunity to review them before adoption. A file of permanent minutes of Board meetings shall be maintained in the office of the Clerk, to be made available for inspection upon request. A written copy shall be made available within five (5) working days following approval by the Board.

Quorum

No business shall be transacted at any meeting of the Board unless a quorum of its members is present. A majority of the full membership of the Board shall constitute a quorum, whether the individuals are present physically or electronically. A majority of the quorum may pass a resolution, except as provided in § 20-4-203(1), MCA, and § 20-4-401(4), MCA.

Electronic Participation

The Board may allow members to participate in meetings by telephone or other electronic means. Board members may not simply vote electronically but must be connected with the meeting throughout the discussion of business. If a Board member electronically joins the meeting after an item of business has been opened, the remotely located member shall not participate until the next item of business is opened.

If the Board allows a member to participate electronically, the member will be considered present and will have his or her actual physical presence excused. The member shall be counted present for purposes of convening a quorum. The Clerk will document it in the minutes, when members participate in the meeting electronically.

Any Board member wishing to participate in a meeting electronically will notify the Chairperson and Superintendent as early as possible. The Superintendent will arrange for the meeting to take place in a location with the appropriate equipment so that Board members participating in the meeting
electronically may interact, and the public may observe or hear the comments made. The Superintendent will take measures to verify the identity of any remotely located participants.

**Meeting Conduct and Order of Business**

General rules of parliamentary procedure are used for every Board meeting. *Robert’s Rules of Order* may be used as a guide at any meeting. The order of business shall be reflected on the agenda. The use of proxy votes shall not be permitted. Voting rights are reserved to those trustees in attendance. Voting shall be by acclamation or show of hands.

**Rescind a Motion**

A motion to rescind (cancel previous action) may be made anytime by any trustee. A motion to rescind must be properly noticed on the Board’s agenda for the meeting. It is in order any time prior to accomplishment of the underlying action addressed by the motion.

Abstentions From Voting

Section 20-3-323(2), MCA, requires the minutes of each Board meeting to include the voting records of each trustee present. As a general rule trustees should vote on all issues, unless casting a vote would be a violation of law. Under Montana law, instances in which it would be unlawful or inappropriate for a trustee to cast a vote on a particular issue include but are not necessarily limited to the following:

1. When hiring the relative of a trustee;
2. When casting a vote would directly and substantially affect, to its economic benefit, a business or other undertaking in which the trustee either has a substantial financial interest or in which the trustee is engaged as counsel, consultant, representative, or agent;
3. When casting a vote would directly and substantially affect a business or other undertaking to its economic detriment, where a trustee has a substantial personal interest in a competing firm or undertaking;
4. When casting a vote would cause a trustee to have a pecuniary interest, either directly or indirectly, in a contract made by the trustee (while acting in the trustee’s official capacity) or by the Board; and
5. When casting a vote would put the trustee in the position of an agent or solicitor in the sale or supply of goods or services to the District.

In addition, a trustee shall be allowed to abstain from voting to avoid the appearance of impropriety or the appearance of a perceived conflict. If a trustee abstains from voting, the abstention should be recorded in the minutes and may include an explanation of the reasons for the abstention. The Board discourages abstentions, unless the reasons are substantiated as provided herein.

The Board recognizes the value of public comment on educational issues and the importance of involving members of the public in its meetings. The Board also recognizes the statutory and constitutional rights of the public to participate in governmental operations. To allow fair and orderly expression of public comments, the Board will permit public participation through oral or written comments during the “public comment” section of the Board agenda and prior to a final decision on a matter of significant interest to the public. The Chairperson may control such comment to ensure an orderly progression of the meeting.

Individuals wishing to be heard by the Chairperson shall first be recognized by the Chairperson. Individuals, after identifying themselves, will proceed to make comments as briefly as the subject permits. The Chairperson may interrupt or terminate an individual’s statement when appropriate, including when statements are out of order, too lengthy, personally directed, abusive, obscene, or irrelevant. The Board as a whole shall have the final decision in determining the appropriateness of all such rulings. It is important for all participants to remember that Board meetings are held in public but are not public meetings. Members of the public shall be recognized and allowed input during the meeting, at the discretion of the Chairperson.

Board/Staff Communications

Every reasonable means of communication is encouraged throughout the education community. Nevertheless, an organization must maintain some order and structure to promote efficient and effective communications.

Staff Communications to the Board

All official communications or reports to the Board, from principals, supervisors, teachers, or other staff members, shall be submitted through the Superintendent. This procedure shall not deny any staff member the right to appeal to the Board from administrative decisions, provided that the Superintendent shall have been notified of the forthcoming appeal and that it is processed according to the applicable procedures for complaints and grievances.

Board Communications to Staff

All official communications, policies, and directives of staff interest and concern will be communicated to staff members through the Superintendent. The Superintendent will employ all such media as are appropriate to keep staff fully informed of Board concerns and actions.

Visits to Schools

In accordance with Montana statutes, each trustee shall visit every school of the District at least once each school fiscal year to examine its condition and needs. As a courtesy, individual Board members interested in visiting schools should make arrangements for visitations through the principals of the various schools. Such visits shall be regarded as informal expressions of interest in school affairs and not as “inspections” or visits for supervisory or administrative purposes.

Social Interaction

Staff and Board members share a keen interest in schools and education. When they meet at social affairs and other functions, informal discussion about such matters as educational trends, issues, and innovations and general District problems can be anticipated. Discussions of personalities or staff grievances are not appropriate.

The members of the trustees of any district may not receive compensation for their services as trustees. The members of the trustees who reside over 3 miles from the trustees’ meeting place must be reimbursed at the rate as provided in 2-18-503 for every mile necessarily traveled between their residence and the meeting place and return in attending the regular and special meetings of the trustees, and all trustees must be similarly reimbursed for meetings called by the county superintendent. The travel reimbursement may be accumulated during the school fiscal year and paid at the end of the fiscal year, at the discretion of each trustee.

A trustee is entitled to collect mileage at a rate equal to the mileage allotment allowed by the United States internal revenue service for the current year for the first 1,000 miles and 3 cents less per mile for all additional miles traveled within a given calendar month.

A trustee must file a reimbursement for mileage form, prior to July 1 of each year, requesting reimbursement for the fiscal year. The form may be obtained from the District Clerk/Business Manager.

Trustees elected by the citizens to serve on the board which provides governance to the school district, a financially large public enterprise, serve without financial compensation. To intelligently deal with enumerable issues and to budget and monitor thousands of dollars in expenditures annually, training and communications are essential. Trustees normally attend workshops, training institutes, and conferences at both the state and national level. It is appropriate that trustee expenditures at these out-of-district meetings be paid by the school district.

Trustees normally attend workshops, training institutes, and conferences at both the state and national levels. The District will pay all legitimate costs for trustees to attend out-of-District meetings, at established rates for reimbursement set by the District:

1. Transportation as approved by the Board;
2. On-site transportation during the course of the meeting, i.e., bus, taxi, or rental car;
3. Hotel or motel costs for trustee, as necessary;
4. Food costs as necessary;
5. Telephone services for necessary communications with business or family, resulting from the trustee being away from Laurel;
6. Incidental expenditures for tips and other necessary costs attributable to the trustee’s attendance at a meeting; however, the District will not reimburse or pay for such items as liquor, expenses of a spouse, separate entertainment, or other unnecessary expenditures.

Utilization of Montana School Boards Association

The Board is a dues-paying member of the Montana School Boards Association (MTSBA). Since the Association provides a variety of dues-based benefits and services in response to members’ needs and develops and implements a legislative program at the direction of its members, Board members are encouraged to participate in the governance and dues-based services of the Association.

Given the complex nature of both state and federal laws applicable to school districts and the vast resources available through MTSBA to assist our school district as a member, it is essential to the governance and operations of our District that the Board of Trustees and administration take advantage of the dues-based services available through MTSBA on legal, policy, human resource, collective bargaining, training, advocacy and other issues that impact and affect our District.

Therefore the Board of Trustees directs trustees and the administration to maximize the value of our membership dues through use of the dues-based services available through MTSBA on routine legal matters, policy issues, collective bargaining matters, human resource, training and advocacy matters. Prior approval from the Board is required prior to expending District funds on services that are otherwise available through MTSBA without a charge beyond dues.

Internships

Internship means an agreement between a fully licensed Class 1, 2, or 3 educators, the school district, and a Montana accredited educator preparation program. Internships are permitted in endorsement areas approved by the Board of Public Education.

The Board recognizes the need to provide training opportunities for prospective teachers and administrators. Internships for those in the process of acquiring teaching endorsements and/or administrative credentials shall be considered and approved on an individual basis. The Superintendent or designee involved will review the internship proposal with the candidate and the university representative, much in the same manner as student teachers are assigned.

As part of an internship agreement, the parties must agree to the following:

(a) the intern will complete the requirements for the appropriate endorsement within three years;
(b) the school district will provide local supervision and support of the intern; and
(c) the accredited educator preparation program will approve the coursework and provide support and periodic supervision.

A superintendent intern shall be supervised throughout the year by a licensed and endorsed superintendent contracted by the district, including participation in, and review of, and written concurrence in all performance evaluations of licensed staff completed by the intern.

An emergency authorization of employment granted by the Superintendent of Public Instruction pursuant to §20-4-111, MCA is not a license; therefore is not eligible for an internship.

THE BOARD OF TRUSTEES

Uniform Complaint Procedure

The Board establishes this Uniform Complaint Procedure as a means to address complaints arising within the District. This Uniform Complaint Procedure is intended to be used for all complaints except those governed by a collective bargaining agreement.

The District requests all individuals to use this complaint procedure, when the individual believes the Board or its employees or agents have violated the individual’s rights under: (1) Montana constitutional, statutory, or administrative law; (2) United States constitutional, statutory, or regulatory law; or (3) Board policy.

The District will endeavor to respond to and resolve complaints without resorting to this formal complaint procedure and, when a complaint is filed, to address the complaint promptly and equitably. The right of a person to prompt and equitable resolution of a complaint filed hereunder will not be impaired by a person’s pursuit of other remedies. Use of this complaint procedure is not a prerequisite to pursuit of other remedies, and use of this complaint procedure does not extend any filing deadline related to pursuit of other remedies.

The Superintendent has the authority to contract with an independent investigator at any time during the complaint procedure process. Within fifteen (15) calendar days of the Superintendent’s receipt of the independent investigator’s report and recommendation, the Superintendent will respond to the complaint and take such administrative steps as the Superintendent deems appropriate and necessary.

Level 1: Informal

An individual with a complaint is first encouraged to discuss it with the appropriate teacher, counselor, or building administrator, with the objective of resolving the matter promptly and informally. An exception is that a complaint of sexual harassment should be discussed directly with an administrator not involved in the alleged harassment.

Level 2: Building Administrator

When a complaint has not been or cannot be resolved at Level 1, an individual may file a signed and dated written complaint stating: (1) the nature of the complaint; (2) a description of the event or incident giving rise to the complaint, including any school personnel involved; and (3) the remedy or resolution requested. This written complaint must be filed within thirty (30) calendar days of the event or incident or from the date an individual could reasonably become aware of such event or incident.

When a complaint alleges violation of Board policy or procedure, the building administrator will investigate and attempt to resolve the complaint. The administrator will respond in writing to the
complaint, within thirty (30) calendar days of the administrator’s receipt of the complaint.

If either the complainant or the person against whom the complaint is filed is dissatisfied with the administrator’s decision, either may request, in writing, that the Superintendent review the administrator’s decision. (See Level 3.) This request must be submitted to the Superintendent within fifteen (15) calendar days of the administrator’s decision.

When a complaint alleges sexual harassment or a violation of Title IX of the Education Amendments of 1972 (the Civil Rights Act), Title II of the Americans with Disabilities Act of 1990, or Section 504 of the Rehabilitation Act of 1973, the building administrator may turn the complaint over to a District nondiscrimination coordinator. The coordinator will complete an investigation and file a report and recommendation with the Superintendent. A coordinator may hire, with the approval of the Superintendent, an independent investigator to conduct the investigation. Within fifteen (15) calendar days of the Superintendent’s receipt of the coordinator’s or independent investigator’s report and recommendation, the Superintendent will respond to the complaint and take such administrative steps as the Superintendent deems appropriate and necessary. If either the complainant or the person against whom the complaint is filed is dissatisfied with the Superintendent’s decision, either may request, in writing, that the Board consider an appeal of the Superintendent’s decision. (See Level 4.) This request must be submitted in writing to the Superintendent, within fifteen (15) calendar days of the Superintendent’s written response to the complaint, for transmission to the Board.

Level 3: Superintendent

If either the complainant or the person against whom the complaint is filed appeals the administrator’s decision provided for in Level 2, the Superintendent will review the complaint and the administrator’s decision. The Superintendent will respond in writing to the appeal, within thirty (30) calendar days of the Superintendent’s receipt of the written appeal. In responding to the appeal, the Superintendent may: (1) meet with the parties involved in the complaint; (2) conduct a separate or supplementary investigation; (3) engage an outside investigator or other District employees to assist with the appeal; and/or (4) take other steps appropriate or helpful in resolving the complaint.

If either the complainant or the person against whom the complaint is filed is dissatisfied with the Superintendent’s decision, either may request, in writing, that the Board consider an appeal of the Superintendent’s decision. (See Level 4.) This request must be submitted in writing to the Superintendent, within fifteen (15) calendar days of the Superintendent’s written response to the complaint, for transmission to the Board.

Level 4: The Board

Upon written appeal, the Board will consider the Superintendent’s decision in Level 2 or 3. Upon receipt of written request for appeal, the Chair will either: (1) place the appeal on the agenda of a
regular or special Board meeting; [or (2) appoint an appeals panel of not less than three (3) trustees to hear the appeal and make a recommendation to the Board. If the Chair appoints a panel to consider the appeal, the panel will meet to consider the appeal and then make written recommendation to the full Board.] The Board will report its decision on the appeal, in writing, to all parties, within thirty (30) calendar days of the Board meeting [at which the Board considered the appeal or the recommendation of the panel]. A decision of the Board is final, unless it is appealed pursuant to Montana law within the period provided by law.

Level 5: County Superintendent

When a matter falls within the jurisdiction of a county superintendent of schools, the decision of the Board may be appealed to the county superintendent by filing written appeal within thirty (30) calendar days of the Board’s decision, pursuant to Montana law.

Grade Organization

The District maintains instructional levels for grades kindergarten (K) through twelve (12). The grouping and housing of instructional levels in school facilities will be according to plans developed by the Superintendent and approved by the Board.

Kindergarten through 4 Elementary School

Grades 5, 6, 7, 8 Middle School

Grades 9 through 12 High School

Instructional programs will be coordinated between each grade and between levels of schools.

A student will be assigned to an instructional group or to a classroom which will best serve the needs of that individual while still considering the rights and needs of other students. Factors to be considered in classroom assignments are class size, peer relations, student/teacher relations, instructional style of individual teachers, and any other variables that will affect the performance of the student.

Criteria for grouping will be based on learning goals and objectives addressed and the student’s ability to achieve those purposes.

The Superintendent is directed to develop instructional programs which will enable each student to learn at the student’s best rate. The instructional program will strive to provide for:

1. Placement of a student at the student’s functional level;
2. Learning materials and methods of instruction considered to be most appropriate to the student’s learning style; and
3. Evaluation to determine if the desired student outcomes have been achieved.

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District’s educational objectives as identified in Board Policy. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys Created by a Third Party

Before the District administers or distributes a survey created by a third party to a student, the student’s parent(s)/guardian(s) may inspect the survey upon request and within a reasonable time of their request.

This section applies to every survey: (1) that is created by a person or entity other than a District official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

1. Political affiliations or beliefs of the student or the student’s parent/guardian;
2. Mental or psychological problems of the student or the student’s family;

The student’s parent(s)/guardian(s) may:

1. Inspect the survey within a reasonable time of the request; and/or

The school shall not penalize any student whose parent(s)/guardian(s) exercise this option.
Instructional Material

A student’s parent(s)/guardian(s) may, within a reasonable time of the request, inspect any instructional material used as part of their child’s educational curriculum.

The term “instructional material,” for purposes of this policy, means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The District will not collect, disclose, or use student personal information for the purpose of marketing or selling that information or otherwise providing that information to others for that purpose.

The District, however, is not prohibited from collecting, disclosing, or using personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions such as the following:

2. Book clubs, magazines, and programs providing access to low-cost literary products;
3. Curriculum and instructional materials used by elementary schools and secondary schools;

Guidance and Counseling Guidelines

School counselors, teachers, specialist personnel and administrators, serving in the role of “personal counselor” to students, are often confronted with situations that are directly involved with the student’s feelings or concerns about the family and the home. Many times in these situations, the counselor is aware only of the student’s point of view. The board is concerned that school personnel should not exceed their role as counselors in these personal matters and, as such, has adopted the following guidelines:

Principles

1. The counseling relationship and the information resulting there from shall be kept confidential in accordance with the law.

2. The counseling relationship between school personnel and students should be completely free of any personal relationship that might create a “conflict of interest”. The staff member must remain completely objective in his/her handling of personal matters that come to his/her attention.

3. The staff member engaged in the counseling process should be competent to deal effectively and objectively with the cases he/she accepts. If not, he/she should make appropriate referrals.

Priorities

When engaged in the counseling process, particularly with students who are minors, staff members must be keenly aware of the rights of parents/guardians.

Staff members should recognize and foster the primacy of parents and/or guardians in the lives of students.

Staff members should operate on the principle that it is generally in the best interest of the student to work cooperatively with parents, guardians and students in attempting to resolve personal family conflicts.

Procedures

In personal counseling, the generally recognized first requirement is to listen carefully and establish rapport with the counselor. If in the counseling situation, a problem involving the family emerges, the following procedures are to be observed:

© MTSBA 2011
Parental or guardian involvement is to be solicited at the earliest appropriate time with the consent of the counselee. Should the counsel permit parental/guardian contact, the staff member should proceed in a prudent, impartial and professional manner offering any assistance or help to which the parents/guardians and student agree.

If the student requests that the matter not be discussed with the parent or guardian, the staff member shall honor the request while continuing the counseling relationship unless there is potential for harm to self or others.

**Abuse or Neglect**

When a counselor or other school employee knows or has reasonable cause to suspect that a child has been abused or neglected, he/she shall report the matter promptly to the Department of Family Services or its local affiliate. District procedures require that if time and circumstances permit, the counselor or employee must first notify the building principal of such a suspicion. However, under state law, it is still the responsibility of the counselor or employee to insure the report is made.

Interscholastic Activities

The District recognizes the value of a program of interscholastic activities as an integral part of the total school experience. The program of interscholastic activities will include all activities relating to competitive sport or intellectual contests, games or events, or exhibitions involving individual students or teams of students of this District, when such events occur between schools outside this District.

All facilities and equipment utilized in the interscholastic activity program, whether or not the property of the District, will be inspected on a regular basis. Participants will be issued equipment which has been properly maintained and fitted.

All personnel coaching intramural or interscholastic activities will hold a current valid first aid certificate.

The Board recognizes that certain risks are associated with participation in interscholastic activities. While the District will strive to prevent injuries and accidents to students, each parent or guardian will be required to sign an “assumption of risk” statement indicating that the parents assume all risks for injuries resulting from such participation. Each participant will be required to furnish evidence of physical fitness (physical form) prior to becoming a member of an athletic team. A participant will be free of injury and will have fully recovered from illness before participating in any event.

Coaches and/or trainers may not issue medicine of any type to students. This provision does not preclude the coach and/or trainer from using approved first aid items.

Activity Participation Pledge

The opportunity to participate in the extracurricular program sponsored by Laurel Public Schools is a privilege extended to all district students. Students who choose to be part of the program are expected to make the commitment to adhere to the philosophy and rules governing the various activities making up the district’s extracurricular program. The board believes that participation in these types of activities can contribute to the all-around development of our students.

Use of Possession of Illegal Drugs, Alcohol or Tobacco

The board further believes that necessary and proper rules governing the use of illegal substances serve the following purposes:

1. To emphasize concern for the health and well-being of students while participating in activities.
2. To provide an environment for the participants that is drug, alcohol and tobacco free.
3. To promote a sense of self-discipline among the students.
4. To confirm and support existing state laws governing minors and their use and abuse of illegal substances.
5. To emphasize standards of conduct for those students who through their participation are leaders and role models for their peers and younger students.
6. To assist students who desire to resist peer pressure to possess and use these substances

Coverage

These rules cover the use, personal possession, sale or distribution of alcohol, illegal drugs, tobacco, and the abuse of prescription of non-prescription drugs. The policy is not intended to apply to the use of prescribed drugs, under a doctor’s supervision, when those drugs are used in the prescribed manner.

A participant is in violation of this policy if he or she is knowingly in attendance at a gathering or function where illegal substances (except tobacco products) are present unless it is a family or recognized community gathering or function. Even if the participant is not in possession of, or using, an illegal substance at the gathering or function, he or she will be subject to the consequences as outlined in this policy.

First Violation – The student will be suspended from the activity they are currently participating in or the next activity they participate in for two weeks of competition. The offender may practice, but cannot participate in a formal activity or performance. As part of this ban on participation, the student will not be allowed to be part of the team or group during the activity.
either home or away. The student will be required to meet with a Chemical Dependency Counselor for an evaluation and provide written documentation verifying the appointment.

**Second Violation** - The student will be recommended to the Board for suspension or exclusion from ALL extracurricular activities for the remainder of the school year. The student will also be required to meet with a Chemical Dependency Counselor for additional evaluation services and provide written documentation verifying this appointment. The verification must be provided to the school district before the student is allowed to participate in any activities the following year.

If any violation of this policy occurs during the last two weeks of the spring season, the student will not be allowed to participate during the first two weeks of competition in the next activity they participate in during the next school year. The student must also complete the entire season of the next activity they participate in order for this rule to apply.

**Violations**

The district may become aware of infractions through law enforcement or court officers. Otherwise, student infractions must be reported and/or validated by employees of Laurel School District or members of the board of trustees if action is to be taken under this policy. The district reserves the right to conduct its own investigation; make a determination of guilt; and apply sanctions independent of any pending court action against the student arising from the same offense.

**Policy Duration**

This policy is in effect from the date of the first practice to the conclusion of the activity.

**Non-season Activities:** (Music, clubs, royalty candidates, class officers, and any school sponsored trips.)

First Violation- The student is excluded from all non-season school activities for 45 school days. The student will be required to meet with a Chemical Dependency Counselor for an evaluation and provide written documentation verifying the appointment.

Second Violation-The student will be recommended to the Board for suspension or exclusion from all extracurricular activities, including season and non-season activities, for the remainder of the school year. The student will also be required to meet with a Chemical Dependency Counselor for additional evaluation services and provide written documentation verifying the appointment. This verification must be provided to the school district before the student is allowed to participate in any activities the following year.
Academic Eligibility

All students must meet eligibility requirements of the Montana High School Association and the local requirements of Laurel High School to compete in extracurricular activities.

In general, students are eligible by meeting the following requirements and the Montana High School Association regulations, the Laurel High School/Middle School student handbook, and student pledge:

1. Student is in regular attendance and is enrolled in and receiving a passing grade in all but one subject, and he/she is maintaining a 2.0 grade point average at the end of each mid-term and quarter grading period. At the end of the semester grading period, the semester grade will be the determining factor at the high school level. All class grades are computed for eligibility requirements.

2. For incoming freshman students, the 4th quarter grades from the Middle School will carry over to determine eligibility.

Responsibility for Equipment Return

The student must agree to be responsible for the safe return or replacement of all athletic and/or activity equipment issued by the school.

Participation Risks

Participation in organized interscholastic athletics involves the potential for injury which is inherent in all sports. Even with competent coaching, the use of appropriate protective equipment and strict observance of rules, injuries are still a possibility. On rare occasions, these injuries can be so severe as to result in total disability, paralysis, quadriplegic, or even death. Because of these dangers, participants and parents/guardians must recognize the importance of following coaches’ instructions regarding playing techniques, training and other team rules and agree to obey such instructions.

Family Engagement Policy

The Laurel Board of Trustees believes that engaging parents/families in the education process is essential to improved academic success for students. The Board recognizes that a student's education is a responsibility shared by the district, parents, families and other members of the community during the entire time a student attends school. The Board believes that the district must create an environment that is conducive to learning and that strong, comprehensive parent/family involvement is an important component. Parent/Family involvement in education requires a cooperative effort with roles for the Office of Public Instruction (OPI), the district, parents/families and the community.

Parent/Family Involvement Goals and Plan

The Board of Trustees recognizes the importance of eliminating barriers that impede parent/family involvement, thereby facilitating an environment that encourages collaboration with parents, families and other members of the community. Therefore, the district will develop and implement a plan to facilitate parent/family involvement that shall include the following six (6) goals:

1. Promote families to actively participate in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class;

2. Promote families and school staff to engage in regular, two-way meaningful communication about student learning;

3. Promote families and school staff to continuously collaborate to support student learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to do so effectively;

4. Empower parents to be advocates for their own and other children, to ensure that students are treated equitably and have access to learning opportunities that will support their success;

5. Encourage families and school staff to be partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs; and

6. Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to expand learning opportunities, community services, and civic participation.
The district's plan for meeting these goals is to:

1. Provide activities that will educate parents regarding the intellectual and developmental needs of their children at all age levels. This will include promoting cooperation between the district and other agencies or school/community groups (such as parent-teacher groups, Head Start, etc.) to furnish learning opportunities and disseminate information regarding parenting skills and child/adolescent development.

2. Implement strategies to involve parents/families in the educational process, including:
   < Keeping parents/families informed of opportunities for involvement and encouraging participation in various programs.
   < Providing access to educational resources for parents/families to use together with their children.
   < Keeping parents/families informed of the objectives of district educational programs as well as of their child's participation and progress within these programs.

3. Enable families to participate in the education of their children through a variety of roles. For example, parents/family members should be given opportunities to provide input into district policies and volunteer time within the classrooms and school programs.

4. Provide professional development opportunities for teachers and staff to enhance their understanding of effective parent/family involvement strategies.

5. Perform regular evaluations of parent/family involvement at each school and at the district level.

6. Provide access, upon request, to any instructional material used as part of the educational curriculum.

7. If practical, provide information in a language understandable to parents.

The District endorses the parent involvement goals of Title I and encourages the regular participation of parents of Title I eligible children in all aspects of the program. The education of children is viewed as a cooperative effort among the parents, school, and community. In this policy the word “parent” also includes guardians and other family members involved in supervising the child’s schools.

Pursuant to federal law the District will develop jointly with, agree upon with, and distribute to parents of children participating in the Title I program a written parent involvement policy.

At the required annual meeting of Title I parents, parents will have opportunities to participate in the design, development, operation, and evaluation of the program for the next school year. Proposed activities to fulfill the requirements necessary to address the requirements of parental-involvement goals shall be presented.

In addition to the required annual meeting, additional meetings as required by law shall be held at various times of the day and/or evening for parents of children participating in the Title I program. These meetings shall be used to provide parents with:

1. Information about programs provided under Title I;
2. A description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet;
3. Opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children; and
4. The opportunity to bring parent comments, if they are dissatisfied with the school’s Title I program, to the District level.

Title I funding, if sufficient, may be used to facilitate parent attendance at meetings, through payment of transportation and childcare costs.

The parents of children identified to participate in Title I programs shall receive from the school principal and Title I staff an explanation of the reasons supporting each child’s selection for the program, a set of objectives to be addressed, and a description of the services to be provided. Opportunities will be provided for the parents to meet with the classroom and Title I teachers to discuss their child’s progress. Parents will also receive guidance as to how they can assist at home in the education of their children.
Each school in the District receiving Title I funds shall develop jointly with parents of children served in the program a “School-Parent Compact” outlining the manner in which parents, school staff, and students share the responsibility for improved student academic achievement in meeting state standards. The “School-Parent Compact” shall:

1. Describe the school’s responsibility to provide high quality curriculum and instruction in a supportive and effective learning environment enabling children in the Title I program to meet the state’s academic achievement standards;

2. Indicate the ways in which each parent will be responsible for supporting their child’s learning, such as monitoring attendance, homework completion, and television watching; volunteering in the classroom; and participating, as appropriate, in decisions related to their child’s education and positive use of extracurricular time; and

3. Address the importance of parent-teacher communication on an ongoing basis with, at a minimum, parent-teacher conferences, frequent reports to parents, and reasonable access to staff.

NOTE: Districts with more than one (1) school participating in a Title I program may wish to consider the establishment of a district-wide parent advisory council.

A copy of the procedural safeguards available to the parents of a child with a disability must be given to the parents only one (1) time a school year, except that a copy also must be given to the parents:

- Upon initial referral or parent request for evaluation;
- Upon receipt of the first state complaint under 34 CFR 300.151 through 300.153 and upon receipt of the first due process complaint under 34 CFR 300.507 in a school year;
- In accordance with the discipline procedures in 34 CFR 300.530(h) (…on the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must…provide the parents the procedural safeguards notice); and

A public agency also may place a current copy of the procedural safeguard notice on its internet website, if a website exists. [34 CFR 300.504(a) and (b)] [20 U.S.C. 1415(d)(1)]

Least Restrictive Environment

To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are nondisabled, and special classes, separate schooling, or other removal of children with disabilities from the regular class occurs only if the nature or severity of the disability is such that education in regular classes, with the use of supplementary aids and services, cannot be achieved satisfactorily. Educational placement decisions are made in accordance with A.R.M. 10.16.3340 and the requirements of 34 C.F.R. 300.114 - 300.120, and a continuum of alternate placements is available as required in 34 C.F.R. 300.551.

Children in Private Schools/Out-of District Placement

Children with a disability placed in or referred to a private school or facility by the District, or other appropriate agency, shall receive special education and related services in accordance with the requirements and procedures of 34 C.F.R. 300.145 through 300.147 and A.R.M. 10.16.3122.

As set forth under 34 C.F.R. 300.137, children with a disability placed in or referred to a private school or facility by parents do not have an individual right to special education and related services at the District’s expense. When services are provided to children with disabilities placed by parents in private schools, the services will be in accordance with the requirements and procedures of 34. C.F.R. 300.130 through 300.144, and 300.148.

Impartial Due Process Hearing

The District shall conduct the impartial hearing in compliance with the Montana Administrative Rules on matters pertaining to special education controversies.

Special Education Records and Confidentiality of Personally Identifiable Information

A. Confidentiality of Information

The District follows the provisions under the Family Educational Rights and Privacy Act and implements the procedures in 34 C.F.R. 300.610-300.627, § 20-1-213, MCA, and A.R.M. 10.16.3560.

B. Access Rights

Parents of disabled students and students eighteen (18) years or older, or their representative, may review any educational records which are designated as student records collected, maintained, and used by the
District. Review shall normally occur within five (5) school days and in no case longer than forty-five (45) days. Parents shall have the right to an explanation or interpretation of information contained in the record. Non-custodial parents shall have the same right of access as custodial parents, unless there is a legally binding document specifically removing that right.

C. List of Types and Locations of Information.

A list of the records maintained on disabled students shall be available in the District office. Disabled student records shall be located in the individual’s school office, where they are available for review by authorized District personnel, parents, and adult students. Special education teachers will maintain an IEP file in their classrooms. These records will be maintained under the direct supervision of the teacher and will be located in a locked file cabinet. A record-of-access sheet in each special education file will specify the District personnel who have a legitimate interest in viewing these records.

D. Safeguards

The District will identify in writing the employees who have access to personally identifiable information, and provide training on an annual basis to those staff members.

E. Destruction of Information

The District will inform parents five (5) years after the termination of special education services that personally identifiable information is no longer needed for program purposes. Medicaid reimbursement records must be retained for a period of at least six years and three months from the date on which the service was rendered or until any dispute or litigation concerning the services is resolved, whichever is later. The parent will be advised that such information may be important to establish eligibility for certain adult benefits. At the parent’s request, the record information shall either be destroyed or made available to the parent or to the student if eighteen (18) years or older. Reasonable effort shall be made to provide the parent with notification sixty (60) days prior to taking any action on destruction of records. Unless consent has been received from the parent to destroy the record, confidential information will be retained for five (5) years beyond legal school age.

F. Children’s Rights

Privacy rights shall be transferred from the parent to an adult student at the time the student attains eighteen (18) years of age, unless some form of legal guardianship has been designated due to the severity of the disabling condition.

Discipline

Students with disabilities may be suspended from school the same as students without disabilities for the same infractions or violations for up to ten (10) consecutive school days. Students with disabilities may be suspended for additional periods of not longer than ten (10) consecutive school days for separate, unrelated incidents, so long as such removals do not constitute a change in the student’s educational placement. However, for any additional days of removal over and above ten (10) school days in the same school year, the District will provide educational services to a disabled student, which will be determined in consultation with at least one (1) of the child’s teachers, determining the location in which services will
be provided. The District will implement the disciplinary procedures in accord with the requirements of CFR 300.530-300.537.

The student shall remain in his/her current placement until the matter has been resolved through the process set forth herein.

INSTRUCTION

School Closure

All students, parents, and school employees should assume that school will be in session and buses running as scheduled, unless there is official notification from the Superintendent or his/her designee to the contrary. Such notice will be given via public media (generally radio).

In the event extremely cold temperatures, wind chill factors, snow, wind, or other circumstances require a modification of the normal routine, the Superintendent or his/her designee will make the modification decision prior to 6:00 a.m. and contact the public radio stations for broadcast to the community and will initiate the emergency fan-out communication procedure to all administrators.

Modification of the normal routine generally occurs in one of two ways. The first circumstance occurs when buses are unable to safely make their normal runs. In this case bus transportation is suspended, but school is still in session. Students are encouraged to attend, but parents/guardians must make the judgment relative to safety for their children to reach school and return at the end of the day.

The other rare and very unusual circumstance occurs when conditions are such to warrant closure of the schools. In this circumstance, two situations may occur: 1) the governor declares a state of emergency and no state funds are to be denied the district as a result of school closure. 2) A state of emergency may not exist throughout the state, but conditions require closure.

In both situations, the work schedules and responsibilities as outlined below apply except as follows:
In a governor-declared emergency situation where no state funds are to be denied, all classified employees will be paid in the same manner as though school were not closed. Administrators and other certified staff will consider the day(s) as regular work days for purposes of fulfilling their contract. For those employees who actually do work, as stipulated below, equivalent compensatory time or additional straight pay will be provided.

Work Schedules and Responsibilities for School Closures

Superintendent

Only the Superintendent or his/her designee has authority to close schools. The Superintendent or his/her designee will be on duty throughout any existing or potential emergency situation, day or night. All orders of doubtful origin should be confirmed with the Superintendent.

Central Administrative Personnel

Central administrative personnel as designated by the Superintendent will be expected to report for duty on their assigned shifts in the event of any school closure, insofar as is safely possible.

If it is absolutely impossible for a central administrator to report for duty, the administrator may take the day as a personal leave day or vacation day, with the permission of the Superintendent.
Building-Level Administrators, Non-Teaching “Exempt” Personnel, and Key Support Staff

All building-level administrators and any key support personnel will report for duty per their normal shifts or as otherwise directed each day during the school closure. The building administrator will ascertain that the building has been adequately secured and that any child who mistakenly reports to school [in the event school has been closed] is properly and safely cared for and returned home per District policy. The administrator and this minimal support staff shall notify other staff and/or other support employees of the situation and will respond to telephone questions. When the situation has been stabilized, the personnel who reported to work may choose to return home.

12-Month Classified Employees

In the event of school closure, 12-month classified personnel may report for duty or not report for duty, as directed by their immediate supervisor. Building secretaries who are required to be on duty are expected to report for duty. If a 12-month classified employee is unable to or does not report for duty, the employee will complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

10- and 11-Month Classified Employees

Ten- and 11-month employees may report for duty or not report for duty as directed by their immediate supervisor. If such employees do not report for duty, they will complete a District leave request form to declare the day as personal leave, vacation, or leave without pay.

Aides, Bus Drivers, and Food Service Workers

These employees work only those days school is in session and are not expected to work when school is not in session. If school has been closed, employees should not report for duty unless otherwise directed by their immediate supervisor. These employees shall complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

Teachers (Teachers, Librarians, Psychologists, Counselors)

If schools are closed for weather or other emergency conditions, teachers are not expected to report for duty unless directed otherwise. Teachers do not need to submit an absence form. In cases of school closures, it is customary for the days to be made up at another time; thus teachers will typically still fulfill their contract days.

Selection of Library and Media Center Materials

The District has libraries and media centers in every school, with the primary objective of implementing and supporting the educational program in the schools. It is the objective of these libraries to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

The provision of a wide variety of library materials at all reading levels supports the District’s basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and expressed in the School Library Bill of Rights, endorsed by the American Association of School Librarians in 1969.

Although the Superintendent is responsible for selection of library materials, ultimate responsibility rests with the Board.

The Board, acting through the Superintendent, thereby delegates authority for selection of library materials to the principal in each of the schools. The principal further delegates that authority to the librarian in the school.

Selection of Library and Media Center Materials

Selection of library and media center materials is a professional task conducted by library staff. In selecting library materials, the librarian will evaluate the existing collection; assess curricula needs; examine materials; and consult reputable, professionally prepared selection aids.

Weeding

When materials no longer meet criteria for selection, they will be weeded. Weeding is a necessary aspect of selection, since every library will contain works which may have answered a need at the time of acquisition, but which, with the passage of time, have become obsolete, dated, unappealing, or worn out.

Discarded materials will be clearly stamped:

“WITHDRAWAL FROM LAUREL PUBLIC SCHOOL LIBRARY”

Materials will be discarded in compliance with § 20-6-604, MCA. When the decision to sell or dispose of library materials is made, the Board will adopt a resolution to sell or otherwise dispose of the material because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the District. The Board will publish a notice of the resolution in the newspaper of general circulation in Laurel. The resolution may not become effective for fourteen (14) days after notice is published.

Gifts

Gift materials may be accepted with the understanding they must meet criteria set for book selection.

- Present opposing sides of controversial issues;
- Be representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage;
- Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society.

Instructional materials may be made available for loan to students when the best interest of the District and student will be served by such a decision. Students will not be charged for normal wear. Selection, Adoption, and Removal of Textbooks and Instructional Materials

Curriculum committees will generally be responsible to recommend textbooks and major instructional materials purchases. Recommendations will be made to the Superintendent. The function of the committee is to ensure that materials are selected in conformance with stated criteria and established District goals and objectives. A curriculum committee may consist of only those members in a particular department. The same basic selection procedures should be followed as with District-wide committees.

Selection and Adoption

Textbooks shall be selected by a curriculum committee representing the various staff who will likely be using the text. In most, but not all, cases a curriculum will chair the committee. Each committee should develop, prior to selection, a set of selection criteria against which textbooks will be evaluated. The criteria should include the following, along with other appropriate criteria. Textbooks shall:

- Be congruent with identified instructional objectives;
- Present more than one viewpoint on controversial issues;
- Present minorities realistically;
- Present non-stereotypic models;
- Facilitate the sharing of cultural differences;
- Be priced appropriately.

Removal

Textbooks may be removed when they no longer meet the criteria for initial selection, when they are worn out, or when they have been judged inappropriate through the Learning Materials Review Process.

Copyright

The District recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for unauthorized copying or use of audio, visual, digital, or printed materials and computer software, unless the copying or use conforms to the “fair use” doctrine.

Under the fair use doctrine, each of the following four standards must be met in order to use the copyrighted document:

- Purpose and Character of the Use – The use must be for such purposes as teaching or scholarship.
- Nature of the Copyrighted Work – The type of work to be copied.
- Amount and Substantiality of the Portion Used – Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed.
- Effect of the Use Upon the Potential Market for or value of the Copyrighted Work – If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

While the District encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of staff to abide by District copying procedures and obey requirements of law. Under no circumstances will it be necessary for staff to violate copyright requirements in order to properly perform their duties. The District cannot be responsible for any violations of the copyright law by its staff.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with District procedures or is permissible under the law should consult the Superintendent. The Superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.

Copyright Compliance

Authorized Reproduction and Use of Copyrighted Material in Print

- Materials on the Internet should be used with caution since they may, and likely are, copyrighted.
- Proper attribution (author, title, publisher, place and date of publication) should always be given.
- Notice should be taken of any alterations to copyrighted works, and such alterations should only be made for specific instructional objectives.
- Care should be taken in circumventing any technological protection measures. While materials copied pursuant to fair use may be copied after circumventing technological protections against unauthorized copying, technological protection measures to block access to materials may not be circumvented.

In preparing for instruction, a teacher may make or have made a single copy of a chapter from a book; an article from a newspaper or periodical; a short story, short essay, or short poem; or a chart, graph, diagram, drawing, cartoon, or picture from a book, periodical, or newspaper. A teacher may make multiple copies, not exceeding more than one (1) per student, for classroom use if the copying meets the tests of “brevity, spontaneity and cumulative effect” set by the following guidelines. Each copy must include a notice of copyright.

1. **Brevity**
   a. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
   b. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be expanded to permit the completion of an unfinished line of a poem or prose paragraph.)
   c. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. “Special” works cannot be reproduced in full; this includes children’s books combining poetry, prose, or poetic prose.

2. **Spontaneity.** Should be at the “instance and inspiration” of the individual teacher when there is not a reasonable length of time to request and receive permission to copy.

3. **Cumulative Effect.** Teachers are limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. Teachers are limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by teachers or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

© MTSBA 2011
The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. “Consumable” works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. Teachers cannot substitute copies for the purchase of books, publishers’ reprints or periodicals, nor can they repeatedly copy the same item from term-to-term. Copying cannot be directed by a “higher authority,” and students cannot be charged more than actual cost of photocopying. Teachers may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

- A library may make a single copy or three digital copies of an unpublished work which is in its collection; a published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price; and a work that is being considered for acquisition, although use is strictly limited to that decision. Technological protection measures may be circumvented for purposes of copying materials in order to make an acquisition decision.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a teacher, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in “Authorized Reproduction and Use of Copyrighted Material in Print.”

Authorized Reproduction and Use of Copyrighted Music or Dramatic Works

Teachers may:
- Make a single copy of a song, movement, or short section from a printed musical or dramatic work that is unavailable except in a larger work for purposes of preparing for instruction;
- Make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song;
- In an emergency, a teacher may make and use replacement copies of printed music for an imminent musical performance when the purchased copies have been lost, destroyed or are otherwise not available.
- Make and retain a single recording of student performances of copyrighted material when it is made for purposes of evaluation or rehearsal;
- Make and retain a single copy of excerpts from recordings of copyrighted musical works for use as aural exercises or examination questions; and,
- Edit or simplify purchased copies of music or plays provided that the fundamental character of the work is not distorted. Lyrics shall not be altered or added if none exist.
Performance by teachers or students of copyrighted musical or dramatic works is permitted without the authorization of the copyright owner as part of a teaching activity in a classroom or instructional setting. The purpose shall be instructional rather than for entertainment.

Performances of nondramatic musical works that are copyrighted are permitted without the authorization of the copyright owner, provided that:

- The performance is not for a commercial purpose;
- None of the performers, promoters or organizers are compensated; and,
- Admission fees are used for educational or charitable purposes only.

All other musical and dramatic performances require permission from the copyright owner. Parents or others wishing to record a performance should check with the sponsor to ensure compliance with copyright.

Recording of Copyrighted Programs

Television programs, excluding news programs, transmitted by commercial and non-commercial television stations for reception by the general public without charge may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained by a school for a period not to exceed the first forty-five (45) consecutive calendar days after date of recording. Upon conclusion of this retention period, all off-air recordings must be erased or destroyed immediately. Certain programming such as that provided on public television may be exempt from this provision; check with the [principal, teacher or teacher librarian – choose all that apply or add others] or the subscription database, e.g. unitedstreaming.

USE OF INFORMATION RESOURCES REGULATION

Off-air recording may be used once by individual teachers in the course of instructional activities, and repeated once only when reinforcement is necessary, within a building, during the first 10 consecutive school days, excluding scheduled interruptions, in the 45 calendar day retention period. Off-air recordings may be made only at the request of and used by individual teachers, and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers. Each additional copy shall be subject to all provisions governing the original recording.

After the first ten consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes, i.e., to determine whether or not to include the broadcast program in the teaching curriculum. Permission must be secured from the publisher before the recording can be used for instructional purposes after the 10 day period.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.
Authorized Reproduction and Use of Copyrighted Computer Software

Schools have a valid need for high-quality software at reasonable prices. To assure a fair return to the authors of software programs, the school district shall support the legal and ethical issues involved in copyright laws and any usage agreements that are incorporated into the acquisition of software programs. To this end, the following guidelines shall be in effect:

- All copyright laws and publisher license agreements between the vendor and the school district shall be observed;
- Staff members shall take reasonable precautions to prevent copying or the use of unauthorized copies on school equipment;
- A back-up copy shall be purchased, for use as a replacement when a program is lost or damaged. If the vendor is not able to supply a replacement, the school district shall make a back-up copy that will be used for replacement purposes only;
- A copy of the software license agreement shall be retained by the [board secretary, technology director or teacher-librarian - choose all that apply or add others]; and,
- A computer program may be adapted by adding to the content or changing the language. The adapted program may not be distributed.

Fair Use Guidelines for Educational Multimedia

Students may incorporate portions of copyrighted materials in producing educational multimedia projects such as videos, Power Points, podcasts and web sites for a specific course, and may perform, display or retain the projects.

USE OF INFORMATION RESOURCES REGULATION

Educators may perform or display their own multimedia projects to students in support of curriculum-based instructional activities. These projects may be used:

- In face-to-face instruction;
- In demonstrations and presentations, including conferences;
- In assignments to students;
- For remote instruction if distribution of the signal is limited;
- Over a network that cannot prevent duplication for fifteen days, after fifteen days a copy may be saved on-site only; or,
- In their personal portfolios.

Educators may use copyrighted materials in a multimedia project for two years, after that permission must be requested and received.

The following limitations restrict the portion of any given work that may be used pursuant of fair use in an educational multimedia project:

- Motion media: ten percent or three minutes, whichever is less;
- Text materials: ten percent or 1,000 words, whichever is less;
- Poetry: an entire poem of fewer than 250 words, but no more than three poems from one author or five poems from an anthology. For poems of greater than 250 words, excerpts of up to 250

© MTSBA 2011
words may be used, but no more than three excerpts from one poet or five excerpts from an 
anthology;

- Music, lyrics and music video: Up to ten percent, but no more than thirty seconds. No alterations 
  that change the basic melody or fundamental character of the work;

- Illustrations, cartoons and photographs: No more than five images by an artist, and no more than 
  ten percent or fifteen images whichever is less from a collective work;

- Numerical data sets: Up to ten percent or 2,500 field or cell entries, whichever is less;

Fair use does not include posting a student or teacher’s work on the Internet if it includes portions of 
copyrighted materials. Permission to copy shall be obtained from the original copyright holder(s) before 
such projects are placed online. The opening screen of such presentations shall include notice that 
permission was granted and materials are restricted from further use.

Learning Materials Review

While the staff makes every effort to select high quality, appropriate learning materials which are not objectionable to the general public, occasionally objections will be raised. Complainants are encouraged to discuss their concerns with the building principal prior to pursuing a formal complaint. Should a citizen wish to make a formal protest regarding specific material used in the school system, the form for requesting reconsideration of instructional materials must be used. These forms are available in the district office.

A request to remove an item from the school or limit its use will be acted upon by a Learning Materials Review Committee. Members shall be appointed by the superintendent. The committee shall consist of at least one administrator, one faculty member, two parents, one high school librarian, one middle school librarian, and one elementary school librarian. A spokesperson for each side of the issue will be heard by the committee if requested. A written decision will be delivered to the complainant within 20 school days. Subsequent appeals of that decision may be made to the superintendent first and then to the board.

Learning materials, for the purposes of this policy, are considered to be any material used in classroom instruction, library materials, or any materials to which a teacher might refer a student as part of the course of instruction.

Field Trips, Excursions, and Outdoor Education

The Board recognizes that field trips, when used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the schools. Such trips can supplement and enrich classroom procedures by providing learning experiences in an environment beyond the classroom. The Board also recognizes that field trips may result in lost learning opportunities in missed classes. Therefore, the Board endorses the use of field trips, when educational objectives achieved by the trip outweigh any lost in-class learning opportunities.

The Superintendent or his/her designee will approve all field trips. Each field trip must be integrated with the curriculum and coordinated with classroom activities which enhance its usefulness.

Staff members may not solicit students during instructional time for any privately arranged field trip or excursion without Board permission.

The presence of a person with a currently valid first aid card is required during school-sponsored activities, including field trips, athletic, and other off-campus events.

INSTRUCTION
Field Trips, Excursions, and Outdoor Education

Field trips are defined as travel away from school premises, under the supervision of a teacher of an approved course of study, for the purpose of affording students a direct learning experience not available in the classroom. Parents may not drive on field trips. All field trips require administrative approval. Building administrators have the authority to approve all day trips and trips involving an overnight stay. Superintendent approval is required for any trip which has an overnight stay lasting more than one night. The superintendent may request board review and approval of a given trip request, especially where considerable distance, high district transportation expense or other unusual circumstances may be involved.

All travel will be provided by the district or by commercial carrier except as noted elsewhere in this policy. The following procedures shall apply:

Day Field Trips

1. Staff members are required to get prior approval for all field trips using procedures and guidelines developed by the building principal.
2. Staff member requesting one day field trip shall submit a completed field trip request form to the principal prior to the field trip. The form shall include a list of pre and post learning activities.
3. The principal will approve the field trip based on his/her assessment of the cost/benefit of the trip.
4. The sponsoring staff member is responsible to coordinate all activities related to the field trip. This includes ordering and confirmation of the bus, contact with the site to insure maximum learning opportunities, assessing all activities related to the site for safety, and for providing adequate supervision.
5. Adequate supervision will typically be defined in the elementary school as one adult supervisor for every ten students. At the middle school and senior high, at least two adult supervisors will be provided for each bus except where additional supervision is necessary. Buses with fewer than 30 students will require one adult supervisor.

Overnight Field Trips

1. Staff members requesting overnight field trips must submit a written plan to the principal, including purposes of the trip, supervision, proposed itinerary, estimated cost, housing and funding sources.
2. If students are housed in private homes, every effort should be made to assign students to those homes in pairs or more. If any transportation such as to and from a private home is provided by private automobile, such arrangements must be noted on a form signed by the parents which gives permission for the student to travel in these private automobiles.
3. The approval of the trip will depend on the amount of school time lost, value of the learning objectives, and planning, organization and supervision of trip.
4. On overnight trips involving both male and female students, the district requires at least one male and one female chaperone.

Guest Speakers

When a teacher believes that a guest speaker will contribute to the curriculum by helping to achieve the goals and objectives of the course, the staff member will follow the procedure set out below:

1. Prior to the proposed visit, the teacher will notify the principal of the name of the proposed speaker.

2. If the teacher and/or the principal believe the guest speaker’s topic is controversial, both parties will attempt a course of action to adhere to the guidelines established under Policy 2330.

3. In the event the speaker’s topic is determined to be controversial, the teacher will notify students beforehand that any student who wishes not to attend the presentation will have an alternative assignment.

4. Unless the principal approves otherwise, the teacher will not allow non-class members to hear the speaker.

5. The guest speaker will be registered in the office by the teacher on the day he/she speaks.

6. Approval of a guest speaker will be exercised in a manner consistent with the principles of free inquiry and expression.

7. If the principal has reason to believe that the appearance of the guest speaker would not contribute to the curriculum or would be harmful to the students, he/she may deny the appearance of the guest speaker.

Controversial Issues and Academic Freedom

The District will offer courses of study which will afford learning experiences appropriate to levels of student understanding. The instructional program respects the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

Teachers will guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize various points of view, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

The Board encourages and supports the concept of academic freedom, recognizing it as a necessary condition to aid in maintaining an environment conducive to learning and to the free exchange of ideas and information.

In a study or discussion of controversial issues or materials, however, the Board directs teaching staff to take into account the following criteria:

1. Relative maturity of students;
2. District philosophy of education;
3. Community standards, morals, and values;
4. Necessity for a balanced presentation; and
5. Necessity to seek administrative counsel and guidance in such matters.

Religion and Religious Activities

In keeping with the United States and Montana Constitutions and judicial decisions, the District may not support any religion or endorse religious activity. At the same time, the District may not prohibit private religious expression by students. This policy provides direction to students and staff members about the application of these principles to student religious activity at school.

Student Prayer and Discussion

Students may pray individually or in groups and may discuss their religious views with other students, as long as they are not disruptive or coercive. The right to engage in voluntary prayer does not include the right to have a captive audience listen, to harass other students, or to force them to participate. Students may pray silently in the classroom, except when they are expected to be involved in classroom instruction or activities.

Staff Members

Staff members are representatives of the District and must “navigate the narrow channel between impairing intellectual inquiry and propagating a religious creed.” They may not encourage, discourage, persuade, dissuade, sponsor, participate in, or discriminate against a religious activity or an activity because of its religious content. They must remain officially neutral toward religious expression.

Graduation Ceremonies

Graduation is an important event for students and their families. In order to assure the appropriateness and dignity of the occasion, the District sponsors and pays for graduation ceremonies and retains ultimate control over their structure and content.

District officials may not invite or permit members of the clergy to give prayers at graduation. Furthermore, District officials may not organize or agree to requests for prayer by other persons at graduation, including requests by students to open or deliver a prayer at graduation. The District may not prefer the beliefs of some students over the beliefs of others, coerce dissenters or nonbelievers, or communicate any endorsement of religion.

Baccalaureate Ceremonies

Students and their families may organize baccalaureate services, at which attendance must be entirely voluntary. Organizers of baccalaureate services may rent and have access to school facilities on the same basis as other private groups and may not receive preferential treatment. The District may not be identified as sponsoring or endorsing baccalaureate services. District funds, including paid staff time, may not be used directly or indirectly to support or subsidize any religious services.

Assemblies, Extracurricular and Athletic Events

District officials may not invite or permit members of the clergy, staff members, or outsiders to give prayers at school-sponsored assemblies and extracurricular or athletic events. District officials also may not organize or agree to student requests for prayer at assemblies and other school-sponsored events. Furthermore, prayer may not be broadcast over the school public address system, even if the prayer is nonsectarian, nonproselytizing, and initiated by students.

© MTSBA 2011
Student Religious Expression and Assignments

Students may express their individual religious beliefs in reports, tests, homework, and projects. Staff members should judge their work by ordinary academic standards, including substance, relevance, appearance, composition, and grammar. Student religious expression should neither be favored nor penalized.

Religion in the Curriculum

Staff members may teach students about religion in history, art, music, literature, and other subjects in which religious influence has been and continues to be felt. However, staff members may not teach religion or advocate religious doctrine or practice. The prohibition against teaching religion extends to curricular decisions which promote religion or religious beliefs.

School programs, performances, and celebrations must serve an educational purpose. The inclusion of religious music, symbols, art, or writings is permitted, if the religious content has a historical or independent educational purpose which contributes to the objectives of the approved curriculum. School programs, performances, and celebrations cannot promote, encourage, discourage, persuade, dissuade, or discriminate against a religion or religious activity and cannot be oriented to religion or a religious holiday.

Student Religious Clubs

Students may organize clubs to discuss or promote religion, subject to the same constitutionally acceptable restrictions the District imposes on other student-organized clubs.

Participation in Commencement Exercises

Statement of Policy

A student’s right to participate in a commencement exercise of the graduating class at Laurel High School is an honor. As such, participation in this ceremony is reserved for those members of the graduating class who have completed all state and local requirements for graduation before the date of the ceremony. Students who complete their requirements after the date of commencement exercises will receive their diplomas at that time. In the case of dire circumstances one may seek an administrative exception provided that student has begun his/her eighth semester of course work and requests special consideration preferably by March 1st of the spring in which the individual seeks to secure a certificate of attendance rather than a diploma.

The board recognizes that for some students with disabilities, the meeting of graduation requirements or the planned goals and objectives of the IEP may actually occur after the student’s twelfth year of school in the district. However, the opportunity to participate in the graduation ceremonies one or more years later may be diminished when not shared with age appropriate classmates with whom the student has spent his or her school career. Participation in a graduation ceremony is not synonymous with graduating or receiving a diploma from the district. The participation in the graduation ceremony and receipt of a certificate of attendance would not preclude a student with disabilities from continuing to receive special education and related services under an IEP beyond the graduation ceremony if the IEP team determines continued services at high school site would be an appropriate placement. A student receiving IEP services who participates in commencement and completes the graduation requirements afterward would receive his or her diploma at that time. Graduating and the awarding of diplomas shall be governed by Montana law, including Montana accreditation standards.

For a student without disabilities who has medical, hardship, or other dire circumstances that may occur during the senior year, such student may be considered by the superintendent and/or board for participation in commencement should student not complete graduation requirements prior to ceremony.

Dress and Behavior Expectations

High school administration shall be responsible for determining appropriate dress for graduates participating in the ceremony. Guidelines for appropriate dress and expected general behavior standards shall be distributed in writing to graduating seniors and parents/guardians at least two weeks prior to the ceremony.
Organization and Content of Commencement Exercises

The school district will permit students to honor their American Indian heritage through the display of culturally significant tribal regalia at commencement ceremonies. Any item that promotes drug use, weapon use, threats of violence, sexual harassment, bullying, or other intimidation, or violates another district policy, state, or federal law may not be worn during graduation.

The school administration may invite graduating students to participate in high school graduation exercises according to academic class standing or class officer status. Any student who, because of academic class standing, is requested to participate may choose to decline the invitation.

The school administrators will review presentations and specific content, and may advise participants about appropriate language for the audience and occasion. Students selected to participate may choose to deliver an address, poem, reading, song, musical presentation, prayer, or any other pronouncement of their choosing.

The printed program for a commencement exercise will include the following paragraphs:

Any presentation by participants of graduation exercises is the private expression of the individual participants and does not necessarily reflect any official position of the District, its Board, administration, or employees, or indicate the views of any other graduates.

Health Enhancement

Health, family life, and sex education, including information about parts of the body, reproduction, and related topics, will be included in the instructional program as appropriate to grade level and course of study. An instructional approach will be developed after consultation with parents and other community representatives. Parents may ask to review materials to be used and may request that their child be excluded from sex education class sessions without prejudice.

The Board believes HIV/AIDS and other STI instruction is most effective when integrated into a comprehensive health education program. Instruction must be appropriate to grade level and development of students and must occur in a systematic manner. The Board particularly desires that students receive proper education about HIV and other STI’s, before they reach the age when they may adopt behaviors which put them at risk of contracting the disease.

In order for education about HIV and other STI’s to be most effective, the Superintendent will require that faculty members who present this instruction receive continuing in-service training which includes appropriate teaching strategies and techniques. Other staff members not involved in direct instruction, but who have contact with students, will receive basic information about HIV/AIDS and other STI’s and instruction in use of universal precautions when dealing with body fluids.

In accordance with Board policy, parents will have an opportunity to review the HIV/STI education program, before it is presented to students.

The Laurel School District recognizes that the use of illicit drugs and the unlawful possession and use of alcohol are illegal and harmful. In acknowledgment that chemical dependency is a treatable health problem, the district is committed to the development of a program which emphasizes prevention, intervention, aftercare support and disciplinary actions. Necessary disciplinary actions up to and including expulsion and referral for prosecution will be imposed on students who violate these guidelines of conduct. INSTRUCTION

Chemical Use and Dependency

Actions taken by staff in dealing with student use/abuse with controlled substances, dangerous
drugs, or alcohol will have as their first concern the welfare of the student involved and the other
students in the school. A helping relationship will be emphasized rather than an investigative
and punitive approach. However, necessary and appropriate disciplinary action, consistent with
state and federal law, will be taken when the guidelines of conduct regarding alcohol and other
drugs are violated. Disciplinary sanctions may also include the completion of a chemical abuse
assessment or the completion of a habilitation program. The District cannot be held financially
responsible for any such sanctions.

Prevention

The prevention program shall focus on the school climate, and in addition, classroom instruction
and guidance services as resources permit.

School Climate

The school environment can help students to achieve their potential academically, socially, and
emotionally in a productive manner. The school shall strive to be a place where:

A. Students respect themselves and each other.
B. Each student feels that he/she has a voice in the decisions that affect him/her.
C. High morale is evident.
D. Each student will possess a sense of caring for self and others.
E. Each student will possess a sense of belonging and pride.
F. Each student will feel that he/she can make a difference to someone else.

The school will encourage the participation in any education/prevention programs that increase
the awareness of the effects of chemical abuse. Student support groups shall assist those students
concerned about their own use, those living in families suffering from abuse or dependency, and
those concerned about the use of chemicals by significant others.

Instruction

This dimension of the prevention program shall focus on:

A. The effect of alcohol and drugs upon the body.
B. Skill development related to self-esteem, goal setting, decision making, conflict
   management, problem solving, refusal and communication skills, and techniques for
   resisting peer pressure.
C. The legal, social, and health consequences of alcohol and drug use.
Counseling Services

Staff shall meet with students, individually and in small groups, to supplement drug and alcohol prevention instruction and skill development. Staff will also assist parents to maximize the prevention efforts of the school.

Intervention

The goal of the intervention program shall be to eliminate chemical use and abuse by students. Ongoing in-service will be provided for faculty and staff. Important aspects of in-service training will include dimensions of the family illness and dynamics of the addiction process; enabling behaviors; children in chemically dependent families; student experimentation; abuse and dependency; parental involvement and community resources; prevention issues and strategies; intervention techniques; treatment and aftercare support; and implementation of the program into the classroom/building.

Corrective Action

If school officials have probable cause to believe that a student in school or at a school-sponsored function possesses and/or is under the influence of alcohol or other drugs, the school will take the following action:

A. The parents/guardians will be notified.
B. The school administrator will refer all instances of illegal use, possession, or sale of alcohol, other drugs, or illegal drug paraphernalia to law enforcement officials.
C. The school will take appropriate school disciplinary action.

High School Graduation Requirements

The Board will award a regular high school diploma to every student enrolled in the District who meets graduation requirements established by the District. The official transcript will indicate the specific courses taken and level of achievement.

The Board will establish graduation requirements which, at a minimum, satisfy those established by the Board of Public Education (A.R.M. 10.55.904 and 905). Generally, any change in graduation requirements promulgated by the Board will become effective for the next class to enter ninth (9th) grade. Exceptions to this general rule may be made, when it is determined by the Board that proposed changes in graduation requirements will not have a negative effect on students already in grades nine (9) through twelve (12). The Board will approve graduation requirements as recommended by the Superintendent.

To graduate from Laurel High School, a student must have satisfactorily completed the last quarter prior to graduation as a Laurel High School student. Highly unusual exceptions may be considered by the principal, such as a student exchange program in a recognized school.

A student with a disabling condition will satisfy those competency requirements incorporated into the individualized education program (IEP). Satisfactory completion of the objectives incorporated in the IEP will serve as the basis for determining completion of a course.

A student may be denied participation in graduation ceremonies in accordance with 20-5-201(3), MCA. In such instances the diploma will be awarded after the official ceremony has been held.

high school principal to grant permission to students who have completed the minimum requirements for
graduation after completion of the seventh (7th) semester.

1. Early Graduation Policy

1. Apply for early graduation before completion of the student’s junior year.
2. Successfully complete six semesters of high school.
3. Complete all graduation requirements of District 7 & 7-70 by the requested date of early
   graduation.
4. No semester grades below a “C”.

6. Correspondence/Night School credit cannot be used for early graduation.
7. Permission to graduate early may be nullified if the above requirements are not met.

Reasons considered for early graduation shall include: a planned postsecondary educational program,
medical, religious, or family emergency situations. Working to earn money for further education is not
considered a substantial hardship and will not make a student eligible for early graduation.

2. Early Graduation Process

The student seeking early graduation must first discuss his/her plan with the appropriate school counselor.
The counselor will meet with the student to complete the “Petition for Early Graduation.” The completed
form will be submitted to the principal. The principal will form a committee to consider the petition. The
committee will be comprised of the principal, assistant principal, school counselor, and two teachers who
have had the student in class. The student and parent/guardian will meet with the committee to discuss
the petition. Following the meeting, the committee will recommend approval or denial of the petition. If
the petition is denied by the Principal, the student may appeal the decision of the School Board. The
decision of the Board shall be final.

Note: If the student request for early graduation is approved, he/she forfeits the right to participate in any
activities after the final semester is completed, other than graduation exercises.

Prior to the test, the student will have access to materials relevant to the test, as available, and will have the opportunity to meet with the teachers involved. This will be arranged by the principal upon request of the student. The student must attain a 65% or better on the exam to earn credit for the course at Laurel High School. If a student fails to achieve 65% or better, they will be able to retake the test one time. The retake must occur no earlier than four weeks and no later than six weeks from the original test date.

5. This assessment procedure and test instrument will be administered in a uniform and fair manner.

6. Students must attend Laurel High School for at least one school year after enrolling to receive credit for courses from non-accredited, non-public schools.

7. If the parent or guardian disagrees with the assessment outcome they may appeal the principals decision to the superintendent and school board.

Grades 1-8

Requests from parents of students in non-accredited, nonpublic schools for placement in the District school system will be evaluated by an assessment-for-placement team. That team will include:

© MTSBA 2011
1. A school principal;
2. One (1) teacher of the grade in which the student is being considered for enrollment; and
3. One (1) counselor.

The assessment-for-placement team will take into account the following in its recommendation for grade placement:

1. Documentation that the non-accredited, nonpublic school has provided a comparable number of hours as the child would have attended in a public or private school;
2. That the child followed a similar curriculum as would have been provided in an accredited public or private school;
3. Standardized achievement tests results from the previous completed school year indicating satisfactory achievement levels or in the absence of prior achievement test scores, a district administered assessment test indicating satisfactory achievement appropriate to the grade level requested.

Parents of students in home schools are encouraged to maintain a log documenting dates of instruction, content of instruction, amount of time spent on that instruction, scores on tests, and grades in all activities.

The District is not obligated to provide instructional materials for other public or private schools.

If a parent or guardian is not in agreement with the placement of the child, he/she may request a hearing before the Board.

The district recognizes there are a variety of programs, activities and opportunities that can complement, enhance, or substitute for regular district classes. These alternative learning experiences may or may not be available for credit which could substitute for district credit requirements. In any event, such experiences can be of substantial educational value and would warrant release of the student from regular class time during the school day. Approval of these experiences must be granted by the board in advance of the start of the experience.

A proposal for approval shall be submitted first to the high school principal. The principal will evaluate the merit of the proposal utilizing the process and criteria approved by the board for such a purpose and make a recommendation to the board.

The proposal shall include at least the following information:

1. Name of program or experience
2. Length of time for which approval is desired
3. Objectives of the program or experience
4. Description of how credits shall be determined if applicable
5. Content outline of the program or experience

2. Discipline record of the student
3. Recommendations from staff or other interested people
4. Demonstrated high level of commitment by the student towards successful completion of program or experience

K-8 Must Pass and Retention

The district recognizes that the rate of physical, social, emotional and academic growth will vary among individual students. Since each student grows at his/her own rate, these individual growth characteristics shall be recognized in classroom and school programming.

Each school within the elementary district shall implement a Must Pass Policy whereby additional intervention and support is provided to students, when fiscally possible, who are struggling and meet criteria established by schools. Notifications of such programs will be made to parents each year. Interventions may include additional teaching time at recess, before and after school tutoring, and/or summer school. Individual achievement and attendance will be factored into students receiving services. Students who are absent from school will be expected to make up all work and may be placed in program until assignments are complete and to a level of teacher satisfaction.

Also, successful participation in these programs may be required in or for a student to be promoted. Grade retention is a last resort to be used only when other interventions have been unsuccessful and it is deemed beneficial to the student. That benefit is likely when he/she is not demonstrating minimum competency in basic skill subjects in relation to ability and grade level and/or the student has absences beyond those allowable by the school attendance policy.

Retention should not be considered, except in these instances where there is a strong likelihood that the student will benefit with minimum social and emotional disruption and additional academic learning time is needed. No student will be retained unless the staff has considered and eliminated identified disabling conditions as a causing factor. In grades K-8, parents shall be notified of possible retention after 3rd quarter grades are released with confirmation of retention prior to the end of the school year. The school district reserves the right to retain students.

Bring Your Own Technology

The Laurel School District recognizes the importance of technology and the educational benefits available through the use of technology. The use of portable electronic devices in the classroom can add educational value when such devices deliver content and extend, enhance or reinforce the student learning process. Classroom teachers determine the appropriateness of in-class use of electronic devices, consistent with district instructional objectives, and with approval of the building principal.

All personal electronic devices must be used in a responsible, and legal manner. Students using their own devices are subject to the District Responsible Use Policy and guidelines, Board approved BYOT guidelines, all other Board policies and procedures, including but not limited to the student code of conduct. Failure to adhere to these guidelines may result in the revocation of the privilege to use personal electronic devices in the classroom and/or disciplinary action as appropriate.

Personal devices are subject to administration or designee approval.

Students at the high school level are permitted to use approved personal electronic devices for educational purposes under the direction of a classroom teacher.

Students using their own electronic devices may access only the wireless Internet provided by the District. The District provided Internet access is filtered in compliance with the Children’s Internet Protection Act. Internet access from outside sources is not permitted on school grounds in order to promote safe, filtered Internet access.

BYOT activities are implemented at the discretion of classroom teachers and building administrators. When electronic devices are used to enhance learning in the classroom, students without a personal device will be provided access to an appropriate district-owned digital device.

Violations of any board policies, regulations, or school rules involving a student’s personal electronic device may result in the loss of use of the device in school and/or disciplinary action. The school reserves the right to inspect a student’s personal electronic device if there is reason to believe that the student has violated board policies, regulations, school rules or has engaged in other misconduct while using their personal electronic device. Any search will be conducted in compliance with board policies.

Student Responsibility

The use of an approved personal electronic device is a privilege, and students may be denied access at any time. Students wishing to participate in the Bring your Own Technology program must comply with the following guidelines and procedures. Students:
1. must abide by the District Responsible Use Policy and Regulations, and are subject to all student code of conduct restrictions and disciplinary consequences relating to use or misuse of technology.

2. are responsible for ensuring the safety of their own personal devices. The District is not responsible for the loss or theft of a device, nor are they responsible for any damage done to the device while at school.

3. will use approved devices only for an educational purpose, and only when directed by a classroom teacher or administrator.

4. must keep devices turned off when not directed to use them.

5. may not use the camera feature to capture, record, or transmit audio, video or still photos of other students, faculty, or staff without explicit permission given by the subject of the photo or video.

6. are not to use the device in a manner that is disruptive to the educational environment.

7. exhibiting harassing, intimidating behavior or found bullying through the use of a personal electronic device are subject to discipline under the District Hazing and Bullying policy and procedures.

8. are responsible for servicing their personal electronic devices. The District will not service, repair or maintain any non-district owned technology brought to, and used at school by students.

Student Enrollment, Exceptional Circumstances Meriting Waiver of Age Requirements for Pupils

It is the policy of the District to provide enhanced educational opportunities to students under the age of 5 when either individual exceptional circumstances exist and/or when Community-Based exceptional circumstances are present.

The administration shall ensure admission, enrollment and assignment of all qualifying children referenced in this policy. The administration shall place children enrolled pursuant to this policy in either a half-time or full-time kindergarten program as an integral part of the elementary school program. The administration shall also ensure provision of a free appropriate public education in the least restrictive environment possible, pursuant to terms of each student’s individualized education program, for all children enrolled under this policy who are qualified for services under the Individuals with Disabilities Education Act.

The administration shall include children enrolled pursuant to this policy in the district’s calculation of average number belonging (ANB) as reported to OPI.

The Board of Trustees declares the following to be qualifying “exceptional circumstances” within the meaning of that term as used in 20-5-101(3), that merit waiving the age provisions of 20-5-101(1), MCA for qualifying children under 6 years of age:

1. A child at least 3 years of age with a disability qualifying the child for services under the federal Individuals with Disabilities Education Act.

2. A child who is 4 years of age or older on or before September 10 of the school year in which enrollment is to occur who is Gifted and Talented within the meaning of that term as used in 20-7-901, MCA;

Student Enrollment, Exceptional Circumstances Meriting Waiver of Age Requirements for Pupils

When implementing Board Policy 3100, the District shall follow these procedures:

1. The administration shall review the criteria set forth in the Policy 3100 and make the preliminary determination whether an individual student or class of students meets the criteria for exceptional circumstances set forth therein;
2. The administration shall notify the parent(s)/legal guardian(s) of the administration’s recommendation to the Board regarding the enrollment of the student(s) under the exceptional circumstances meriting waiving of the age requirements;
3. The administration shall present the information to the Board for approval within 30 days of making the preliminary determination;
4. In presenting the information to the Board, the administration shall remove all identifying information about the student(s) when presenting the information to the Board in order to protect the privacy rights of the student under state and federal law.
5. The Board shall make the final decision on the enrollment of students under the District’s exceptional circumstances policy.

The trustees shall review this policy and procedure based on changing circumstances pertaining to the criteria used for determination of the program.
Enter, Placement, and Transfer

Entrance, Date, and Age

The trustees will enroll a child in kindergarten or in first grade whose fifth (5th) or sixth (6th) birthday occurs on or before the tenth (10th) day of September of the school year in which the child is to enroll but is not yet 19 years of age. A child who meets the requirement of being six (6) years old, but who has not completed a kindergarten program, will be tested and placed at the discretion of the administration. The District requires proof of identity and an immunization record for every child to be admitted to District schools. The trustees may at their discretion assign and admit an adult who is 19 years of age or older if there are exceptional circumstances that merit waiving the age provision.

School Entrance

1. The District requires that a student’s parents, legal guardian, or legal custodian present proof of identity of the child to the school within forty (40) days of enrollment, as well as proof of residence in the District. Students who are not residents of the District may apply for admission pursuant to Policy 3141.

2. To be admitted to District schools, in accordance with the Montana Immunization Law, a child must have been immunized against varicella (chicken pox), diphtheria, pertussis, tetanus, poliomyelitis, rubella, mumps, and measles in the manner and with immunizing agents approved by the department. Immunizations may not be required if a child qualifies for conditional attendance or an exemption is filed as provided by Montana law.

3. The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The District shall work with the local child welfare agency, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

Placement

The District goal is to place students at levels and in settings that will increase the probability of student success. Developmental testing, together with other relevant criteria, including but not limited to health, maturity, emotional stability, and developmental disabilities, may be considered in the placement of all students. Final disposition of all placement decisions rests with the principal, subject to review by the Superintendent or the Board.

Transfer

For the purposes of this section “proof of identity” means a certified copy of a birth certificate, a certified transcript or similar student records from the previous school, or any documentary evidence that a school district considers to be satisfactory proof of identity. 44-2-511(6)(a), MCA

District policies regulating the enrollment of students from other accredited elementary and secondary schools are designed to protect the educational welfare of children.

**Elementary Grades (K-8):** A student transferring into the District will be admitted and placed subject to observation by appropriate teachers and a building principal during a probation period of two (2) weeks. Thereafter, should doubt arise as to initial grade and level placement of a student, school personnel will conduct an educational assessment to determine appropriate grade and level placement.

**Secondary Grades (9-12) Credit Transfer:** A transfer of credits from any secondary school is subject to a satisfactory examination of the following:

1. Appropriate certificates of school accreditation;
2. Length of course, school day, and school year;
3. Content of applicable courses;
4. School building as it relates to credit earned (i.e., lab areas for appropriate science or vocational instruction);
5. Appropriate evaluation of student performance leading toward credit issuance.

The District will follow Montana Accreditation Rules and Standards, along with local alternate procedures for earning credit, in reviewing requests for transfer of credits. High school principals have authority for approving credit transfers, subject to review by the Superintendent or the Board.

Compulsory Attendance

To reach the goal of maximum educational benefits for every child requires a regular continuity of instruction, classroom participation, learning experiences, and study. Regular interaction of students with one another in classrooms and their participation in instructional activities under the tutelage of competent teachers are vital to the entire process of education. This established principle of education underlies and gives purpose to the requirement of compulsory schooling in every state in the nation. A student’s regular attendance also reflects dependability and is a significant component of a student’s permanent record.

Parents or legal guardians or legal custodians are responsible for seeing that their children who are age seven (7) or older before the first (1st) day of school attend school until the later of the following dates:

1. Child’s sixteenth (16th) birthday; or
2. Completion date of the work of eighth (8th) grade.

The provisions above do not apply in the following cases:
(a) The child has been excused under one of the conditions specified in 20-5-102.
(b) The child is absent because of illness, bereavement, or other reason prescribed by the policies of the trustees.
(c) The child has been suspended or expelled under the provisions of 20-5-202.

Compulsory attendance stated above will not apply when children:
1. Are provided with supervised correspondence or home study; or
2. Are excused because of a determination by a district judge that attendance is not in the best interests of the child; or
3. Are enrolled in a non-public or home school; or
4. Are enrolled in a school in another district or state; or
5. Are excused by the Board on a determination that attendance after age of sixteen (16) is not in the best interests of the child and the school.

Enrollment and Attendance Records

Since accurate enrollment and attendance records are essential both to obtain state financial reimbursement and to fulfill the District’s responsibilities under the attendance laws, staff shall be diligent in maintaining such records.

A district may only include, for ANB purposes, an enrolled student who is:

• A resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school of the district;

• Unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

• Unable to attend school due to the student’s incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

• Living with a caretaker relative under § 1-1-215, MCA;

• Receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the student’s services are provided at the district’s expense under an approved individual education plan supervised by the district;

• Participating in the Running Start Program at district expense under § 20-9-706, MCA;

• Receiving education services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the Department of Public Health and Human Services;

• Enrolled in an educational program or course provided at district expense using electronic or offsite delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs, while attending a school of the district or any other nonsectarian offsite instructional setting with the approval of the trustees of the district; or

• A resident of the district attending a Montana job corps program under an interlocal agreement with the district under § 20-9-707, MCA.
• A resident of the district attending a Montana Youth Challenge Program under an interlocal agreement with the district under § 20-9-707, MCA.

In order for a student who is served through distance learning or offsite delivery methods to be included in the calculation of average number belonging, the student must meet the residency requirements for that district; live in the district, and must be eligible for educational services under the Individuals with Disabilities Education Act or under 29 U.S.C. 794; or attend school in the district under a mandatory attendance agreement as provided in § 20-9-707, MCA.

Enrollment and Attendance Records

Average Number Belonging

Average Number Belonging (ANB) is the enrollment measure used for the State Foundation Program calculations as defined in § 20-9-311, MCA. The ANB of one year is based on the attendance records of the preceding year. Funding for districts is based on ANB, which is based on “aggregate hours” per year and must be accurate. “Aggregate hours” means the hours of pupil instruction for which a school course or program is offered or for which a pupil is enrolled.

For a child to be counted for ANB purposes:

a) The child must meet the definition of pupil as found in § 20-1-101(11), MCA;

b) Attending 181 to 359 aggregate hours = One-quarter time enrollment

c) Attending 360 to 539 aggregate hours = One-half time enrollment

d) Attending 540 to 719 aggregate hours = Three-quarter time enrollment

e) Attending 720 aggregate hours or more = Full-time enrollment

Enrollment in a program for fewer than 180 aggregate hours of pupil instruction per school year may not be included for ANB purposes, unless the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency. 20-9-311(4)(d).

Homebound Students

Students who are receiving instructional services, who were in the education program and, due to medical reasons certified by a medical doctor, are unable to be present for pupil instruction, may be counted as enrolled for ANB purposes, if the student:

a) Is enrolled and is currently receiving organized and supervised pupil instruction;

b) Is in a home or facility which does not offer a regular educational program; and

c) Has instructional costs during the absence, which are financed by the District’s general fund.
If a homebound student does not meet the criteria set forth above, the District may request a variance through the Office of Public Instruction, for consideration of the student in the enrollment count for ANB purposes beyond the tenth (10th) day of absence.

**Attendance Accounting**

Days present and absent for every student are to be recorded in each building, for the purpose of informing parents of a student’s attendance record.

On the first (1st) Monday in October and on the first (1st) Monday in February, the number of all enrolled students (whether present or absent) by grade level and class will be recorded on the forms provided by the District. Special education children who are enrolled in special programs sixteen (16) hours or more a week will be listed separately. The Director of Special Education should be contacted to verify this count. Monthly student counts of enrolled children by grade and classroom will be provided by the office.

Attendance Policy

To reach the goal of maximum educational benefits for each child requires a regular continuity of instruction, classroom participation, learning experiences, and study. Regular interaction of students with one another in the classroom and their participation in instructional activities under the tutelage of competent teachers are vital to the entire process of education. This established principle of education underlies and gives purpose to the requirement of compulsory schooling in every state in the nation. The good things schools have to offer can only be presented to students in attendance.

A student’s regular school attendance also reflects dependability and is a significant component on a student’s permanent record. Future employers are as much concerned about punctuality and dependability as they are about academic record. School success, scholarship, and job opportunity are greatly affected by a good attendance record.

Parents/guardians are to keep the school informed of their child’s absence. They also have the right to keep the student out of school for illness or other valid reasons. Parents/guardians are expected to comply with state and local school laws and rules regarding school attendance. Parents/guardians will be kept informed of their child’s absence.

Teachers have a right to expect regular attendance from their students. Teachers should not be expected to perform burdensome work as a result of unjustifiable student absences. Teachers shall assist students with makeup work whenever absences have been for a good cause.

Specific school building regulations on attendance and tardies can be found in the respective student handbooks.

Attendance Policy - Truancy

Students are expected to attend all assigned classes each day. Teachers shall keep a record of absence and tardiness. Before the end of the school day, each school shall attempt to contact every parent, guardian, or custodian whose child is absent from school but who has not reported the child as absent for the school day, to determine whether the parent, guardian, or custodian is aware of the child’s absence from school.

For the purpose of this policy “truant” or “truancy” means the persistent non-attendance without excuse, as defined by this policy, for all or any part of a school day equivalent to the length of one class period of a child required to attend a school under 20-5-103. “Habitual truancy” means recorded unexcused absences of 9 or more days or 54 or more parts of a day, whichever is less, in 1 school year.

The Laurel school district’s definition of non-attendance without excuse is stated in the respective student handbooks.

The Laurel School district has appointed [name/position of district staff] as the attendance officer(s) of the district.

Upon the board designating one or more of its staff as the attendance officer(s), the attendance officer(s) shall have the powers and duties as stated in 20-5-105, MCA.

Military Compact Waiver

The State of Montana is one of numerous states across the country that is a member of the Interstate Compact on Educational Opportunity for Military Children. As a school district within the State of Montana subject to the laws of the State of Montana, the District shall follow the requirements of the Compact for students who enroll at the District for whom the Compact applies.

Purpose

The purpose of the Interstate Compact on Educational Opportunity for Military Children is to remove barriers to educational success for children of military families due to frequent relocation and deployment of their parents. The Compact facilitates educational success by addressing timely student enrollment, student placement, qualification and eligibility for programs (curricular, co-curricular, and extra-curricular), timely graduation, and the facilitation of cooperation and communication between various member states’ schools.

Applicability

This Compact applies only to children of:

1. Active duty members of the uniformed services as defined in the Compact, including member of the national guard and reserve on active duty orders pursuant to 10 U.S.C., 12301(d) and 12304;
2. Members of the veterans of the uniformed services who are severely injured and medically discharged or retired for a period of 1 year after medical discharge or retirement; and
3. Members of the uniformed services who die on active duty or as a result of injuries sustained on active duty for a period of 1 year after death.

Educational Records and Enrollment

1. Hand Carried/Unofficial Educational Records: In the event that official educational records cannot be released to a parent for the purpose of school transfer, the custodian of records from the sending school shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the Interstate Commission.
Upon receipt of the unofficial educational records, the District shall enroll and appropriately place the student based upon the information the school receives in the unofficial educational records, pending validation by the official records, as soon as possible.

2. **Official Educational Records/Transcripts:** At the time of enrollment and conditional placement of a qualifying student at the District, the District shall request the student’s official educational records from their last school of attendance.

   A school receiving such a request shall process the official educational records request and furnish such within a period of ten (10) days, or within the timeline determined to be reasonable by the Interstate Commission.

3. **Immunizations:** The District shall provide a period of thirty (30) days from the date of enrollment, or such other time frame as determined by the rules of the Interstate Commission, within which students may obtain any immunizations required by the District. Where the District’s requirements include a series of immunizations, initial vaccinations must be obtained within thirty (30) days, or within the timeline determined to be reasonable by the Interstate Commission.

4. **Kindergarten and First Grade Entrance Age:** Students shall be allowed to continue their enrollment at grade level at the District, commensurate with their grade level from their receiving school, including kindergarten, at the time of transition. However, the provisions of Montana Code 20-5-101 regarding trustees enrolling a child in kindergarten or in first grade whose fifth (5th) or sixth (6th) birthday occurs on or before the tenth (10th) day of September of the school year in which the child is to enroll but is not yet 19 years of age, shall continue to apply.

   A student who has satisfactorily completed the prerequisite grade level in the sending school shall be eligible for enrollment in the next highest grade level in the District, at the receiving school, regardless of age.

   A student who is transferring into the District after the start of the school year shall enter the District on the student’s validated grade level from an accredited school in the sending state.

**Placement and Attendance**

1. **Course Placement:** Upon transfer of a qualifying student, the receiving District shall place the student in courses consistent with the student’s courses in the sending school and/or the school’s educational assessments.
Course placement includes, but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses.

Continuing the student’s academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This requirement does not preclude the District from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

2. **Educational Program Placement:** The District shall initially honor placement of the student in educational programs based on current educational assessments conducted at the sending school or participation/placement in similar programs at the sending school.

   Educational program placement includes, but is not limited to, gifted and talented programs and English as a second language. This requirement does not preclude the District from performing subsequent evaluations to ensure appropriate placement of the student.

3. **Special Education Services:** In compliance with the federal requirements of the Individuals with Disabilities Education Act, the District, as the receiving school, shall initially provide comparable services to a student with disabilities based on his or her current Individual Education Plan.

   In compliance with Section 504 of the Rehabilitation Act and with Title II of the Americans with Disabilities Act, the District, as the receiving school, shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities consistent with his or her existing 504 or Title II Plan.

   This does not preclude the District, as the receiving school, from performing subsequent evaluations to ensure appropriate placement and/or accommodations are made for the student.

4. **Placement Flexibility:** The District’s Administration shall have the flexibility to waive course/program prerequisites or other preconditions for placement in courses/programs offered by the receiving District.

5. **Absences Relating to Deployment Activities:** A student whose parent/legal guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or immediately returned from deployment in a combat zone or combat support position, shall be granted additional excused absences at the discretion of the District’s Superintendent to visit with his or her parent/legal guardian relative to such leave or deployment of the parent/guardian.
Eligibility

1. Eligibility for Enrollment: A Special Power of Attorney pertaining to the guardianship of a student of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

The receiving District shall not charge tuition to a transitioning military student placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

A transitioning military student, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he or she was enrolled when residing with the custodial parent.

2. Eligibility for Extra-Curricular Activity Participation: The District shall facilitate the opportunity for transitioning military students’ inclusion in extracurricular activities, regardless of application deadlines, to the extent the student is otherwise qualified.

Graduation

In order to facilitate the on-time graduation of children of military families, the receiving District shall incorporate the following procedure:

1. Graduation Course Requirements – Waiver: The receiving District’s Administration, through the Superintendent or designee, shall waive specific courses that are required for graduation if similar coursework has been satisfactorily completed at another school.

If the District does not waive the specific course requirement for graduation, the District shall provide a reasonable justification for the denial. This justification shall be provided to the parent/legal guardian in writing.

If the receiving District does not waive the specific course requirement for graduation and the student would have otherwise qualified to graduate from the sending school, the receiving District shall provide an alternative means of acquiring required course work to ensure that the student’s graduation will occur on time.

2. Exit Exams: In lieu of testing requirements required for graduation at the receiving District, the District and the State of Montana shall accept any or all of the following:

   A. Exit exams or end-of-course exams required for graduation from the sending school;
   B. National norm-referenced achievement tests; or
C. Alternative testing.

In the event the above alternatives cannot be accommodated by the receiving District for a student transferring during his or her senior year, subsection 3, below, shall apply.

3. Transfer During Senior Year of High School: Should a military student transferring at the beginning of or during the senior year be ineligible to graduate from the receiving District after all alternatives have been considered, the sending school and the receiving District shall ensure the receipt of a diploma from the sending school if the student meets the graduation requirements of the sending school.

In the event that one of the states in question is not a member of this Compact, the member state shall use best efforts to facilitate the on-time graduation of the student.

Conflicts

All state laws and District policies that conflict with this policy and/or in conflict with the Compact are superseded to the extent of the conflict.

Cooperation

The receiving District, through its administration, shall timely cooperate with all state agency inquiries and other District/school inquiries relating to a student who is covered by the Compact.

Every child of a homeless individual and every homeless child is entitled to equal access to the same free, appropriate public education as provided to other students. The District must assign and admit a child who is homeless to a District school regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment. The District may not require an out-of-District attendance agreement and tuition for a homeless child.

Should a child become homeless over the course of the school year, the child must be able to remain at the school of origin, or be eligible to attend another school in the district.

The Superintendent will review and revise as necessary rules or procedures that may be barriers to enrollment of homeless children and youths. In reviewing and revising such procedures, the Superintendent will consider issues of transportation, immunization, residence, birth certificates, school records, and other documentation.

Homeless students will have access to services comparable those offered to other students, including but not limited to:

1. Transportation services;
2. Educational services for which a student meets eligibility criteria (e.g., Title I);
3. Educational programs for children with disabilities and limited English proficiency;
4. Programs in vocational and technical education;
5. Programs for gifted and talented students; and
6. School nutrition program.

The Superintendent will give special attention to ensuring the enrollment and attendance of homeless children and youths not currently attending school. The Superintendent will appoint a liaison for homeless children.

A “homeless individual” is defined as provided in the McKinney Homeless Assistance Act.

Anyone having a concern or complaint regarding placement or education of a homeless child will first present it orally and informally to the District homeless liaison. Thereafter, a written complaint must be filed in accordance with the District Uniform Complaint Procedure.

STUDENTS

Students of Legal Age

Every student eighteen (18) years of age or older will be deemed to be an adult and will have legal capacity to act as such. Such students, like all other students, will comply with the rules established by the District, pursue the prescribed course of study, and submit to the authority of teachers and other staff members as required by policy and state law.

Admission to School

The residence of an adult student who is not residing with a parent or guardian will be considered the residence for school purposes.

Field Trips/Athletic Programs

Approved forms for participation will be required of all students. The form should indicate that the signature is that of the parent or the adult student. Sponsors or coaches will be required to confirm the ages of those students signing their own forms.

Absence/Lateness/Truancy

Absence notes, normally signed by parents or guardians, may be signed by adult students. Excessive absences will result in consequences according to policy 3122P and will be reported on the report card.

Suspension/Expulsion

All suspension and/or expulsion proceedings will conform to the requirements of state statutes. Notification of all such proceedings will be sent to parents or guardians. Adult students, however, are permitted to represent themselves if they so choose.

Withdrawal From School

Adult students may withdraw from school under their own cognizance. Counselors will guide and counsel potential dropouts and encourage their continued attendance. Parents will be notified of impending dropouts by the school.

Permission to Inspect Student Records

A student that attains the age of legal majority is an “eligible student” under FERPA. An eligible student has the right to access and inspect their student records. An eligible student may not prevent their parents from accessing and inspecting their student records if they are a dependent of their parents in accordance with Internal Revenue Service regulations.
Report Cards

Progress reports will be sent to the parent or legal guardian.

Excuses From School

The school will verify requests from students who wish to leave school early for reasons such as job interviews, college visits, driver testing, etc., with the organization being visited. Permission to leave school early may be denied for what is considered a non-valid reason.

Financial Responsibility

Adult students can be held financially responsible for damage to school property.

Discretionary Nonresident Student Attendance Policy

1. Except as required by § 20-5-321, MCA, the District will admit nonresident students at its discretion.

2. The Superintendent will make recommendation to the Board annually regarding tuition rates and to seek authorization to approve out-of-district applications for each upcoming school year.

3. The District will examine a student’s records from this district and other school districts before any Board approval for admission. Review of the records and decisions regarding admission cannot be inconsistent with district policies regarding nondiscrimination.

4. Every nonresident student who attends District schools must reapply for admission for the succeeding school year by June 15. Admission in one school year does not infer or guarantee admission in subsequent years. Those who apply for admission after June 15 will be assessed an additional $50.00 in tuition per student, and are subject to a waiting period for processing and approval based on staff availability and enrollment numbers. Applications will not be taken after January 15th for enrollment in the current school year.

5. The District will not admit nonresident students when doing so would cause the district to exceed the class size standards under 10.55.712 and 10.55.713, ARM.

6. All resident students who become nonresidents because their parents or guardians move out of the District may continue attendance for the semester, barring registration in another District. At the completion of the semester a student must apply as a nonresident student in accordance with #5.

7. The administration of the tuition procedures applying to nonresident students of the school district shall be in accordance and compliance with Montana law.

Out-of-District Student Tuition (Per Year)

Elementary K-6
- 2018-2019 45% of maximum allowed by law
- 2019-2020 and beyond 50% of maximum allowed by law

High School 7-12
- 2018-2019 45% of maximum allowed by law
- 2019-2020 and beyond 50% of maximum allowed by law

One-half (1/2) of the tuition amount owed must be paid prior to the first day of each semester or upon enrollment whichever is earlier in a given semester. Failure to pay the
required tuition amount will result in the student not being allowed to attend classes until
the tuition is paid for the semester. Tuition not paid after 5 school days will result in the
student being unenrolled from the Laurel School District. Superintendent discretion may
be used in extenuating circumstances.

10. All nonresident students will be considered ineligible transportees for school
transportation services (§ 20-10-101, MCA).

11. The district reserves the right to terminate an out-of-district agreement and send a student
back to home district before the start of the next quarter. Student grades and behavior
will factor into this decision. Parents will be notified prior to the end of the school
semester.

12. The district reserves the right to terminate an out-of-district agreement and send a student
back to home district immediately if enrollment in the district is based on fraudulent
information or changes in living circumstances are not disclosed in a timely manner.

13. The Board will not admit any student who is expelled from another school district.

14. Nonresident students enrolled under this policy are subject to all district policies, rules,
regulations on the same basis as resident students.

Foreign Exchange Students

It is the policy of the Board to recognize the benefits from foreign exchange students in the District. The Board does not, however, sponsor foreign exchange programs or provide financial contributions to any foreign exchange students. The Board assumes no responsibility or control over items such as travel, living accommodations, funding, insurance, etc., which remain the responsibility of the sponsor and/or student.

J-1 visa holders (students sponsored by an approved foreign exchange organization) are eligible to attend either elementary or secondary school. Any sponsoring organization must have a local representative, be a nonprofit organization, and be approved by the Council on Standards for International Education Travel. F-1 visa holders (individual foreign students sponsored by relatives or friends) may not attend the District.

The following guidelines will be used in admitting foreign exchange students:

1. A maximum of six students will be allowed to attend Laurel High School.
2. Companies that presently have students placed will have priority in placing students for the next year. The deadline to ensure placement will be the last day of the school year.
3. Students will be registered by grade according to the following age categories:
   - Freshman - 14
   - Sophomore - 15
   - Junior - 16
   - Senior - 17
4. Graduation diplomas will not be given. Students will receive certificates of attendance and may participate in the graduation ceremonies.
5. All student records and proper immunization records must be received before registration.
6. Unless special circumstances exist, only 3 companies will be allowed to place students in a given year. Further, unless space is available, each company will be limited to 2 students each year.

Part-Time Attendance

It is the policy of Laurel Public Schools to allow registered homeschool students who reside in
the district to enroll on a part-time basis. Students requesting part-time enrollment will be
reviewed on a case-by-case basis. Decisions regarding part-time enrollment will be made by the
building principal.

1. Middle school and high school students (6-12) must enroll for at least 3 periods per
day. Elementary (K-5) students must attend a minimum either a complete morning or
complete afternoon session.

2. The principal will consider, but is not limited to the following criteria when accepting or
denying part-time enrollment:
   a. acceptance of a student shall not create an excess student enrollment in the
      requested class;
   b. acceptance of a student shall not create need for an additional staff member;
   c. acceptance of a student shall not cause the creation of a new section of the
      requested class (6-12);
   d. regular full-time students shall have first priority on any available space;

3. When a number of part-time students have requested admission into the same class, they
will be accepted on a first-come basis as long as feasible within the criteria.

4. In the event the class enrollment position of a part-time student is needed for a regular
full-time student during the course of the year, the full-time student will have priority for
the position beginning with the next semester after the need is identified.

5. Bus space will be provided for eligible riders on a space available basis only.

6. High school graduation will be extended only to those students who meet the
requirements as specified by board policy and the state of Montana.

7. Part-time students enrolled at LHS under this policy will not be eligible for class rankings
or to participate in MHSA sanctioned sports and activities.

8. All applicable school rules and district policies will apply to part-time students.

Student Dress

The District recognizes that a student’s choice of dress and grooming habits demonstrate personal style and preference. The District has the responsibility to ensure proper and appropriate conditions for learning, along with protecting the health and safety of its student body. Even though the schools will allow a wide variety of clothing styles, dress and grooming must not materially or substantially disrupt the educational process of the school or create a health or safety hazard for students, staff, or others.

Building administrators shall establish procedures for the monitoring of student dress and grooming in school or while engaging in extracurricular activities. Students attending public events sponsored by the school district are permitted to honor their American Indian heritage through the display of culturally significant tribal regalia at a public event sponsored by the school district. Any item that promotes drug use, weapon use, threats of violence, sexual harassment, bullying, or other intimidation, or violates another district policy, state, or federal law may not be worn at a public event sponsored by the school district. Sexual Harassment/Intimidation of Students

Sexual harassment is a form of sex discrimination and is prohibited. An employee, District agent, or student engages in sexual harassment whenever that individual makes unwelcome advances, requests sexual favors, or engages in other verbal, non-verbal, or physical conduct of a sexual or sex-based nature, imposed on the basis of sex, that:

1. Denies or limits the provision of educational aid, benefits, services, opportunities, or treatment, or that makes such conduct a condition of a student’s academic status; or

2. Has the purpose or effect of:
   a. Substantially interfering with a student’s educational environment;
   b. Creating an intimidating, hostile, or offensive educational environment;
   c. Depriving a student of educational aid, benefits, services, opportunities, or treatment; or
   d. Making submission to or rejection of such unwelcome conduct the basis for academic decisions affecting a student.

The terms “intimidating,” “hostile,” and “offensive” include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include but are not limited to unwelcome touching, crude jokes or pictures, discussions of sexual experiences, pressure for sexual activity, intimidation by words, actions, insults, or name calling, teasing related to sexual characteristics, and spreading rumors related to a person’s alleged sexual activities.

Students who believe that they may have been sexually harassed or intimidated should consult a counselor, teacher, Title IX coordinator, or administrator, who will assist them in the complaint process. Supervisors or teachers who knowingly condone or fail to report or assist a student to take action to remediate such behavior of sexual harassment or intimidation may themselves be subject to discipline.

Any District employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any student of the District who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action, including but not limited to suspension and expulsion consistent with the District’s discipline policy. Any person who knowingly makes a false accusation regarding sexual harassment likewise will be subject to disciplinary action up to and including discharge with regard to employees or suspension and expulsion with regard to students.
The District will make every effort to ensure that employees or students accused of sexual harassment or intimidation are given an appropriate opportunity to defend themselves against such accusations.

To the greatest extent possible, the District will treat complaints in a confidential manner. The District realizes that limited disclosure may be necessary in order to complete a thorough investigation. Retaliation against persons who file a complaint is a violation of law prohibiting discrimination and will lead to disciplinary action against an offender.

Any individual seeking further information should consult the Superintendent for the name of the current Title IX Coordinator for the District. The Superintendent will ensure that student and employee handbooks include the name, address, and telephone number of an individual responsible for coordinating District compliance efforts.

An individual with a complaint alleging a violation of this policy should follow the Uniform Complaint Procedure.

Searches and Seizure

The goal of search and seizure with respect to students is meeting the educational needs of children and ensuring their security. The objective of any search and/or seizure is not the eradication of crime in the community. Searches may be carried out to recover stolen property, to detect illegal substances or weapons, or to uncover any matter reasonably believed to be a threat to the maintenance of an orderly educational environment. The Board authorizes school authorities to conduct reasonable searches of school property and equipment, as well as of students and their personal effects, to maintain order and security in the schools.

The search of a student, by authorized school authorities, is reasonable if it is both: (1) justified at its inception, and (2) reasonably related in scope to the circumstances which justified the interference in the first place.

School authorities are authorized to utilize any reasonable means of conducting searches, including but not limited to the following:

1. A “pat down” of the exterior of the student’s clothing;
2. A search of the student’s clothing, including pockets;
3. A search of any container or object used by, belonging to, or otherwise in the possession or control of a student; and/or
4. Devices or tools such as breath-test instruments, saliva test strips, etc.

The “pat down” or “search” of a student, if conducted, will be conducted by a school official or employee of the same gender as the student being searched.

School Property and Equipment and Personal Effects of Students

School authorities may inspect and search school property and equipment owned or controlled by the District (such as lockers, desks, and parking lots).

The Superintendent may request the assistance of law enforcement officials, including their use of specially trained dogs, to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or material.

Students

School officials may search any individual student, his/her property, or District property under his/her control, when there is a reasonable suspicion that the search will uncover evidence that he/she is violating the law, Board policy, administrative regulation, or other rules of the District or the school. Reasonable suspicion shall be based on specific and objective facts that the search
will produce evidence related to the alleged violation. The types of student property that may be searched by school officials include but are not limited to lockers, desks, purses, backpacks, student vehicles parked on District property, cellular phones, or other electronic communication devices.

Students may not use, transport, carry, or possess illegal drugs or any weapons in their vehicles on school property. While on school property, vehicles may be inspected at any time by staff, or by contractors employed by the District utilizing trained dogs, for the presence of illegal drugs, drug paraphernalia, or weapons. In the event the school has reason to believe that drugs, drug paraphernalia, or weapons are present, including by alert-trained dogs, the student’s vehicle will be searched, and the student expressly consents to such a search.

Also, by parking in the school parking lots, the student consents to having his/her vehicle searched if the school authorities have any other reasonable suspicion to believe that a violation of school rules or policy has occurred.

Seizure of Property

When a search produces evidence that a student has violated or is violating either a law or District policies or rules, such evidence may be seized and impounded by school authorities and disciplinary action may be taken. As appropriate, such evidence may be transferred to law enforcement authorities.

Searches and Seizure

The following rules shall apply to any searches and the seizure of any property by school personnel:

1. There will be at least 3 searches per year in the middle school, high school and high school parking lot. Lockers and/or vehicles will be searched each time.

2. Only the principal, vice principal, the superintendent and appropriate law enforcement agencies will know in advance what day and time the searches will occur.

3. The searches will be unannounced.

4. If the canine identifies a locker, the student will be notified and present when the principal or vice principal conducts the search of the locker and its contents. Law enforcement personnel present may offer suggestions on the search process to facilitate a thorough and complete search. If the officer handling the dog believes it is appropriate, lockers on either side of the locker identified by the dog will be searched as well.

5. If no contraband is found, the parents/guardians will be contacted immediately upon completion of the search.

6. If contraband is found it will be turned over to law enforcement and further appropriate action taken in accordance with Policy 3231 and other district policies and/or state and Federal statutes that may apply.

7. Procedures when the canine identifies a vehicle are outlined in Policy 3231.

8. Building principals may establish other such guidelines, which will not inhibit the search in any way, to facilitate the search process. The superintendent shall approve these additional guidelines.

9. A report on each search will be sent to the superintendent.

The following criteria must be met:

1. The meeting is voluntary and student-initiated.
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees.
3. The meeting must occur during non-instructional time on regular school days.
4. Employees or agents of the school or government are present only in a non-participatory capacity.
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school.
6. Non-school persons may not direct, conduct, control, or regularly attend activities.

Although the school assumes no sponsorship of these kinds of meetings, all meetings held on school premises must be scheduled and approved by the principal.

Video Surveillance

The Board authorizes the use of video cameras on District property to ensure the health, welfare, and safety of all staff, students, and visitors to District property and to safeguard District buildings, grounds, and equipment. The Superintendent will approve appropriate locations for video cameras.

The Superintendent will notify staff and students, through staff and student handbooks or by other means, that video surveillance may occur on District property. A notice will also be posted at the main entrance of all District buildings, and on all buses, indicating the use of video surveillance.

The District may choose to make video recordings a part of a student’s educational record or of a staff member’s personnel record. The District will comply with all applicable state and federal laws related to record maintenance and retention.

Suspension and Expulsion - Corrective Actions and Punishment

The Board recognizes that every student is entitled to due process rights that are provided by law.

Suspension

- “Suspension” means the exclusion of a student from attending individual classes or school and participating in school activities for an initial period not exceed ten (10) school days. An administrator may order suspension of a student.

The procedure set forth below will be followed when a proposed punishment of a student is to include denial of the right of school attendance from any single class or from a full schedule of classes for at least one (1) day.

Before any suspension is ordered, a building administrator will meet with a student to explain charges of misconduct, and the student will be given an opportunity to respond to the charges.

When a student’s presence poses a continuing danger to persons or property or poses an ongoing threat of disruption to the educational process, a pre-suspension conference will not be required, and an administrator may suspend a student immediately. In such cases, a building administrator will provide notice of and schedule a conference as soon as practicable following the suspension.

A building administrator will report any suspension immediately to a student’s parent or legal guardian. An administrator will provide a written report of suspension that states reasons for a suspension, including any school rule that was violated, and a notice to a parent or guardian of the right to a review of a suspension. An administrator will send a copy of the report and notice to the Superintendent.

The Superintendent will conduct a review of any suspension on request of a parent or legal guardian. A student and parent or legal guardian may meet with the Superintendent to discuss suspension. After the meeting and after concluding a review, the Superintendent will take such final action as appropriate.

Upon a finding by a school administrator that the immediate return to school by a student would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a student may be suspended for one (1) additional period not to exceed ten (10) school days, if the student is granted an informal hearing with the school administrator prior to the additional suspension, and if the decision to impose the additional suspension does not violate the Individuals with Disabilities Education Act (IDEA) or Rehabilitation Act.

Students who are suspended from any class or from school entirely have the right to make up any work missed according to the student handbook.

Expulsion

- “Expulsion” is any removal of a student for more than twenty (20) school days without the provision of educational services. Expulsion is a disciplinary action available only to the Board.
The Board, and only the Board, may expel a student from school and may do so only after following due process procedures set forth below.

The Board will provide written notice to a student and parent or legal guardian of a hearing to consider a recommendation for expulsion, which will be sent by registered or certified mail at least five (5) school days before the date of the scheduled hearing. The notice will include time and place of hearing, information describing the process to be used to conduct the hearing, and notice that the Board intends to conduct the hearing in closed session unless a parent or legal guardian waives the student’s right to privacy.

Within the limitation that a hearing must be conducted during a period of student suspension, a hearing to consider expulsion may be rescheduled when a parent or legal guardian submits a request showing good cause to the Superintendent at least two (2) school days before a hearing date as originally scheduled. The Superintendent will determine if a request shows good cause to reschedule a hearing.

The student has the right to be present for the duration of the hearing. At hearing the student may be represented by counsel and ask questions, present perspectives, and provide witnesses or documentation. The Board is not bound by formal rules of evidence in conducting the hearing.

Each school shall maintain a record of any disciplinary action that is educationally related, with explanation, taken against the student. When the Board of Trustees takes disciplinary action against a student, the Board must keep a written record of the action taken, with detailed explanation, even if the disciplinary action is decided during a closed session. A disciplinary action that is educationally related is an action that results in the expulsion or out-of-school suspension of the student. This record must be maintained/destroyed consistent with Montana Local Government Records Schedule 7, and is subject to transfer to a local educational agency, accredited school, or nonpublic school pursuant to 20-1-213, MCA.

Procedures for Suspension and Expulsion of Students With Disabilities

The District will comply with provisions of the Individuals with Disabilities Education Act (IDEA) and Rehabilitation Act when disciplining students. The Board will not expel any special education student when the student’s particular act of gross disobedience or misconduct is a manifestation of the student’s disability. The Board may expel pursuant to its expulsion procedures any special education student whose gross disobedience or misconduct is not a manifestation of the student’s disability. A disabled student will continue to receive education services as provided in the IDEA or Rehabilitation Act during a period of expulsion.

A building administrator may suspend a child with a disability from the child’s current placement for not more than ten (10) consecutive school days for any violation of school rules, and additional removals of not more than ten (10) consecutive school days in that same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement under 34 CFR 300.519(b), whether or not a student’s gross disobedience or misconduct is a manifestation of a student’s disabling condition. Any special education student who has exceeded or who will exceed ten (10) days of suspension may temporarily be excluded from school by court order or by order of a hearing officer, if the District demonstrates that maintaining the student in the student’s current placement is substantially likely to result in injury to the student or to others. After a child with a disability has been removed from his or her placement for more than ten (10) school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under 34 CFR 300.121(d).
An administrator may remove from current placement any special education student who has carried a weapon to school or to a school function or who knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function or inflicts serious bodily injury on another person while at school on school premises, or at a school function under the jurisdiction. A serious bodily injury is one that involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or faculty. The District will place such student in an appropriate interim alternative educational setting for no more than forty-five (45) school days in accordance with the IDEA or Rehabilitation Act.

- This chart should be read in conjunction with discipline procedures in state law, M.G.L. c. 71, §§ 37H & 37H1/2, and district-wide and school-wide student codes of conduct.
- Protections in the IDEA apply to students who have been found eligible for special education and to students for whom the school is deemed to have knowledge that the child might have a disability (i.e., students who have not yet been found eligible but the school had a basis of knowledge of a disability, including students who have been referred for initial evaluation). 34 CFR § 300.354
- Beginning on the 11th school day of a student’s disciplinary removal during the school year, and if removal is a change in placement, the student must be provided free appropriate public education (FAPE) services during the period of removal to allow him/her to continue to participate in the general education curriculum and progress towards IEP goals, even if in a different setting. 34 CFR § 300.530(b) & (d).
- If the conduct that the student is being disciplined for involves the “special circumstances” of weapons, illegal drugs, controlled substances, or serious bodily injury, school personnel may remove the student to an interim alternative educational setting (IAES) for up to 45 school days, regardless of the manifestation determination. 34 CFR § 300.530(g). The IEP Team must determine the IAES.
- Although the following flowchart lays out the steps that a school district must take when disciplining a student with a disability, it is important to remember that at any point the parent and school district can agree to change a student’s placement for disciplinary reasons. Agreements should be in writing, and signed by the school personnel and the parent.

Student protected under IDEA violates a school code of conduct

Disciplinary removal for current misconduct is for less than 10 consecutive school days and removals total less than 10 cumulative school days in the school year 34 CFR § 300.530(b)

Disciplinary removal for current misconduct is for less than 10 consecutive school days but removals total more than 10 school days in the school year 34 CFR § 300.530(b)(2)

Disciplinary removal for current misconduct is for 11 or more consecutive school days

Removal is a change in placement. 34 CFR § 300.536(a)(1)

Notify parents immediately of decision to change placement for disciplinary reasons, and of procedural safeguards under IDEA. 34 CFR § 300.536(b). Student is entitled to FAPE services as determined by the Team. 34 CFR § 300.536(d)(5)

Within 10 school days of decision to remove student for disciplinary reasons the district, the parent and relevant members of the IEP Team must review relevant information and make a manifestation determination. 34 CFR § 300.536(e)

Manifestation Determination: Is the conduct a direct result of the district’s failure to implement the IEP? 34 CFR § 300.536(e) Does the conduct have a direct and substantial relationship to the disability?

NO to both

Student’s conduct is not a manifestation of his/her disability. 34 CFR § 300.536(c)

May apply relevant disciplinary procedures in the same manner and for the same duration as to students without disabilities. 34 CFR § 300.536(c)

IEP Team determines extent to which FAPE services are needed to enable the student to continue to participate in the general ed curriculum and progress toward meeting IEP goals. 34 CFR § 300.536(d)(5)

Provide, as appropriate, functional behavioral assessment and behavioral intervention services and modifications. 34 CFR § 300.536(f)(1)

Return student to placement when the disciplinary period expires unless parent and school agree otherwise or student is lawfully expelled

NO to either

Student’s conduct is a manifestation of his/her disability. 34 CFR § 300.536(f)

If conduct was a direct result of failure to implement the IEP, the district must take immediate steps to remedy those deficiencies and review. 34 CFR § 300.536(e)(3)

Conduct a functional behavioral assessment and develop a behavioral implementation plan, or review and modify an existing plan as needed. 34 CFR § 300.536(f)(1)(i)-(ii)

And return student to placement unless (1) parent and district agree to a different placement, (2) hearing officer orders new placement, or (3) removal is for “special circumstances” under 34 CFR § 300.536(g). 34 CFR § 300.536(f)(2)

By the 10th cumulative school day of removal in the same school year, the district must consult with at least one of the student’s teachers to determine the extent to which FAPE services are needed to enable the student to continue to participate in the general ed curriculum, although in another setting, and to progress toward meeting IEP goals. 34 CFR § 300.536(d)(4)

Is the current removal one in a series that is a pattern of removal constituting a change of placement? 34 CFR § 300.536

NO YES

Within 10 school days of decision to remove student

Return student to placement when the disciplinary period expires unless parent and school agree otherwise or student is lawfully expelled

District may exclude student from the current placement without obligation to provide FAPE unless the district provides services for students without disabilities who are similarly removed. 34 CFR § 300.530(d)(3).

Types of exclusion may be suspension, removal and assignment to an interim alternative educational setting (IAES). An “in-house” suspension may be considered a change in placement.

Or parent and district agree to another placement while the appeal is pending.

Student remains in disciplinary placement while the appeal is pending. 34 CFR § 300.533

Or time period for disciplinary placement expires while the appeal is pending and child is returned to original placement.

Hearing Officer’s decision may be appealed to state or federal court. 34 CFR § 300.532(c)(5)

HO finds a violation of 34 CFR § 300.530 and returns the student to the placement from which the child was removed. 34 CFR § 300.532(b)(2)(i)

HO determines that maintaining the current placement is substantially likely to result in injury to the child or others and orders a change in placement to an appropriate IAES for not more than 45 school days. 34 CFR § 300.532(b)(2)(ii)

HO finds no violation. Student may remain in disciplinary placement until it expires or until parent and district agree otherwise.

The due process hearing continues unless the matter has been resolved within 15 days of the receipt of the complaint. 34 CFR § 300.532(c)(3)(ii)

Massachusetts Department of Education: December, 2007
DEFINITIONS

A student for whom the district is deemed to have knowledge of a disability – A child who has not yet been determined to be eligible for special education and related services may assert the disciplinary protections under IDEA if the school had a basis of knowledge that the child is a child with a disability before the behavior that precipitated the disciplinary action occurred. The school is deemed to have knowledge if: (1) the child’s parent expressed concern in writing to administrative or supervisory personnel of the school or district that the child is in need of special education and related services; (2) the parent of the child had requested a special education evaluation; or (3) the child’s teacher or other school or district personnel expressed specific concerns to the director of special education or to other supervisory personnel about a pattern of behavior demonstrated by the child. The school or district is not deemed to have knowledge of a disability if (1) the parent has not allowed an evaluation or has refused special education and related services, or (2) the child has been evaluated and determined not to be a child with a disability. 34 CFR § 300.534.

Change of placement – A change of placement because of a disciplinary removal occurs if a child with a disability is removed from his/her current educational placement for more than 10 consecutive school days, or the child is subjected to a series of removals that constitutes a pattern because: (1) the removals total more than 10 school days in a school year; (2) the child’s behavior is substantially similar to previous incidents that resulted in the series of removals; and (3) additional factors such as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another constitute a pattern. 34 CFR § 300.536.

Current placement – The placement from which the student was removed for disciplinary reasons.

Interim alternative educational setting (IAES) – An IAES is a disciplinary placement that is not the same as the child’s current placement as defined in his/her IEP.

Manifestation determination – The determination made by the district, the parent, and relevant members of the student’s Team, after review of all relevant information in the student’s file including the IEP, teacher observations, and relevant information provided by the parents, whether (1) the conduct in question was caused by or had a direct and substantial relationship to the child’s disability; or (2) the conduct in question was the direct result of the district’s failure to implement the student’s IEP. 34 CFR § 300.530(e).

Special circumstances – Where the disciplinary conduct is a “special circumstance,” school personnel may remove a student to an IAES for not more than 45 school days, regardless of the results of the manifestation determination. Special circumstances exist if the student:

- carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of a State or local educational agency (district); or
- knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a State or local educational agency; or
- inflicts serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a State or local educational agency. 34 CFR § 300.530(g).

Serious bodily injury – As defined in 18 U.S.C. § 930, a bodily injury that involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty. 34 CFR § 300.530(i)(3).

FIREARMS AND WEAPONS

Firearms

For the purposes of the firearms section of this policy, the term “firearm” means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device pursuant to 18 U.S.C. 921 (4). Such term does not include an antique firearm pursuant to 18 U.S.C. 921 (16).

It is the policy of the Laurel School District to comply with the federal Gun Free Schools Act of 1994 and state law 20-5-202 (2), MCA, pertaining to students who bring a firearm to, or possess a firearm at, any setting that is under the control and supervision of the school district. In accordance with 20-5-202 (3), MCA, a teacher, superintendent, or a principal shall suspend immediately for good cause a student who is determined to have brought a firearm to, or possess a firearm at, any setting that is under the control and supervision of the school district. In accordance with Montana law, a student who is determined to have brought a firearm to, or possess a firearm at, any setting that is under the control and supervision of the school district must be expelled from school for a period of not less than 1 year.

However, the Board of Trustees through this policy authorizes the Superintendent to use his/her discretion on a case-by-case basis and modify the requirement of expulsion of a student if he/she deems such modification to be warranted under the circumstances. The Superintendent will inform the Board, as soon as practicable, of the decision and action. Note: There is no expulsion hearing unless the administration determines that the circumstances warrant a recommendation of expulsion of the student for a period of one (1) year to the Board.

A decision to change the placement of a student with a disability who has been expelled pursuant to this section must be made in accordance with the Individuals with Disabilities Education Act.

Possession of Weapons other than Firearms

The District does not allow weapons on school property. Any student found to have possessed, used or transferred a weapon on school property will be subject to discipline in accordance with the District’s discipline policy. For purposes of this section, “weapon” means any object, device, or instrument that has been modified, fabricated, designed, or manufactured to serve as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self-injury, including but not limited to air guns; pellet guns; BB guns; fake (facsimile) weapons; all knives; blades; clubs; metal knuckles; nunchucks (also known as nunchucks); throwing stars; explosives; fireworks; mace or other propellants; stun guns; ammunition; poisons; chains; arrows; and objects that have been modified to serve as a weapon.

© MTSBA 2011
No person shall possess, use, or distribute any object, device, or instrument having the appearance of a weapon, and such objects, devices, or instruments shall be treated as weapons, including but not limited to weapons listed above which are broken or non-functional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon. No person shall use articles designed for other purposes (i.e., lasers or laser pointers, belts, combs, pencils, files, scissors, etc.) to inflict bodily harm and/or intimidate, and such use will be treated as the possession and use of a weapon.

The District will refer to law enforcement for immediate prosecution any person who possesses, carries, or stores a weapon in a school building, and the District may take disciplinary action as well in the case of a student. In addition the District will refer for possible prosecution a parent or guardian of any minor violating this policy on grounds of allowing a minor to possess, carry, or store a weapon in a school building. (45-8-361 (1) (2))

For the purposes of this section only, “school building” means all buildings owned or leased by a local school district that are used for instruction or for student activities. (45-8-361 (5a))

The Board may grant persons and entities advance permission to possess, carry, or store a weapon in a school building. All persons who wish to possess, carry, or store a weapon in a school building must request permission of the Board at a regular meeting. The Board has sole discretion in deciding whether to allow a person to possess, carry, or store a weapon in a school building. (45-8-361 (3b))

This policy does not apply to law enforcement officers acting in his or her official capacity.

(45-8-361 (3a))

Note: Section (g) of the NCLB Section 4141 – Gun Free Requirements, carves out a very significant exception to the Gun Free Schools Act in that it allows a student to have “a firearm that is lawfully stored inside a locked vehicle on school property...” Montana law (20-5-202, MCA), on the other hand, does not provide for any exception to the expulsion requirement if a student has a firearm that is lawfully stored inside a locked vehicle on school property. The only reference to federal law in 20-5-202(2), MCA is the federal definition of a firearm. As you well know 20-5-202(2), MCA provides that:

(2) The trustees of a district shall adopt a policy for the expulsion of a student who is determined to have brought a firearm, as defined in 18 U.S.C. 921, to school and for referring the matter to the appropriate local law enforcement agency. A student who is determined to have brought a firearm to school under this subsection must be expelled from school for a period of not less than 1 year, except that the trustees may authorize the school administration to modify the requirement for expulsion of a student on a case-by-case basis.

So, Montana schools are required, by state law, to expel a student from school for a period of not less than 1 year if it is determined that the student brought a firearm to school, subject to the case-by-case exception noted in the statute. Based upon the exception noted in federal law and in circumstances where a student is found to have a firearm on school property in a locked
vehicle, Montana schools should be citing state law (20-5-202, MCA) and district policy to support any recommendation for expulsion.

There is one significant inconsistency between the Federal Gun Free Schools Act and Montana is that under federal law it provides that “State law shall allow the chief administering officer of a local educational agency to modify such expulsion requirement for a student on a case-by-case basis if such modification is in writing,” whereas 20-5-202(2), MCA, provides that the trustees may authorize the school administration to modify the requirement for expulsion of a student on a case-by-case basis.

Use of Passive Alcohol-Sensor Device

Students are prohibited by Montana law and District policy from using or possessing alcoholic beverages. It is District policy to deter use or possession of alcoholic beverages by students on District property or at school-sponsored or related activities or events, through use of an alcohol-sensor device.

Administrators are authorized to use a passive alcohol device to test students for alcohol possession and/or consumption under the following guidelines:

1. School district employees who suspect students have consumed alcohol during the school day or during a school sponsored event will report their concerns to a school administrator.
2. An administrator will assess the student’s condition. If the administrator has reasonable suspicion that the student has consumed alcohol, he or she will ask the student to take an alcohol detection test.
3. If the test results are positive, the student will receive consequences as outlined in the student handbook and board policy. Whether the test is positive or negative, the student’s parent/guardian will be contacted.
4. The student may request testing by law enforcement to confirm positive results. The parent/guardian will be notified prior to law enforcement.
5. If the student refuses to take the test, the student’s parent/guardian will be notified. Law enforcement may be contacted if warranted. The student may also be subject to other appropriate discipline action in accordance with district and school policies depending on the circumstances.
6. Administrators authorized to use the device must have received adequate training.
7. The device is to be tested and calibrated on a yearly basis or as needed.
8. The district will work with the local authorities to establish appropriate guidelines for their involvement in the process.
9. Staff, students and parents/guardians will receive appropriate notice that this device will be used and provided with a copy of these guidelines.

Extra- and Co-Curricular Alcohol, Drug, and Tobacco Use

The District views participation in extracurricular activities as an opportunity extended to students willing to make a commitment to adhere to the rules which govern them. The District believes that participation in organized activities can contribute to all-around development of young men and women and that implementation of these rules will serve these purposes:

- Emphasize concern for the health and well-being of students while participating in activities;
- Provide a chemical-free environment which will encourage healthy development;
- Diminish chemical use by providing an education assistance program;
- Promote a sense of self-discipline among students;
- Confirm and support existing state laws which prohibit use of mood-altering chemicals;
- Emphasize standards of conduct for those students who, through their participation, are leaders and role models for their peers and younger students; and
- Assist students who desire to resist peer pressure that often directs them toward the use of chemicals.

Violations of established rules and regulations governing chemical use by participants in extra- and co-curricular activities will result in discipline as stated in student and athletic handbooks.

Student Health/Physical Screenings/Examinations

The Board may arrange each year for health services to be provided to all students. Such services may include but not be limited to:

1. Development of procedures at each building for isolation and temporary care of students who become ill during the school day;
2. Consulting services of a qualified specialist for staff, students, and parents;
3. Vision and hearing screening for K-1 and 10th grade;
4. Scoliosis screening;
5. Immunization as provided by the Department of Public Health and Human Services.

Parents/guardians will receive written notice of any screening result which indicates a condition that might interfere or tend to interfere with a student’s progress.

In general the District will not conduct physical examinations of a student without parental consent to do so or by court order, unless the health or safety of the student or others is in question. Further, parents will be notified of the specific or approximate dates during the school year when any non-emergency, invasive physical examination or screening administered by the District is conducted, which is:

1. Required as a condition of attendance.
2. Administered by the school and scheduled by the school in advance.
3. Not necessary to protect the immediate health and safety of the student or other students.

Parents or eligible students will be given the opportunity to opt out of the above-described non-emergency, invasive physical examination or screening.

As used in this policy, the term “invasive physical examination” means any medical examination involving exposure of private body parts or any act during such examination that includes incision, insertion, or injection into the body, but this does not include a hearing, vision, or scoliosis screening.

Students who wish to participate in certain extracurricular activities may be required to submit to a physical examination to verify their ability to participate in the activity. Students participating in activities governed by the Montana High School Association will be required to follow the rules of that organization, as well as other applicable District policies, rules, and regulations.

All parents will be notified of requirements of the District’s policy on physical examinations and screening of students, at least annually at the beginning of the school year and within a reasonable period of time after any substantive change in the policy.

Student Immunization

The Board requires all students to present evidence of their having been immunized against the following diseases: varicella (chicken pox), diphtheria, pertussis (whooping cough), poliomyelitis, measles (rubeola), mumps, rubella, and tetanus in the manner and with immunizing agents approved by the department. Haemophilus influenza type “b” immunization is required for students under age five (5).

Upon initial enrollment, an immunization status form shall be completed by the student’s parent or guardian. The certificate shall be made a part of the student’s permanent record.

A student who transfers into the District may photocopy immunization records in the possession of the school of origin. The District will accept the photocopy as evidence of immunization. Within thirty (30) days after a transferring student ceases attendance at the school of origin, the school shall retain a certified copy for the permanent record and send the original immunization records for the student to the school district to which the student transfers. Exemptions from one or more vaccines shall be granted for medical reasons upon certification by a physician indicating the specific nature and probable duration of the medical condition for not administering the vaccine(s). Exemptions for religious reasons must be filed annually. The statement for an exemption shall be maintained as part of the student’s immunization record. The permanent file of students with exemptions shall be marked for easy identification, should the Department of Public Health and Human Services order that exempted students be excluded from school temporarily when the risk of contracting or transmitting a disease exists. Exclusion shall not exceed thirty (30) calendar days.

The administrator may allow the commencement of attendance in school by a student who has not been immunized against each disease listed in § 20-5-403, MCA, if that student has received one or more doses of varicella (chicken pox), polio, measles (rubella), mumps, rubella, diphtheria, pertussis, and tetanus vaccine, except that Haemophilus influenza type “b” vaccine is required only for children under 5 years of age.

The District shall exclude a student for noncompliance with the immunization laws and properly notify the parent or guardian. The local health department may seek an injunction requiring the parent to submit an immunization status form, take action to fully immunize the student, or file an exemption for personal or medical reasons.

Medical contraindications for immunizations are determined by the most recent General Recommendations of the Advisory Committee on Immunization Practices (ACIP), U.S. Department of Health and Human Services, published in the Centers for Disease Control and Prevention’s publication, the Morbidity and Mortality Weekly Report.

A contraindication is a condition in a recipient that increases the risk for a serious adverse reaction. A vaccine will not be administered when a contraindication exists.

A precaution is a condition in a recipient that might increase the risk for a serious adverse reaction or that might compromise the ability of the vaccine to produce immunity. Under normal conditions, vaccinations should be deferred when a precaution is present.

Management of Sports Related Concussions

The Laurel School District recognizes that concussions and head injuries are commonly reported injuries in children and adolescents who participate in sports and other recreational activities. The Board acknowledges the risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed. Therefore, all K-12 competitive youth athletic activities in the District will be identified by the administration.

Consistent with guidelines provided by the U.S. Department of health and Human Services, Centers for Disease Control and Prevention, the National Federation of High School (NFHS) and the Montana High School Association (MHSA), the District will utilize procedures developed by the MHSA and other pertinent information to inform and educate coaches, athletic trainers, officials, youth athletes, and their parents and/or guardians of the nature and risk of concussions or head injuries, including the dangers associated with continuing to play after a concussion or head injury. Resources are available on the Montana High School Association Sports Medicine page at www.mhsa.org; U.S. Department of health and Human Services page at: www.hhs.gov; and; the Center of Disease and Prevention page at: www.cdc.gov/concussion/sports.index.html.

Annually, the district will distribute a head injury and concussion information and sign-off sheet to all parents and guardians of student-athletes in competitive sport activities prior to the student-athlete's initial practice or competition.

All coaches, athletic trainers, officials, including volunteers, participating in organized youth athletic activities shall complete the training program at least once each school year as required in the District procedure. Additionally, all coaches, athletic trainers, officials, including volunteers participating in organized youth activities will comply with all procedures for the management of head injuries and concussions.

If there are any updated procedures, they will be adopted and used for the upcoming school year.

2. *Identified Sports:* Identified sports include all organized youth athletic activity sponsored by the school or school district.

B. *Training:* All coaches, athletic trainers, and officials, including volunteers shall undergo training in head injury and concussion management at least once each school year by one of the following means: (1) through viewing the MHSA sport-specific rules clinic; (2) through viewing the MHSA concussion clinic found on the MHSA Sports Medicine page at www.mhsa.org; or, by the district inviting the participation of appropriate advocacy groups and appropriate sports governing bodies to facilitate the training requirements.

C. *Parent Information Sheet:* On a yearly basis, a concussion and head injury information sheet shall be distributed to the youth-athlete and the athlete's parent and/or guardian prior to the youth-athlete's initial practice or competition. This information sheet may be incorporated into the parent permission sheet which allows students to participate in extracurricular athletics and should include resources found on the MHSA Sports Medicine page at www.mhsa.org, U.S. DPHHS, and CDCP websites.

D. *Responsibility:* An athletic trainer, coach, or official shall immediately remove from play, practice, tryouts, training exercises, preparation for an athletic game, or sport camp a youth-athlete who is suspected of sustaining a concussion or head injury or other serious injury.

Because of the passage of the Dylan Steigers’ Protection of Youth Athletes Act, schools are required to distribute information sheets for the purpose of informing and educating student-athletes and their parents of the nature and risk of concussion and head injury to student athletes, including the risks of continuing to play after concussion or head injury. Montana law requires that each year, before beginning practice for an organized activity, a student-athlete and the student-athlete’s parent(s)/legal guardian(s) must be given an information sheet, and both parties must sign and return a form acknowledging receipt of the information to an official designated by the school or school district prior to the student-athletes participation during the designated school year. The law further states that a student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from play at the time of injury and may not return to play until the student-athlete has received a written clearance from a licensed health care provider.

**Student-Athlete Name:**

This form must be completed for each student-athlete, even if there are multiple student-athletes in each household.

A Fact Sheet for ATHLETES

WHAT IS A CONCUSSION?
A concussion is a brain injury that:
• Is caused by a bump or blow to the head
• Can change the way your brain normally works
• Can occur during practices or games in any sport
• Can happen even if you haven’t been knocked out
• Can be serious even if you’ve just been “dinged”

WHAT ARE THE SYMPTOMS OF A CONCUSSION?
• Headache or “pressure” in head
• Nausea or vomiting
• Balance problems or dizziness
• Double or blurry vision
• Bothered by light
• Bothered by noise
• Feeling sluggish, hazy, foggy, or groggy
• Difficulty paying attention
• Memory problems
• Confusion
• Does not “feel right”

WHAT SHOULD I DO IF I THINK I HAVE A CONCUSSION?
• Get a medical checkup. A doctor or health care professional can tell you if you have a concussion and when you are OK to return to play.
• Give yourself time to get better. If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a second concussion. Second or later concussions can cause damage to your brain. It is important to rest until you get approval from a doctor or health care professional to return to play.

HOW CAN I PREVENT A CONCUSSION?
Every sport is different, but there are steps you can take to protect yourself.
• Follow your coach’s rules for safety and the rules of the sport.
• Practice good sportsmanship at all times.
• Use the proper sports equipment, including personal protective equipment (such as helmets, padding, shin guards, and eye and mouth guards). In order for equipment to protect you, it must be:
  > The right equipment for the game, position, or activity
  > Worn correctly and fit well
  > Used every time you play

Remember, when in doubt, sit them out!
WHAT IS A CONCUSSION?
A concussion is a brain injury. Concussions are caused by a bump or blow to the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious.
You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?
Signs Observed by Parents or Guardians
If your child has experienced a bump or blow to the head during a game or practice, look for any of the following signs and symptoms of a concussion:
• Appears dazed or stunned
• Is confused about assignment or position
• Forgets an instruction
• Is unsure of game, score, or opponent
• Moves clumsily
• Answers questions slowly
• Loses consciousness (even briefly)
• Shows behavior or personality changes
• Can’t recall events prior to hit or fall
• Can’t recall events after hit or fall

Symptoms Reported by Athlete
• Headache or “pressure” in head
• Nausea or vomiting
• Balance problems or dizziness
• Double or blurry vision
• Sensitivity to light
• Sensitivity to noise
• Feeling sluggish, hazy, foggy, or groggy
• Concentration or memory problems
• Confusion
• Does not “feel right”

HOW CAN YOU HELP YOUR CHILD PREVENT A CONCUSSION?
Every sport is different, but there are steps your children can take to protect themselves from concussion.
• Ensure that they follow their coach’s rules for safety and the rules of the sport.
• Encourage them to practice good sportsmanship at all times.
• Make sure they wear the right protective equipment for their activity (such as helmets, padding, shin guards, and eye and mouth guards). Protective equipment should fit properly, be well maintained, and be worn consistently and correctly.
• Learn the signs and symptoms of a concussion.

WHAT SHOULD YOU DO IF YOU THINK YOUR CHILD HAS A CONCUSSION?
1. Seek medical attention right away. A health care professional will be able to decide how serious the concussion is and when it is safe for your child to return to sports.
2. Keep your child out of play. Concussions take time to heal. Don’t let your child return to play until a health care professional says it’s OK. Children who return to play too soon—while the brain is still healing—risk a greater chance of having a second concussion. Second or later concussions can be very serious. They can cause permanent brain damage, affecting your child for a lifetime.
3. Tell your child’s coach about any recent concussion. Coaches should know if your child had a recent concussion in ANY sport. Your child’s coach may not know about a concussion your child received in another sport or activity unless you tell the coach.

Remember, when in doubt, sit them out!
It’s better to miss one game than the whole season.
Be Prepared

A concussion is a type of traumatic brain injury, or TBI, caused by a bump, blow, or jolt to the head that can change the way your brain normally works. Concussions can also occur from a blow to the body that causes the head to move rapidly back and forth. Even a “ding,” “getting your bell rung,” or what seems to be mild bump or blow to the head can be serious. Concussions can occur in any sport or recreation activity. So, all coaches, parents, and athletes need to learn concussion signs and symptoms and what to do if a concussion occurs.

STUDENTS

Administering Medicines to Students

“Medication” means prescribed drugs and medical devices that are controlled by the U.S. Food and Drug Administration and are ordered by a healthcare provider. It includes over-the-counter medications prescribed through a standing order by the school physician or prescribed by the student’s healthcare provider.

A building principal or other administrator may authorize, in writing, any school employee:

To assist in self-administration of any drug that may lawfully be sold over the counter without a prescription to a student in compliance with the written instructions and with the written consent of a student’s parent or guardian; and

To assist in self-administration of a prescription drug to a student in compliance with written instructions of a medical practitioner and with the written consent of a student’s parent or guardian.

Except in an emergency situation, only a qualified healthcare professional may administer a drug or a prescription drug to a student under this policy. Diagnosis and treatment of illness and the prescribing of drugs are never the responsibility of a school employee and should not be practiced by any school personnel.

Administering Medication

The Board will permit administration of medication to students in schools in its jurisdiction. A school nurse (who has successfully completed specific training in administration of medication), pursuant to written authorization of a physician or dentist and that of a parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, may administer medication to any student in the school or may delegate this task pursuant to Montana law.

Emergency Administration of Medication

In case of an anaphylactic reaction or risk of such reaction, a school nurse or delegate may administer emergency oral or injectable medication to any student in need thereof on school grounds, in a school building, or at a school function, according to a standing order of a chief medical advisor or a student’s private physician.

In the absence of a school nurse, an administrator or designated staff member exempt from the nurse license requirement under § 37-8-103(1)(c), MCA, who has completed training in administration of medication, may give emergency medication to students orally or by injection.

The Board requires that there must be on record a medically diagnosed allergic condition that would require prompt treatment to protect a student from serious harm or death.

A building administrator or school nurse will enter any medication to be administered in an emergency on an individual student medication record and will file it in a student’s cumulative health folder.
Self-Administration of Medication

The District will permit students who are able to self-administer specific medication to do so provided that:

- A physician or dentist provides a written order for self-administration of said medication;
- Written authorization for self-administration of medication from a student’s parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian is on file; and
- A principal and appropriate teachers are informed that a student is self-administering prescribed medication.

A building principal or school administrator may authorize, in writing, any employee to assist with self-administration of medications, provided that only the following may be employed:

- Making oral suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
- Handing to a student a prefilled, labeled medication holder or a labeled unit dose container, syringe, or original marked and labeled container from a pharmacy;
- Opening the lid of a container for a student;
- Guiding the hand of a student to self-administer a medication;
- Holding and assisting a student in drinking fluid to assist in the swallowing of oral medications; and
- Assisting with removal of a medication from a container for a student with a physical disability that prevents independence in the act.

Self-Administration or Possession of Asthma, Severe Allergy, or Anaphylaxis Medication

Students with allergies or asthma may be authorized by the building principal or Superintendent, in consultation with medical personnel, to possess and self-administer emergency medication during the school day, during field trips, school-sponsored events, or while on a school bus. The student shall be authorized to possess and self-administer medication if the following conditions have been met:

- A written and signed authorization from the parents, an individual who has executed a caretaker relative educational authorization affidavit, or guardians for self-administration of medication, acknowledging that the District or its employees are not liable for injury that results from the student self-administering the medication.
- The student must have the prior written approval of his/her primary healthcare provider. The written notice from the student’s primary care provider must specify the name and purpose of the medication, the prescribed dosage, frequency with which it may be administered, and the circumstances that may warrant its use.
- Documentation that the student has demonstrated to the healthcare practitioner and the school nurse, if available, the skill level necessary to use and administer the medication.
- Documentation of a doctor-formulated written treatment plan for managing asthma, severe allergies, or anaphylaxis episodes of the student and for medication use by the student during school hours.
Authorization granted to a student to possess and self-administer medication shall be valid for the current school year only and must be renewed annually.

A student’s authorization to possess and self-administer medication may be limited or revoked by the building principal or other administrative personnel.

If provided by the parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, and in accordance with documentation provided by the student’s doctor, backup medication must be kept at a student’s school in a predetermined location or locations to which the student has access in the event of an asthma, severe allergy, or anaphylaxis emergency.

Immediately after using epinephrine during school hours, a student shall report to the school nurse or other adult at the school who shall provide follow up care, including making a 9-1-1 emergency call.

Administration of Glucagons

School employees may voluntarily agree to administer glucagons to a student pursuant to § 20-5-412, MCA, only under the following conditions: (1) the employee may administer glucagon to a diabetic student only in an emergency situation; (2) the employee has filed the necessary designation and acceptance documentation with the District, as required by § 20-5-412(2), MCA, and (3) the employee has filed the necessary written documentation of training with the District, as required by § 20-5-412(4), MCA.

Handling and Storage of Medications

The Board requires that all medications, including those approved for keeping by students for self-medication, be first delivered by a parent, an individual who has executed a caretaker relative educational authorization affidavit, or other responsible adult to a nurse or employee assisting with self-administration of medication. A nurse or assistant:

- Must examine any new medication to ensure it is properly labeled with dates, name of student, medication name, dosage, and physician’s name;
- Must develop a medication administration plan, if administration is necessary for a student, before any medication is given by school personnel;
- Must record on the student’s individual medication record the date a medication is delivered and the amount of medication received;
- Must store medication requiring refrigeration at 36° to 46° F;
- Must store prescribed medicinal preparations in a securely locked storage compartment; and
- Must store controlled substances in a separate compartment, secured and locked at all times.

The District will permit only a forty-five-(45)-school-day supply of a medication for a student to be stored at a school; and all medications, prescription and nonprescription, will be stored in their original containers.

The District will limit access to all stored medication to those persons authorized to administer medications or to assist in the self-administration of medications. The District requires every school to maintain a current list of those persons authorized by delegation from a licensed nurse to administer medications.
The District may maintain a stock supply of auto-injectable epinephrine to be administered by a school nurse or other authorized personnel to any student or nonstudent as needed for actual or perceived anaphylaxis. If the district intends to obtain an order for emergency use of epinephrine in a school setting or at related activities, the district shall adhere to the requirements state in 20-5-420, Section 2, MCA.

**Disposal of Medication**

The District requires school personnel either to return to a parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian or, with permission of the parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, to destroy any unused, discontinued, or obsolete medication. A school nurse, in the presence of a witness, will destroy any medicine not repossessed by a parent or guardian within a seven-(7)-day period of notification by school authorities.

Communicable Diseases

Note: For purposes of this policy, the term “communicable disease” refers to the diseases identified in 37.114.203, ARM, Reportable Diseases, with the exception of common colds and flu.

In all proceedings related to this policy, the District will respect a student’s right to privacy.

Although the District is required to provide educational services to all school-age children who reside within its boundaries, it may deny attendance at school to any child diagnosed as having a communicable disease that could make a child’s attendance harmful to the welfare of other students. The District also may deny attendance to a child with suppressed immunity in order to protect the welfare of that child when others in a school have an infectious disease, which, although not normally life threatening, could be life threatening to a child with suppressed immunity.

The Board recognizes that communicable diseases that may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases such as human immunodeficiency virus (HIV) infection. The District will rely on advice of the public health and medical communities in assessing the risk of transmission of various communicable diseases to determine how best to protect the health of both students and staff.

The District will manage common communicable diseases in accordance with Montana Department of Public Health and Human Services guidelines and communicable diseases control rules. The District may temporarily exclude from school attendance a student who exhibits symptoms of a communicable disease that is readily transmitted in a school setting.

Students who complain of illness at school may be referred to a school nurse or other responsible person designated by the Board and may be sent home as soon as a parent or person designated on a student’s emergency medical authorization form has been notified. The District reserves the right to require a statement from a student’s primary care provider authorizing a student’s return to school.

When information is received by a staff member or a volunteer that a student is afflicted with a serious communicable disease, the staff member or volunteer will promptly notify a school nurse or other responsible person designated by the Board to determine appropriate measures to be taken to protect student and staff health and safety. A school nurse or other responsible person designated by the Board, after consultation with and on advice of public health officials, will determine which additional staff members, if any, have need to know of the affected student’s condition.

Only those persons with direct responsibility for the care of a student or for determining appropriate educational accommodation will be informed of the specific nature of a condition, if it is determined that such individuals need to know this information.

The District may notify parents of other children attending a school that their children have been exposed to a communicable disease without identifying the particular student who has the disease.

Emergency Treatment

The Board recognizes that schools are responsible for providing first aid or emergency treatment to a student in case of sudden illness or injury; however, further medical attention is the responsibility of a parent or guardian.

The District requires that every parent or guardian provide a telephone number where a parent or designee of a parent may be reached in case of an emergency.

When a student is injured, staff will provide immediate care and attention until relieved by a superior, a nurse, or a doctor. The District will employ its normal procedures to address medical emergencies without regard to the existence of a do not resuscitate (DNR) request. A principal or designated staff member will call a parent or parental designee so that the parent may arrange for care or treatment of an injured student.

When a student develops symptoms of illness while at school, a responsible school official will do the following:

Isolate the student from other children to a room or area segregated for that purpose;

Inform a parent or guardian as soon as possible about the illness and request the parent or guardian to pick up the child; and

Report each case of suspected communicable disease the same day by telephone to a local health authority or as soon as possible thereafter if a health authority cannot be reached the same day.

When a parent or guardian cannot be reached, and it is the judgment of a principal or other person in charge that immediate medical attention is required, an injured student may be taken directly to a hospital. Once located, a parent or a guardian is responsible for continuing treatment or for making other arrangements.

Removal of Student During School Day

The board recognizes its responsibility for the proper care of students during school hours. Students shall not be removed from school grounds, any school building or school function during school hours except by a person duly authorized in accordance with district procedures. Before a student is removed or excused, the person seeking to remove the student must present, to the satisfaction of the principal, evidence of his/her proper authority to remove the student. A teacher should not excuse a student from class to confer with anyone from outside the school unless the request is approved by the school office. The superintendent is directed to establish procedures for the removal of a student during school hours.

Removal of Student During School Day

Schools must exercise a high order of responsibility for the care of students while in school. The removal of a student during the school day may be authorized in accordance with the following procedures:

1. Law enforcement officers, upon proper identification, may remove a student from school as provided in Policies 4410 and 4411.

2. Any other agencies must have a written administrative or court order directing the District to give custody to them. However, employees of the Department of Public Health and Human Services may take custody of a student under provisions of § 41-3-301, MCA, without a court order. Proper identification is required before the student shall be released.

3. A student shall be released to the custodial parent. When in doubt as to custodial rights, school enrollment records must be relied upon, as the parents (or guardians) have the burden of furnishing schools with accurate, up-to-date information.

4. The school should always check with the custodial parent before releasing the student to a non-custodial parent.

5. Prior written authorization from the custodial parent or guardian is required before releasing a student into someone else’s custody, unless an emergency situation justifies a waiver.

6. Police should be called if a visitor becomes disruptive or abusive.

Student Fees, Fines, and Charges
Within the concept of free public education, the District will provide an educational program for students as free of costs as possible.

The Board may charge a student a reasonable fee for any course or activity not reasonably related to a recognized academic and educational goal of the District or for any course or activity taking place outside normal school functions. The Board may waive fees in cases of financial hardship.

The Board delegates authority to the Superintendent to establish appropriate fees and procedures governing collection of fees and asks the Superintendent to make annual reports to the Board regarding fee schedules. The Board also may require fees for actual cost of breakage and for excessive supplies used in commercial, industrial arts, music, domestic science, science, or agriculture courses.

The District holds a student responsible for the cost of replacing materials or property that are lost or damaged because of negligence. A building administrator will notify a student and parent regarding the nature of violation or damage, how restitution may be made, and how an appeal may be instituted. The District may withhold a student’s grades or diploma until restitution is made. The District may not refuse to transfer files to another district because a student owes fines or fees. A school district may withhold the grades, diploma, or transcripts of a current or former pupil who is responsible for the cost of school materials or the loss or damage of school property until the pupil or the pupil's parent or guardian satisfies the obligation.

A school district that decides to withhold a pupil's grades, diploma, or transcripts from the pupil and the pupil's parent or guardian shall:
(a) upon receiving notice that the pupil has transferred to another school district in the state, notify the pupil's parent or guardian in writing that the school district to which the pupil has transferred will be requested to withhold the pupil's grades, diploma, or transcripts until any obligation has been satisfied;
(b) forward appropriate grades or transcripts to the school to which the pupil has transferred;
(c) at the same time, notify the school district of any financial obligation of the pupil and request the withholding of the pupil's grades, diploma, or transcripts until any obligations are met;
(d) when the pupil or the pupil's parent or guardian satisfies the obligation, inform the school district to which the pupil has transferred;

A student or parent may appeal the imposition of a charge for damages to the Superintendent and to the Board.

Student Records

School student records are confidential, and information from them will not be released other than as provided by law. State and federal laws grant students and parents certain rights, including the right to inspect, copy, and challenge school records.

The District will ensure information contained in student records is current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services will be directly related to the provision of services to that child. The District may release directory information as permitted by law, but parents will have the right to object to release of information regarding their child. Military recruiters and institutions of higher education may request and receive the names, addresses, and telephone numbers of all high school students, unless the parent(s) notifies the school not to release this information.

Notification to Parents and Students of Rights Concerning a Student’s School Records

The District will maintain two (2) sets of school records for each student: a permanent record and a cumulative record. The permanent record will include:

- Basic identifying information
- Academic work completed (transcripts)
- Level of achievement (grades, standardized achievement tests)
- Immunization records (per § 20-5-506, MCA)
- Attendance record
- Record of any disciplinary action taken against the student, which is educationally related

The cumulative record may include:

- Intelligence and aptitude scores
- Psychological reports
- Participation in extracurricular activities
- Honors and awards
- Teacher anecdotal records
- Verified reports or information from non-educational persons
- Verified information of clear relevance to the student’s education
- Information pertaining to release of this record
- Disciplinary information

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians and students over eighteen (18) years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

1. **The right to inspect and copy the student’s education records, within a reasonable time from the day the District receives a request for access.**

   “Eligible” students, who are eighteen (18) years of age or older, have the right to inspect and copy their permanent record. Parents/guardians or “eligible” students should submit to the school principal (or appropriate school official) a written request identifying the record(s) they wish to inspect. The principal will make, within forty-five (45) days, arrangements for access and notify the parent(s)/guardian(s) or eligible student of the time and place the records may be inspected. The District charges a nominal fee for copying, but no one will be denied their right to copies of their records for inability to pay.
this cost.

The rights contained in this section are denied to any person against whom an order of protection has been entered concerning a student.

2. **The right to request amendment of the student’s education records which the parent(s)/guardian(s) or eligible student believes are inaccurate, misleading, irrelevant, or improper.**

Parents/guardians or eligible students may ask the District to amend a record they believe is inaccurate, misleading, irrelevant, or improper. They should write the school principal or records custodian, clearly identifying the part of the record they want changed, and specify the reason.

If the District decides not to amend the record as requested by the parent(s)/guardian(s) or eligible student, the District will notify the parent(s)/guardian(s) or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent(s)/guardian(s) or eligible student when notified of the right to a hearing.

3. **The right to permit disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA or state law authorizes disclosure without consent.**

Disclosure is permitted without consent to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the District has contracted to perform a special task (such as contractors, attorneys, auditors, consultants, or therapists); volunteers; other outside parties to whom an educational agency or institution has outsourced institutional services or functions that it would otherwise use employees to perform; or a parent(s)/guardian(s) or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest, if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records, without consent, to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by state or federal law. Before information is released to individuals described in this paragraph, the parent(s)/guardian(s) will receive written notice of the nature and substance of the information and an opportunity to
inspect, copy, and challenge such records. The right to challenge school student records
does not apply to: (1) academic grades of their child, and (2) references to expulsions or
out-of-school suspensions, if the challenge is made at the time the student’s school
student records are forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical
reporting, or planning, provided that no student or parent(s)/guardian(s) can be identified;
any person named in a court order; and appropriate persons if the knowledge of such
information is necessary to protect the health or safety of the student or other persons.

4. The right to a copy of any school student record proposed to be destroyed or
deleted.

5. The right to prohibit the release of directory information concerning the parent’s/
guardian’s child.

Throughout the school year, the District may release directory information regarding
students, limited to:

- Student’s name
- Address
- Telephone number
- Date and place of birth
- Major field of study
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Photographs (including electronic photos)
- Dates of attendance
- Degrees and awards received
- Most recent school attended

Any parent(s)/guardian(s) or eligible student may prohibit the release of all of the above
information by delivering written objection to the building principal within ten (10) days
of the date of this notice. No directory information will be released within this time
period, unless the parent(s)/guardian(s) or eligible student are specifically informed
otherwise. When a student transfers, leaves the District, or graduates, the school must
continue to honor a decision to opt-out, unless the parent or student rescinds the
decision.

A parent or student 18 years of age or an emancipated student, may not opt out of
directory information to prevent the district from disclosing or requiring a student to
disclose their name [identifier, institutional email address in a class in which the student
is enrolled] or from requiring a student to disclose a student ID card or badge that
exhibits information that has been properly designated directory information by the
district in this policy.

6. **The right to request that information not be released to military recruiters and/or institutions of higher education.**

Pursuant to federal law, the District is required to release the names, addresses, and
telephone numbers of all high school students to military recruiters and institutions of
higher education upon request.

Parent(s)/guardian(s) or eligible students may request that the District not release this
information, and the District will comply with the request.

7. **The right to file a complaint with the U.S. Department of Education, concerning alleged failures by the District to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

The permanent record will include:

- Basic identifying information
- Academic work completed (transcripts)
- Level of achievement (grades, standardized achievement tests)
- Immunization records (per § 20-5-406, MCA)
- Attendance record
- Statewide student identifier assigned by the Office of Public Instruction
- Record of any disciplinary action taken against the student, which is educationally related

Each student’s permanent file, as defined by the board of public education, must be permanently kept in a secure location.

The cumulative record may include:

- Intelligence and aptitude scores
- Psychological reports
- Participation in extracurricular activities
- Honors and awards
- Teacher anecdotal records
- Verified reports or information from non-educational persons
- Verified information of clear relevance to the student’s education
- Information pertaining to release of this record
- Disciplinary information
- Camera footage only for those students directly involved in the incident

Information in the permanent record will indicate authorship and date and will be maintained in perpetuity for every student who has been enrolled in the District. Cumulative records will be maintained for eight (8) years after the student graduates or permanently leaves the District. Cumulative records which may be of continued assistance to a student with disabilities, who graduates or permanently withdraws from the District, may, after five (5) years, be transferred to the parents or to the student if the student has succeeded to the rights of the parents.

The building principal will be responsible for maintenance, retention, or destruction of a student’s permanent or cumulative records, in accordance with District procedure established by the Superintendent.

Access to Student Records

The District will grant access to student records as follows:
1. The District or any District employee will not release, disclose, or grant access to information found in any student record except under the conditions set forth in this document.

2. The parents of a student under eighteen (18) years of age will be entitled to inspect and copy information in the child’s school records. Such requests will be made in writing and directed to the records custodian. A parent of any student is allowed to view the footage but is not permitted to receive a copy unless the parents of the other involved students provide consent. Consent from parents of students in the background is not required. Access to the records will be granted within fifteen (15) days of the District’s receipt of such request.

Where the parents are divorced or separated, both will be permitted to inspect and copy the student’s school records, unless a court order indicates otherwise. The District will send copies of the following to both parents at either one’s request, unless a court order indicates otherwise:

a. Academic progress reports or records;

b. Health reports;

c. Notices of parent-teacher conferences;

d. School calendars distributed to parents/guardians; and

e. Notices about open houses and other major school events, including student-parent interaction.

A student that attains the age of legal majority is an “eligible student” under FERPA. An eligible student has the right to access and inspect their student records. An eligible student may not prevent their parents from accessing and inspecting their student records if they are a dependent of their parents in accordance with Internal Revenue Service regulations.

Access will not be granted to the parent or the student to confidential letters and recommendations concerning admission to a post-secondary educational institution, applications for employment, or receipt of an honor or award, if the student has waived his or her right of access after being advised of his or her right to obtain the names of all persons making such confidential letters or statements.

3. The District may grant access to or release information from student records without prior written consent to school officials with a legitimate educational interest in the information. A school official is a person employed by the District in an administrative, supervisory, academic, or support staff position (including, but not limited to administrators, teachers, counselors, paraprofessionals, coaches, and bus drivers), and the board of trustees. A school official may also include a volunteer or contractor not employed by the District but who performs an educational service or function for which the District would otherwise use its own employees and who is under the direct control of the District with respect to the use and maintenance of personally identifying information from education records, or such other third parties under contract with the District to provide professional services related to the District’s educational mission, including, but not limited to, attorneys and auditors. A school official has a legitimate educational interest in student education information when the official needs the information in order to fulfill his or her professional responsibilities for the District. Access by school officials to student education information will be restricted to that portion of a student’s records necessary for the school official to perform or accomplish their official or professional duties.
4. The District may grant access to or release information from student records without parental consent or notification to any person, for the purpose of research, statistical reporting, or planning, provided that no student or parent can be identified from the information released, and the person to whom the information is released signs an affidavit agreeing to comply with all applicable statutes and rules pertaining to school student records.

5. The District may grant release of a child’s education records to child welfare agencies without the prior written consent of the parents.

6. The District will grant access to or release information from a student’s records pursuant to a court order.

7. The District will grant access to or release information from any student record, as specifically required by federal or state statute.

8. The District will grant access to or release information from student records to any person possessing a written, dated consent, signed by the parent or eligible student, with particularity as to whom the records may be released, the information or record to be released, and reason for the release. One (1) copy of the consent form will be kept in the records, and one (1) copy will be mailed to the parent or eligible student by the Superintendent. Whenever the District requests consent to release certain records, the records custodian will inform the parent or eligible student of the right to limit such consent to specific portions of information in the records.

9. The District may release student records to the superintendent or an official with similar responsibilities in a school in which the student has enrolled or intends to enroll, upon written request from such official. School officials may also include those listed in #3 above.

10. Prior to release of any records or information under items 5, 6, 7, 8, and 9, above, the District will provide prompt written notice to the parents or eligible student of this intended action. This notification will include a statement concerning the nature and substance of the records to be released and the right to inspect, copy, and challenge the contents.

11. The District may release student records or information in connection with an emergency, without parental consent, if the knowledge of such information is necessary to protect the health or safety of the student or other persons. The records custodian will make this decision, taking into consideration the nature of the emergency, the seriousness of the threat to the health and safety of the student or other persons, the need for such records to meet the emergency, and whether the persons to whom such records are released are in a position to deal with the emergency. The District will notify the parents or eligible student, as soon as possible, of the information released, date of the release, the person, agency, or organization to whom the release was made, and the purpose of the release.

12. The District may disclose, without parental consent, student records or information to the youth court and law enforcement authorities, pertaining to violations of the Montana Youth Court Act or criminal laws by the student.
13. The District will comply with an *ex parte* order requiring it to permit the U.S. Attorney General or designee to have access to a student’s school records without notice to or consent of the student’s parent(s)/guardian(s).

14. The District charges a nominal fee for copying information in the student’s records. No parent or student will be precluded from copying information because of financial hardship.

15. A record of all releases of information from student records (including all instances of access granted, whether or not records were copied) will be kept and maintained as part of such records. This record will be maintained for the life of the student record and will be accessible only to the parent or eligible student, records custodian, or other person. The record of release will include:
   a. Information released or made accessible.
   b. Name and signature of the records custodian.
   c. Name and position of the person obtaining the release or access.
   d. Date of release or grant of access.
   e. Copy of any consent to such release.

**Directory Information**

The District may release certain directory information regarding students, except that parents may prohibit such a release. Directory information will be limited to:

- Student’s name
- Address
- Telephone listing
- Electronic mail address
- Photograph (including electronic version)
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Enrollment status (e.g., undergraduate or graduate; full-time or part-time)
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees
- Honors and awards received
- Most recent educational agency or institution attended

The notification to parents and students concerning school records will inform them of their right to object to the release of directory information.

**Military Recruiters/Institutions of Higher Education**

Pursuant to federal law, the District is required to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education upon request. The notification to parents and students concerning school records will inform them of their right to object to the release of this information.
Student Record Challenges

The District shall give a parent or eligible student, on request, an opportunity for a hearing to challenge content of the student’s education records on the grounds that the information contained in the education records is inaccurate, misleading, or in violation of the privacy rights of the student.

The hearing required by 34 C.F.R. 99.21 must meet, at a minimum, the following requirements:

• The District shall hold the hearing within a reasonable time after it has received the request for the hearing from the parent or eligible student.
• The District shall give the parent or eligible student notice of the date, time, and place, reasonably in advance of the hearing.
• The hearing may be conducted by any individual including an official of the District who does not have direct interest in the outcome of the hearing.
• The District shall make its decision in writing within a reasonable amount of time after the hearing.
• The decision must be based solely on the evidence presented at the hearing, and must include a summary of the evidence and the reasons for the decision.

The parent or eligible student has:

• The right to present evidence and to call witnesses;
• The right to cross-examine witnesses;
• The right to counsel;
• The right to a written statement of any decision and the reasons therefor;

The District makes Internet access and interconnected computer systems available to District students and faculty. The District provides electronic networks, including access to the Internet, as part of its instructional program and to promote educational excellence by facilitating resource sharing, innovation, and communication.

The District expects all students to take responsibility for appropriate and lawful use of this access, including good behavior on-line. The District may withdraw student access to its network and to the Internet when any misuse occurs. District teachers and other staff will make reasonable efforts to supervise use of network and Internet access; however, student cooperation is vital in exercising and promoting responsible use of this access.

Use of District electronic networks will be consistent with the curriculum adopted by the District, as well as with varied instructional needs, learning styles, abilities, and developmental levels of students, and will comply with selection criteria for instructional materials and library materials. Staff members may use the Internet throughout the curriculum, consistent with the District’s educational goals.

Acceptable Uses

1. Educational Purposes Only. All use of the District’s electronic network must be: (1) in support of education and/or research, and in furtherance of the District’s stated educational goals; or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any materials that are stored, transmitted, or received via the District’s electronic network or District computers. The District reserves the right to monitor, inspect, copy, review, and store, at any time and without prior notice, any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage.

2. Unacceptable Uses of Network. The following are considered unacceptable uses and constitute a violation of this policy:

   A. Uses that violate the law or encourage others to violate the law, including but not limited to transmitting offensive or harassing messages; offering for sale or use any substance the possession or use of which is prohibited by the District’s student discipline policy; viewing, transmitting, or downloading pornographic materials or materials that encourage others to violate the law; intruding into...
the networks or computers of others; and downloading or transmitting
confidential, trade secret information, or copyrighted materials.

B. Uses that cause harm to others or damage to their property, including but not
limited to engaging in defamation (harming another’s reputation by lies);
employing another’s password or some other user identifier that misleads message
recipients into believing that someone other than you is communicating, or
otherwise using his/her access to the network or the Internet; uploading a worm,
virus, other harmful form of programming or vandalism; participating in
“hacking” activities or any form of unauthorized access to other computers,
networks, or other information.

C. Uses that jeopardize the security of student access and of the computer network or
other networks on the Internet.

D. Uses that are commercial transactions. Students and other users may not sell or
buy anything over the Internet. Students and others should not give information
to others, including credit card numbers and social security numbers.

Warranties/Indemnification

The District makes no warranties of any kind, express or implied, in connection with its
provision of access to and use of its computer networks and the Internet provided under this
policy. The District is not responsible for any information that may be lost, damaged, or
unavailable when using the network or for any information that is retrieved or transmitted via the

Acceptable Use of Electronic Networks

All use of electronic networks shall be consistent with the District’s goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or proscribed behaviors by users. However, some specific examples are provided. The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or appropriate legal action. The district technology coordinator shall act as the system administrator.

Terms and Conditions

1. Acceptable Use – Access to the District’s electronic networks must be: (a) for the purpose of education or research and consistent with the educational objectives of the District; or (b) for legitimate business use.

2. Privileges – The use of the District’s electronic networks is a privilege, not a right, and inappropriate use will result in cancellation of those privileges. The system administrator (and/or building principal) will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. That decision is final.

3. Unacceptable Use – The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

   a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any federal or state law;
   b. Unauthorized downloading of software, regardless of whether it is copyrighted or devirused;
   c. Downloading copyrighted material for other than personal use;
   d. Using the network for private financial or commercial gain;
   e. Wastefully using resources, such as file space;
   f. Hacking or gaining unauthorized access to files, resources, or entities;
   g. Invading the privacy of individuals, which includes the unauthorized disclosure, dissemination, and use of information of a personal nature about anyone;
   h. Using another user’s account or password;
   i. Posting material authored or created by another, without his/her consent;
   j. Posting anonymous messages;
   k. Using the network for commercial or private advertising;
   l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially
offensive, harassing, or illegal material; and

m. Using the network while access privileges are suspended or revoked.

4. Network Etiquette – The user is expected to abide by the generally accepted rules of network etiquette. These include but are not limited to the following:

a. Be polite. Do not become abusive in messages to others.

b. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language.

c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.

d. Recognize that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.

e. Do not use the network in any way that would disrupt its use by other users.

f. Consider all communications and information accessible via the network to be private property.

5. No Warranties – The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed deliveries, or service interruptions caused by its negligence or the user’s errors or omissions. Use of any information obtained via the Internet is at the user’s own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

6. Indemnification – The user agrees to indemnify the District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District, relating to or arising out of any violation of these procedures.

7. Security – Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or building principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual’s account without written permission from that individual. Attempts to log on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

8. Vandalism – Vandalism will result in cancellation of privileges, and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes but is not limited to uploading or creation of computer viruses.
9. Telephone Charges – The District assumes no responsibility for any unauthorized charges
or fees, including telephone charges, long-distance charges, per-minute surcharges, and/
or equipment or line costs.

10. Copyright Web Publishing Rules – Copyright law and District policy prohibit the
republishing of text or graphics found on the Web or on District Websites or file servers,
without explicit written permission.

a. For each republication (on a Website or file server) of a graphic or text file that
was produced externally, there must be a notice at the bottom of the page
crediting the original producer and noting how and when permission was granted.
If possible, the notice should also include the Web address of the original source.
b. Students and staff engaged in producing Web pages must provide library media
specialists with e-mail or hard copy permissions before the Web pages are
published. Printed evidence of the status of “public domain” documents must be
provided.
c. The absence of a copyright notice may not be interpreted as permission to copy
the materials. Only the copyright owner may provide the permission. The
manager of the Website displaying the material may not be considered a source of
permission.
d. The “fair use” rules governing student reports in classrooms are less stringent and
permit limited use of graphics and text.
e. Student work may only be published if there is written permission from both the
parent/guardian and the student.

11. Use of Electronic Mail.

a. The District’s electronic mail system and its constituent software, hardware, and
data files are owned and controlled by the District. The District provides e-mail to
aid students and staff members in fulfilling their duties and responsibilities and as
an education tool.
b. The District reserves the right to access and disclose the contents of any account
on its system without prior notice or permission from the account’s user.
Unauthorized access by any student or staff member to an electronic mail account
is strictly prohibited.
c. Each person should use the same degree of care in drafting an electronic mail
message as would be put into a written memorandum or document. Nothing
should be transmitted in an e-mail message that would be inappropriate in a letter
or memorandum.
d. Electronic messages transmitted via the District’s Internet gateway carry with
them an identification of the user’s Internet “domain.” This domain name is a
registered domain name and identifies the author as being with the District. Great
care should be taken, therefore, in the composition of such messages and how
such messages might reflect on the name and reputation of this District. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.

e. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited, unless the user is certain of that message’s authenticity and the nature of the file so transmitted.

f. Use of the District’s electronic mail system constitutes consent to these regulations.

Internet Safety

1. Internet access is limited to only those “acceptable uses,” as detailed in these procedures. Internet safety is almost assured if users will not engage in “unacceptable uses,” as detailed in these procedures, and will otherwise follow these procedures.

2. Staff members shall supervise students while students are using District Internet access, to ensure that the students abide by the Terms and Conditions for Internet access, as contained in these procedures.

3. Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene; (2) pornographic; or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and determined by the Superintendent or designee.

4. The district shall provide age-appropriate instruction to students regarding appropriate online behavior. Such instruction shall include, but not be limited to: positive interactions with others online, including on social networking sites and in chat rooms; proper online social etiquette; protection from online predators and personal safety; and how to recognize and respond to cyberbullying and other threats.

5. The system administrator and building principals shall monitor student Internet access.

STUDENTS

Cell Phones and Other Electronic Equipment

Student possession and use of cellular phones, pagers, and other electronic signaling devices on school grounds, at school-sponsored activities, and while under the supervision and control of District employees is a privilege which will be permitted only under the circumstances described herein and in the respective student handbooks. At no time will any student operate a cell phone or other electronic device with video capabilities in a locker room, bathroom, or other location where such operation may violate the privacy right of another person.

Students may use cellular phones, pagers, and other electronic signaling devices on campus before school begins and after school ends. Students in grades 9-12 may also use such devices during the lunch period. These devices must be kept out of sight and turned off during the instructional day. Unauthorized use of such devices disrupts the instructional program and distracts from the learning environment. Therefore, unauthorized use is grounds for confiscation of the device by school officials, including classroom teachers. Confiscated devices will be returned to the parent or guardian. Repeated unauthorized use of such devices will result in disciplinary action.

COMMUNITY RELATIONS

Public Relations

The District will strive to maintain effective two-way communications with the public to enable the Board and staff to interpret schools’ needs to the community and provide a means for citizens to express their needs and expectations to the Board and staff.

The Superintendent will establish and maintain a communication process within the school system and between it and the community. Such public information program will provide for news releases at appropriate times, arrange for media coverage of District programs and events, provide for regular direct communications between individual schools and the citizens they serve, and assist staff in improving their skills and understanding in communicating with the public.

The District may solicit community opinion through parent organizations, parent-teacher conferences, open houses, and other events or activities which may bring staff and citizens together.

COMMUNITY RELATIONS

Public Relations Program

Principals are expected to initiate media coverage of their school programs and activities. The superintendent shall authorize the release of information when the topic being covered involves more than one building. The following guidelines relate to the public information program.

1. Media representatives shall be supplied factual public information. The appropriate administrator shall judge whether information is public or confidential. In cases where it is not clear, the superintendent will decide.

2. Media representatives must be kept fully informed on all aspects of the program so that any reporting will be done on the basis of a complete and accurate overview.

3. Any district photograph which might invade an individual's right of privacy may not be released.

4. Media representatives may attend school functions to which the public is invited.

5. During regular school hours, all media representative must report to the building office for identification and authorization before going to any part of the building or grounds or contacting any individual.

6. Media representatives must have authorization from the building principal to cover activities to which the public is not invited. The media representative will not be excluded without justification.

7. The board chair shall represent the board concerning media communications.

The Board recognizes that parent, teacher, and student organizations are an invaluable resource to District schools and supports their formation and vitality. While parent, teacher, and student organizations have no administrative authority and cannot determine District policy, their suggestions and assistance are always welcome.

Parent organizations and booster clubs are recognized by the Board and permitted to use the District’s name, a District school’s name, or a District school’s team name or any logo attributable to the District, provided they first receive the Superintendent’s or designee’s express written consent. Consent to use one of the above-mentioned names or logos will generally be granted, if the organization or club has bylaws containing the following:

1. The organization’s or club’s name and purpose, such as to enhance students’ educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.

2. The rules and procedures under which it operates.

3. An agreement to adhere to all Board policies and administrative procedures.

4. A statement that membership is open and unrestricted, meaning that membership is open to parents/guardians of students enrolled in the school, District staff, and community members.1

5. A statement that the District is not, and will not be, responsible for the organization’s or club’s business or the conduct of its members.

6. An agreement to maintain and protect its own finances.

7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board’s legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club’s recommendation.2

---

1 An alternative follows: An agreement not to engage in discrimination based on someone’s innate characteristics or membership in a suspect classification.

2 Booster clubs are understandably selective in their support. However, by accepting booster club assistance that creates vast gender differences, a school board may face claims that it has violated Title IX. Title IX’s focus is on equal funding opportunities, equal facility availability, similar travel and transportation treatment, comparable coaching, and comparable publicity (34 C.F.R. Part 106).
Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District’s representative. At no time does the District accept responsibility for the actions of any parent organization or booster club, regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.

Fundraising by School Support Groups

Fundraising by school support groups is considered a usual and desirable part of the function of such groups. Specific fundraising activities must be approved in advance by the principal.

The principal must be consulted before any expenditure of such funds. All such funds raised by school adjunct groups are to be used for direct or indirect support of school programs. Equipment purchased by support groups and donated to the schools becomes the property of the District and may be used or disposed of in accordance with District policy and state law.

3 Booster clubs present potential liabilities to a school district beyond loss of funds, because they seldom are properly organized (they generally are not incorporated or otherwise legally recognized), carry no insurance, raise and handle large sums of money, and club members hold themselves out as agents of the school (after all, no funds could be raised but for the school connection). A disclaimer, such as the one presented here, may not be sufficient. A district may take several actions, after discussion with its attorney, to minimize liability, such as adding a requirement to item 6 above that the club: (1) operate under the school’s authority (activity accounts); or (2) be properly organized and demonstrate fiscal responsibility by being a 501(c)(3) organization, obtaining a bond, and/or arranging regular audits. Ultimately, the best way to minimize liability is to be sure that the district’s errors-and-omissions insurance covers parent organizations and booster clubs.

NOTE: The following optional administrative procedure should be modified to reflect District practice.

Persons proposing to establish a school-connected organization shall submit a request to the Board for authorization to operate at the school. The request for authorization shall contain:

1. The name and purpose of the organization.

2. The date of application.

3. Bylaws, rules, and procedures under which the organization will operate, including procedures for maintaining the organization’s finances, membership qualifications, if any, and an agreement that the group will not engage in unlawful discrimination.

4. The names, addresses, and phone numbers of all officers.

5. A list of specific objectives.

6. An agreement to grant the District the right to audit the group’s financial records at any time, either by District personnel or a certified public accountant.

7. The name of the bank where the organization’s account will be located and the names of those authorized to withdraw funds.

8. The signature of the Superintendent of the supporting school.

9. Planned use for any money remaining at the end of the year, if the organization is not continued or authorized to continue in the future.

10. An agreement to provide evidence of liability insurance as required by law (Policy 4330 - Use of School Facilities).

NOTE: The following optional paragraph requires an organization to request renewal of the authorization from the Superintendent or designee on an annual basis. Districts that allow for an automatic renewal or that require approval from the Board should modify the following paragraph accordingly.

Requests for subsequent authorization shall be presented to the Superintendent or designee annually, along with a financial statement showing all income and expenditures from fundraisers. If the Superintendent or designee proposes to deny the request for reauthorization, he/she shall
present his/her recommendation to the Board for approval.

NOTE: The following paragraph should be modified to reflect District practice.

Upon consent of the Superintendent or designee, school-connected organizations may use the school’s name, the school team’s name, or any logo attributable to the school or the District.

School-connected organizations are prohibited from hiring or directly paying District employees. Organizations may make donations to the District to cover the costs of additional employees, but only if such positions are approved in advance by the Board. At their discretion, employees may volunteer to perform activities for school-connected organizations during non-working hours.

Individuals with disabilities will be provided opportunity to participate in all school-sponsored services, programs, or activities on a basis equal to those without disabilities and will not be subject to illegal discrimination.

The District may provide auxiliary aids and services when necessary to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of a service, program, or activity.

The Superintendent is designated the Americans with Disabilities Act Title II Coordinator and, in that capacity, is directed to:

1. Oversee District compliance efforts, recommend necessary modifications to the Board, and maintain the District’s final Title II self-evaluation document and keep it available for public inspection for at least three (3) years after its completion date (for districts having fifty (50) or more full- or part-time employees).

2. Institute plans to make information regarding Title II protection available to any interested party.

School facilities are available to the community for educational, civic, cultural, and other noncommercial uses consistent with the public interest, when such use will not interfere with the school program or school-sponsored activities. Use of school facilities for school purposes has precedence over all other uses. Persons on school premises must abide by District conduct rules at all times as outlined in board policy 4332.

Student and school-related organizations shall be granted the use of school facilities at no cost. Other organizations granted the use of school facilities shall pay fees and costs. The Superintendent will develop procedures to manage community use of school facilities, which will be reviewed and approved by the Board. All uses will be by written contract. Any advertising or announcement by the user must include the following statement: “This program is sponsored by (name of user). Use of school district facilities does not constitute support of or endorsement by the Laurel Public Schools.” In a print advertisement or announcement, the disclaimer must be the same size as the font used to announce the location of the program. The remedy for failure to comply with this provision will be to immediately rescind the facility use contract.

The administration is authorized to adjust personnel charges as needed to reflect the actual cost to the district.

Application for use of any school facility shall first be made to the Activity Director who shall be responsible for the coordination of the scheduling of the spaces within the buildings, proper paperwork, and collection of fees. The Business Office shall be responsible for developing a request form and contract outlining the following requirements for use of school-owned facilities which the Activity Director will distribute upon request.

The Superintendent shall determine a fee schedule applicable for the use of school facilities. The fee schedule shall be evaluated on a biennial basis. For rental rate purposes, the organizations seeking the use of the school facility have been divided into three categories:

Category 1: Groups in this category are basically community groups (church or secular) whose memberships involve Laurel school-age children whose leaders or advisors are generally non-paid adults and whose main purpose is to in some way educate the youngster member. These groups will not be charged a rental fee for the use of the buildings except the LHS auditorium, any computer labs or the Stadium.

However, they will be charged custodial fees should their use of the facility require employee hours beyond those which the custodial staff would have needed had the building not been used by the community group. Supervisor, technical support or food service employee fees will be charged if required for the event. No charge will
will be made for any school activities including P.T.A., Parent Advisory Councils, Booster Clubs, and university classes requested by the district- nor for district, county, state or national election voting places.

Category 2: This category includes all community non-profit organizations (IRS numbers) and community groups of people who wish to use facilities owned by the school district for lectures, promotional activities, political rallies, entertainment, college courses, athletic groups, exercise groups, dance groups, church services or other activities for which public halls or commercial facilities generally are rented. The district shall charge a rental rate which will recover utility, capital expense, maintenance, energy and overhead costs for the use of the facility. Should there be custodial, supervisor, technical support or food service employee costs incurred as a result of the use, these costs will also be charged.

Category 3: This group shall include all for-profit organizations not listed in #1 or #2 and non-profit organizations from outside the community. Charge for the use of school facilities in the Category 3 groups shall be double that charge for Category 2 above. Should there be custodial, supervisor, technical support or food service employee costs incurred as a result of the use, these costs will also be charged.

Other Relevant Information

Sponsoring organizations and groups using facilities shall provide sufficient, competent help and/or special supervision, and the amount of adequate supervision shall be agreed upon at the time the contract is issued. Groups are expected to leave facilities in the condition they found them. If district finds it in an unacceptable condition a charge may be assessed to the group and the group may be denied access in the future.

Alcoholic beverages and narcotics shall not be permitted on school facilities or on school property at any time. The use of drugs, alcohol and tobacco is prohibited on all school district property. All applicants for use of school facilities shall hold the district free and without harm from any loss, damage or liability of expense that may arise during or be caused in any way by such use or occupancy of school facilities. In the event that property loss or damage is incurred during such use or occupancy, the amount of damage shall be decided by the superintendent and the bill for damages shall be presented to the group using or occupying the facility during the time the loss or damage was sustained. Failure to return keys will result in loss of security deposit.

Because of the value of the district’s playing fields and the community’s total recreational opportunity, the fields may be used by all residents. The appropriate rate schedule will apply. Use must be appropriate and compatible with each playing field and its surrounding area. Such use shall not result in construction, damage or undue wear or pose a hazard to children or others.
Activities which endanger others or cause damage to fields and lawns are prohibited. Should damage to fields or lawns occur, the superintendent shall make a reasonable effort to obtain restitution for any damage.

A custodian or other authorized staff member who is not participating in the activity may be required to be on the premises when any non-school group is using the school buildings at the expense of the group renting the facility.

The district reserves the right to require any groups to supply additional liability insurance with the district insured for an amount specified by the Business Manager. User groups will be required to provide liability coverage of $1,000,000. The decision will be made on an individual renting group basis dependent upon level of risk.

The Laurel School District reserves the right to deny groups the use of facilities due to poor usage or damage in past. The Laurel School District cannot anticipate every rental facility request but all groups will be placed into one of the three categories. Additional fees may be added with costs determined by district office without notice due to new and unique requests. Rental fee and security deposit payments are required prior to use.

1. Personal information in any file maintained for students. Information in student records will be disclosed only in accordance with requirements of the Family Educational Rights and Privacy Act of 1974 and adopted District policy.

2. Personal information in files maintained for staff, to the extent that disclosure will violate their right to privacy.

3. Test questions, scoring keys, or other examination data used to administer academic tests.

Interrogation and Investigations Conducted by School Officials

The administration has the authority and duty to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law. The administration shall determine when the necessity exists that law enforcement officers be asked to conduct an investigation of alleged criminal behavior which jeopardizes the safety of other people or school property or which interferes with the operation of the schools.

In instances when the administration has reasonable suspicion that a violation of district policy or the student code of conduct has been violated, the administrator will investigate. The administrator will notify the suspected rule violator(s) or potential witness(es) to the infraction. The suspected student shall be advised orally or in writing of the nature of the alleged offense and of the evidence against the student. Circumstances may arise where it would be advisable to have another adult present during questioning of students.

School Resource Officer

Laurel School District contracts with the Laurel Police Department to provide School Resource Officers (SROs) to maintain a safe and secure environment conducive to learning. Whenever possible all interactions between students and law enforcement at schools with SROs assigned shall be coordinated through the SROs as specified within the duties of the contract.

Duties:

1. Abide by school board policies and shall consult with and coordinate activities through the school principal but shall remain fully responsive to the chain of command of the law enforcement agency in all matters relating to employment and supervision.

2. Develop expertise in presenting various subjects; particularly in meeting federal and state mandates in drug abuse prevention education and shall provide these presentations at the request of school personnel in accordance with the established curriculum.

3. Encourage individual and small group discussions about law enforcement related matters with students, faculty and parents.

4. Attend meetings of parent and faculty groups to solicit their support and understanding of the School Resource Officer Program and to promote awareness of law enforcement functions.

5. Be familiar with all community agencies that offer assistance to youths and their families such as mental health clinics, drug treatment centers, etc.
6. Confer with the administration to develop plans and strategies to prevent and/or minimize dangerous situations on or near the campus or involving students at school related activities.

7. Coordinate with the administration when conducting an investigation into alleged violations of District policy that also could be a violation of the criminal code during school hours, on school property or students travelling to or from school.

8. Advise the administration before requesting additional enforcement assistance on campus and undertake all additional responsibilities at the administration’s direction.

9. In order to assure the peaceful operation of school-related programs, SROs will whenever possible, participate in or attend school functions.

10. Reaffirm their roles as law enforcement officers by wearing their uniforms, unless doing so would be inappropriate for scheduled school activities. The uniform will also be worn at events where it will enhance the image of officers and their ability to perform their duties.

11. Coordinate with the administration and be responsible for law enforcement and security activity at extra-curricular events as determined by the principal.

12. File reports as required by the school district and/or law enforcement agency.

**Investigations by Law Enforcement**

When a student becomes involved with law enforcement officers due to events outside of the school environment and officers other than a SRO must interact with a student, the officer(s) is requested to confer with the student when he/she is being investigated for conduct not under the jurisdiction of the school. If this cannot be arranged, the SRO is the first person of contact for law enforcement. If for any reason the SRO is not available to respond to a request, the following steps shall be taken to cooperate with the authorities.

a. The officer shall contact the school principal and present proper identification in all occasions upon his/her arrival on school premises.

b. Parents or guardians shall be notified by the law enforcement officer, school principal or assistant principal as soon as possible. The law enforcement officer, principal or assistant principal shall make every effort to inform parents or guardians of the intent of the law enforcement officers except when that notification may compromise the student’s safety.

c. The student’s parent or guardian should be present, if practicable, during any interrogation on school premises.
Cooperation with Law Enforcement

Although cooperation with law enforcement officers will be maintained, it is the preference of the District that it will not normally be necessary for law enforcement officers to initiate, and conduct any investigation and interrogation on the school premises, during school hours, pertaining to criminal activities unrelated to the operation of the school. It is preferred that only in demonstrated emergencies, when law enforcement officers find it necessary, will they conduct such an investigation during school hours. These circumstances might be limited to those in which delay might result in danger to any person, flight of a person reasonably suspected of a crime from the jurisdiction or local authorities, destruction of evidence, or continued criminal behavior.

No school official, however, should ever place him/herself in the position of interfering with a law enforcement official in the performance of his or her duties as an officer of the law. If the law enforcement officials are not recognized and/or are lacking a warrant or court order, the building principal shall require proper identification of such officials and the reason(s) for the visit to the school. If the principal is not satisfied, he/she shall attempt to notify the Superintendent and the officer’s superior, documenting such action.

In all cases, the officers shall be requested to obtain prior approval of the principal or other designated person before beginning such an investigation on school premises. The administrator shall document the circumstances of such investigations as soon as practical. Alleged behavior related to the school environment brought to the Principal’s attention by law enforcement officers shall be dealt with under the provisions of the two previous sections.

Taking a Student into Custody

School officials shall not release students to law enforcement authorities voluntarily unless the student has been placed under arrest or unless the parent or guardians and the student agree to the release. When students are removed from school for any reason by law enforcement authorities, every reasonable effort will be made to notify the student’s parents or guardians immediately. Such effort shall be documented. Whenever an attempt to remove a student from school occurs without an arrest warrant, court order, or without acquiescence of the parent or guardian, or the student, the administrator shall immediately notify a superior of the law enforcement officers involved to make objection to the removal of the student and shall attempt to notify the parent or guardian of the student. The Superintendent’s office shall be notified immediately of any removal of a student from school by law enforcement officers under any circumstances.

When it is necessary to take a student into custody on school premises and time permits, the law enforcement officer shall be requested to notify the principal and relate the circumstances necessitating such action. When possible, the principal shall have the student summoned to the principal’s office where the student may be taken into custody. In all situations of interrogations, arrest or service of subpoenas of a student by law enforcement officers on school premises, all
practicable steps shall be taken to ensure a minimum of embarrassment or invasion of privacy of the student and disruption to the school environment.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances of the school environment which the Principal or other school administrator has found to be unmanageable by school personnel and which disturbances have the potential of causing harm to students, other persons, or school property. Staff members may also notify law enforcement officials.

Such potential of possible disturbance includes members of the public who have exhibited undesirable or illegal conduct on school premises or at a school event held on school property, and who have been requested to leave by an administrator or staff member, but have failed or refused to do so.

Cooperative Programs With Other Districts and Public Agencies

Whenever it appears to the economic, administrative, and/or educational advantage of the District to participate in cooperative programs with other units of local government, the Superintendent will prepare and present for Board consideration an analysis of each cooperative proposal.

When formal cooperative agreements are developed, such agreements shall comply with requirements of the Interlocal Cooperation Act, with assurances that all parties to the agreement have legal authority to engage in the activities contemplated by the agreement.

The District may enter into interlocal agreements with a unit of the Montana University System, public community college, and/or tribal college, which would allow students enrolled in the 11th and 12th grades to attend and earn credit for classes not available in the District. Tuition and fees, if assessed, will be provided for in the interlocal agreement.

Registered Sex Offenders

The State of Montana has determined that perpetrators of certain sex crimes pose a continuing threat to society as a whole even after completion of their criminal sentences. Recognizing that the safety and welfare of students is of paramount importance, the Laurel School District declares that, except in limited circumstances, Laurel School District should be off limits to registered sex offenders.

Employment

Notwithstanding any other Board policy, individuals listed by the State of Montana as registered sex offenders are ineligible for employment in any position within the Laurel School District. However, the Superintendent shall have discretion consistent with other Board policies to recommend an individual whose name has been expunged from the Sex Offender Registry.

School Off Limits

The District hereby declares that no registered sex offender whose victim was a minor may come on, about, or within any District-owned buildings or property except as otherwise provided in this policy. If an administrator becomes aware that such a sex offender is on, about, or within school property, the administrator shall direct the sex offender to immediately leave the area. The Board authorizes the administrator to request the assistance of the appropriate law enforcement authorities to secure the removal of any registered sex offender from the area. If a registered sex offender disregards the terms of this policy or the directives of the school administrator, then the Superintendent is authorized to confer with counsel and to pursue such criminal or civil action as may be necessary to enforce compliance with this policy.

This policy shall not be construed to impose any duty upon any administrator or any other employee of the District to review the Sex Offender Registry or to screen individuals coming on or within school property to ascertain whether they are on the Registry. This policy shall only apply when administrators are actually aware that the person in question is on the Sex Offender Registry and that the offender’s victim was a minor.

The provisions of this policy prohibiting a registered sex offender from coming on, about, or within school property shall not apply in the event that a sex offender’s name should be expunged from the Registry.

Rights of Parents on the Sex Offender Registry

In the event that a registered sex offender whose victim was a minor has a child attending the District, the administrator of the school where the child attends shall be authorized to modify this
policy’s restrictions to permit the parent to drop off and pick up the child from school and to come onto campus to attend parent-teacher conferences. However, the parent may not linger on or about school property before or after dropping off his or her child, and the parent is prohibited from being in any part of the school building except the main office.

This policy does not impose a duty upon the administrator of any school or any other employee of the District to review the Sex Offender Registry and the school system’s directory information to ascertain whether a registered sex offender may have a child attending school in the District. The provisions of this policy shall apply only if an administrator actually becomes aware that a parent of a student at the school is a registered sex offender.

To facilitate voluntary compliance with this policy, administrators are encouraged to speak with any affected parents upon learning of their status as registered sex offenders to communicate the restrictions of this policy. At all times, the administrator shall endeavor to protect the privacy of the offender’s child.

In the event of a truly exceptional situation such as graduation, a parent on the Sex Offender Registry may ask the Superintendent for a waiver of this policy to permit the parent to attend these special events. It is the intent of the Board, however, that these special circumstances be truly unusual and infrequent occurrences.

Board policy requires that any finalist recommended to be employed in a paid or volunteer position with the District, involving regular unsupervised access to students in schools, as determined by the Superintendent, shall submit to a fingerprint criminal background investigation conducted by the appropriate law enforcement agency before consideration of the recommendation for employment or appointment by the Board. Any subsequent offer of employment or appointment will be contingent on results of the fingerprint criminal background check, which must be acceptable to the Board, in its sole discretion. No individual will be permitted to have regular unsupervised access to students in schools until completion of a criminal background investigation and receipt of approval by the administration.

The following applicants for employment, as a condition for employment, will be required, as a condition of any offer of employment, to authorize, in writing, a name-based and fingerprint criminal background investigation:

- A certified teacher seeking full- or part-time employment with the District;
- An educational support personnel employee seeking full- or part-time employment with the District;
- An employee of a person or firm holding a contract with the District, if the employee is assigned to the District;
- A volunteer assigned to work in the District, who has regular unsupervised access to students; and
- Substitute teachers.

Any requirement of an applicant to submit to a fingerprint background check will be in compliance with the Volunteers for Children Act of 1998 and applicable federal regulations. If an applicant has any prior record of arrest or conviction by any local, state, or federal law enforcement agency for an offense other than a minor traffic violation, the facts must be reviewed by the Superintendent, who will decide whether the applicant will be declared eligible for appointment or employment. Arrests resolved without conviction will not be considered in the hiring process, unless the charges are pending. **Upon written request, the applicant will be provided one copy of the FBI Criminal History Record at no charge.**

As an applicant who is the subject of a national fingerprint-based criminal history record check for a noncriminal justice purpose (such as an application for employment or a license, an immigration or naturalization matter, security clearance, or adoption), you have certain rights which are discussed below.

- You must be provided written notification by Laurel School District that your fingerprints will be used to check the criminal history records of the FBI.
- You must be provided, and acknowledge receipt of, an adequate Privacy Act Statement when you submit your fingerprints and associated personal information. This Privacy Act Statement should explain the authority for collecting your information and how your information will be used, retained, and shared.
- If you have a criminal history record, the officials making a determination of your suitability for employment, license, or other benefit must provide you the opportunity to complete or challenge the accuracy of the information in the record.
- The officials must advise you that the procedures for obtaining a change, correction, or updating of your criminal history record are set forth at Title 28, Code of Federal Regulations (CFR), Section 16.34.
- If you have a criminal history record, you should be afforded a reasonable amount of time to correct or complete the record (or decline to do so) before the officials deny you the employment, license, or other benefit based on information in the criminal history record.9

You have the right to expect that officials receiving the results of the criminal history record check will use it only for authorized purposes and will not retain or disseminate it in violation of federal statute, regulation or executive order, or rule, procedure or standard established by the National Crime Prevention and Privacy Compact Council.10

If agency policy permits, the officials may provide you with a copy of your FBI criminal history record for review and possible challenge. If agency policy does not permit it to provide you a copy of the record, you may obtain a copy of the record by submitting fingerprints and a fee to the FBI. Information regarding this process may be obtained at http://www.fbi.gov/about-us/cjis/background-checks.

If you decide to challenge the accuracy or completeness of your FBI criminal history record, you should send your challenge to the agency that contributed the questioned information to the FBI. Alternatively, you may send your challenge directly to the FBI at the same address as provided above. The FBI will then forward your challenge to the agency that contributed the questioned information and request the agency to verify or correct the challenged entry. Upon receipt of an official communication from that agency, the FBI will make any necessary changes/corrections to your record in accordance with the information supplied by that agency.

If a change, correction, or update needs to be made to a Montana criminal history record, or if you need additional information or assistance, please contact Montana Criminal Records and Identification Services at dojitsdpublicrecords@mt.gov or 406-444-3625.

Your signature below acknowledges this agency has informed you of your privacy rights for fingerprint-based background check requests used by the agency.

When district employees know or have reasonable cause to believe that serious instances of wrongful conduct (e.g., mismanagement of district resources, violations of law and/or abuse of authority) have occurred, they should report such wrongful conduct to the Superintendent or Board Chairperson.

For purposes of this policy, the term “wrongful conduct” shall be defined to include:

- theft of district money, property, or resources;
- misuse of authority for personal gain or other non-district purpose;
- fraud;
- violations of applicable federal and state laws and regulations; and/or
- serious violations of district policy, regulation, and/or procedure.

The Board of Trustees will not tolerate any form of reprisal, retaliation or discrimination against:

- Any employee, or applicant for employment, because he/she opposed any practice that he/she reasonably believed to be made unlawful by federal or state laws prohibiting employment discrimination on the basis of sex, sexual orientation, race, color, national origin, age, religion, height, weight, marital status, handicap or disability.

- Any employee, or applicant for employment, because he/she filed a charge, testified, assisted or participated, in any manner, in an investigation, proceeding or hearing under federal or state laws prohibiting employment discrimination on the basis of sex, sexual orientation, race, color, national origin, age, religion, height, weight, marital status, handicap or disability or because he/she reported a suspected violation of such laws according to this policy; or,

- Any employee or applicant because he/she reported, or was about to report, a suspected violation of any federal, state or local law or regulation to a public body (unless the employee knew that the report was false) or because he/she was requested by a public body to participate in an investigation, hearing or inquiry held by that public body or a court.

An employee or applicant for employment who believes that he/she has suffered reprisal, retaliation or discrimination in violation of this policy shall report the incident(s) to the Superintendent or his/her designee. The Board of Trustees guarantees that no employee or applicant for employment who makes such a report will suffer any form of reprisal, retaliation or discrimination for making the report. Individuals are forbidden from preventing or interfering with whistle blowers who make good faith disclosures of misconduct.

The Board or its agents will not discharge, discipline or otherwise penalize any employee because the employee or someone acting on the employee’s behalf, reports, verbally or in writing, a violation or suspected violation of any state or federal law or regulation or any town/city ordinance or regulation to a
public body, or because an employee is requested by a public body to participate in an investigation, hearing
or inquiry held by that public body, or a court action. Further, the Board or its agents will not discharge,
discipline or otherwise penalize any employee because the employee, or a person acting on his/her behalf,
reports, verbally or in writing, to a public body, as defined in the statutes, concerning unethical practices,
mismanagement or abuse of authority by the employer. This section does not apply when an employee
knowingly makes a false report.
The District will exercise reasonable efforts to:

• investigate any complaints of retaliation or interference made by whistle blowers;
• take immediate steps to stop any alleged retaliation; and
• discipline any person associated with the District found to have retaliated against or interfered with a
  whistle blower.

The Board of Trustees considers violations of this policy to be a major offense that will result in disciplinary
action, up to and including termination, against the offender, regardless of the offender’s position within
the District.
The Board shall make this policy available to its staff by posting it on its website with its other District
policies.

Medical Examinations

Through its overall safety program and various policies pertaining to school personnel, the Board will promote the safety of employees during working hours and assist them in the maintenance of good health. The Board will encourage all its employees to maintain optimum health through the practice of good health habits.

The Board may require physical examinations of its employees, under circumstances defined below. The District will maintain results of physical examinations in medical files separate from the employee’s personnel file and will release them only as permitted by law.

Physical Examinations

The District participates in a Pre-Placement Physical Program for all custodial and maintenance personnel and other positions deemed inclusive of this policy as determined by specific Board action. Subsequent to a conditional offer of employment in a position for which the District may require participation in a pre-placement physical but before commencement of work, the District may require an applicant to have a medical examination and to meet any other health requirements which may be imposed by the state. The District may condition an offer of employment on the results of such examination, if all employees who received a conditional offer of employment in the applicable job category are subject to such examination. The report shall certify the employee’s ability to perform the job-related functions of the position for which the employee is being considered. Such examination shall be used only to determine whether the applicant is able to perform with reasonable accommodation job-related functions.

All bus drivers, whether full-time, regular part-time, or temporary part-time, are required by state law to have a satisfactory medical examination before employment.

Communicable Diseases

If a staff member has a communicable disease and has knowledge that a person with compromised or suppressed immunity attends the school, the staff member must notify the school nurse or other responsible person designated by the Superintendent of the communicable disease which could be life threatening to an immune-compromised person. The school nurse or other responsible person designated by the Superintendent must determine, after consultation with and on the advice of public health officials, if the immune-compromised person needs appropriate accommodation to protect their health and safety.

An employee with a communicable disease shall not report to work during the period of time in which the employee is infectious. An employee afflicted with a communicable disease capable of
being readily transmitted in the school setting (e.g., airborne transmission of tuberculosis) shall be encouraged to report the existence of the illness so that precautions may be taken to protect the health of others. The District reserves the right to require a statement from an employee’s primary care provider, before the employee may return to work.

Confidentiality

In all instances, District personnel will respect an individual’s right to privacy and treat any medical diagnosis as confidential information. Any information obtained regarding the medical condition or history of any employee will be collected and maintained on separate forms and in separate medical files and will be treated as confidential information. Only those individuals with a legitimate need to know (i.e., those persons with a direct responsibility for the care of or for determining workplace accommodation for the staff person) will be provided necessary medical information.

Supervisors and managers may be informed of necessary restrictions on the work or duties of an employee and necessary accommodations. First aid and safety personnel may be informed, when appropriate, if a staff member with a disability might require emergency treatment.

Alcohol and controlled substance tests shall be conducted as soon after an accident as practicable on any driver:

1. Who was performing safety-sensitive functions with respect to the vehicle, if the accident involved loss of human life; or

2. Who receives a citation under state or local law, for a moving traffic violation arising from the accident.

Drivers shall make themselves readily available for testing, absent the need for immediate...
medical attention.

No such driver shall use alcohol for eight (8) hours after the accident, or until after he/she undergoes a post-accident alcohol test, whichever occurs first.

If an alcohol test is not administered within two (2) hours or if a drug test is not administered within thirty-two (32) hours, the District shall prepare and maintain records explaining why the test was not conducted. Tests will not be given if not administered within eight (8) hours after the accident for alcohol or within thirty-two (32) hours for drugs.

Tests conducted by authorized federal, state, or local officials will fulfill post-accident testing requirements, provided they conform to applicable legal requirements and are obtained by the District. Breath tests will validate only the alcohol test and cannot be used to fulfill controlled substance testing obligations.

Random Tests

Tests shall be conducted on a random basis at unannounced times throughout the year. Tests for alcohol shall be conducted just before, during, or just after the performance of safety-sensitive functions. The number of random alcohol tests annually must equal twenty-five percent (25%) of the average number of driver positions. The number of random drug tests annually must equal fifty percent (50%) of the average number of driver positions. Drivers shall be selected by a scientifically valid random process, and each driver shall have an equal chance of being tested each time selections are made.

Reasonable Suspicion Tests

Tests shall be conducted when a supervisor or District official trained in accordance with law has reasonable suspicion that the driver has violated the District’s alcohol or drug prohibitions. This reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the driver’s appearance, behavior, speech, or body odors. The observations may include indications of the chronic and withdrawal effects of controlled substances.

Alcohol tests are authorized for reasonable suspicion only if the required observations are made during, just before, or just after the period of the work day when the driver must comply with alcohol prohibitions. An alcohol test may not be conducted by the person who determines that reasonable suspicion exists to conduct such a test. If an alcohol test is not administered within two (2) hours of a determination of reasonable suspicion, the District shall prepare and maintain a record explaining why this was not done. Attempts to conduct alcohol tests shall terminate after eight (8) hours.

A supervisor or District official who makes observations leading to a controlled substance reasonable suspicion test shall make a written record of his/her observations within twenty-four
(24) hours of the observed behavior or before the results of the drug test are released, whichever is earlier.

Enforcement

Any driver who refuses to submit to a post-accident, random, reasonable suspicion, or follow-up test shall not perform or continue to perform safety-sensitive functions.

Drivers who test positive for alcohol or drugs shall be subject to disciplinary action up to and including termination of employment.

A driver who violates District prohibitions related to drugs and alcohol shall receive from the District the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs available to evaluate and resolve drug and alcohol-related problems. The employee shall be evaluated by a substance abuse professional who shall determine what help, if any, the driver needs in resolving such a problem. Any substance abuse professional who determines that a driver needs assistance shall not refer the driver to a private practice, person, or organization in which he/she has a financial interest, except under circumstances allowed by law.

An employee identified as needing help in resolving a drug or alcohol problem shall be evaluated by a substance abuse professional to determine that he/she has properly followed the prescribed rehabilitation program and shall be subject to unannounced follow-up tests after returning to duty.

Return-to-Duty Tests

A drug or alcohol test shall be conducted when a driver who has violated the District’s drug or alcohol prohibition returns to performing safety-sensitive duties.

Employees whose conduct involved drugs cannot return to duty in a safety-sensitive function until the return-to-duty drug test produces a verified negative result.

Employees whose conduct involved alcohol cannot return to duty in a safety-sensitive function until the return-to-duty alcohol test produces a verified result that meets federal and District standards.

Follow-Up Tests

A driver who violates the District’s drug or alcohol prohibition and is subsequently identified by a substance abuse professional as needing assistance in resolving a drug or alcohol problem shall be subject to unannounced follow-up testing as directed by the substance abuse professional in accordance with law. Follow-up alcohol testing shall be conducted just before, during, or just
after the time when the driver is performing safety-sensitive functions.

Records

Employee drug and alcohol test results and records shall be maintained under strict confidentiality and released only in accordance with law. Upon written request, a driver shall receive copies of any records pertaining to his/her use of drugs or alcohol, including any records pertaining to his/her drug or alcohol tests. Records shall be made available to a subsequent employer or other identified persons only as expressly requested in writing by the driver.

Notifications

Each driver shall receive educational materials that explain the requirements of the Code of Federal Regulations, Title 49, Part 382, together with a copy of the District’s policy and regulations for meeting these requirements. Representatives of employee organizations shall be notified of the availability of this information. The information shall identify:

2. The categories of drivers who are subject to the Code of Federal Regulations, Title 49, Part 382;

7. The requirement that a driver submit to drug and alcohol tests administered in accordance with Part 382;
8. An explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences;
9. The consequences for drivers found to have violated the drug and alcohol prohibitions of Part 382, including the requirement that the driver be removed immediately from safety-sensitive functions and the procedures for referral, evaluation, and treatment;

10. The consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04; and

11. Information concerning the effects of drugs and alcohol on an individual’s health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver’s or a coworker’s); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to an employee assistance program, and/or referral to management.

Drivers shall also receive information about legal requirements, District policies, and disciplinary consequences related to the use of alcohol and drugs.

Each driver shall sign a statement certifying that he/she has received a copy of the above materials.

Before any driver operates a commercial motor vehicle, the District shall provide him/her with post-accident procedures that will make it possible to comply with post-accident testing requirements.

Before drug and alcohol tests are performed, the District shall inform drivers that the tests are given pursuant to the Code of Federal Regulations, Title 49, Part 382. This notice shall be provided only after the compliance date specified in law.

The District shall notify a driver of the results of a pre-employment drug test if the driver requests such results within sixty (60) calendar days of being notified of the disposition of his/her employment application.

The District shall notify a driver of the results of random, reasonable suspicion, and post-accident drug tests if the test results are verified positive. The District shall also tell the driver which controlled substance(s) were verified as positive.

Drivers shall inform their supervisors if at any time they are using a controlled substance which their physician has prescribed for therapeutic purposes. Such a substance may be used only if the physician has advised the driver that it will not adversely affect his/her ability to safely operate a commercial motor vehicle.

The member must file a written application with the PERS Board to purchase all or a portion of the employment for service credit and membership service. The application must include salary information certified by the member’s employer or former employer.

The District has the option to pay, or not to pay, the employer’s contributions due on previous service and the option to pay, or not to pay, the outstanding interest due on the employer’s contributions for the previous service.

Breastfeeding Workplace

Recognizing that breastfeeding is a normal part of daily life for mothers and infants and that Montana law authorizes mothers to breastfeed their infants where mothers and children are authorized to be, the District will support women who want to continue breastfeeding after returning from maternity leave.

The District shall provide reasonable unpaid break time each day to an employee who needs to express milk for the employee’s child, if breaks are currently allowed. If breaks are not currently allowed, the District shall consider each case and make accommodations as possible. The District is not required to provide break time if to do so would unduly disrupt the District’s operations. Supervisors are encouraged to consider flexible schedules when accommodating employees’ needs.

The District will make reasonable efforts to provide a room or other location, in close proximity to the work area, other than a toilet stall, where an employee can express the employee’s breast milk. The available space will include the provision for lighting and electricity for the pump apparatus. If possible, supervisors will ensure that employees are aware of these workplace accommodations prior to maternity leave.

Family Medical Leave

In accordance with provisions of the Family Medical Leave Act of 1993 (FMLA), a leave of
absence of up to twelve (12) weeks during a twelve-(12)-month period may be granted to an
eligible employee for the following reasons: 1) birth of a child; 2) placement of a child for
adoption or foster care; 3) a serious health condition which makes the employee unable to
perform functions of the job; 4) to care for the employee’s spouse, child, or parent with a serious
health condition; 5) because of a qualifying exigency (as the Secretary shall, by regulation,
determine) arising out of the fact that the spouse or a son, daughter, or parent of the employee is
on active duty (or has been notified of an impending call or order to active duty) in the Armed
Forces in support of a contingency operation.

Servicemember Family Leave

Subject to Section 103 of the FMLA of 1993, as amended, an eligible employee who is the
spouse, son, daughter, parent, or next of kin of a covered servicemember shall be entitled to a
total of twenty-six (26) workweeks of leave during a twelve-(12)-month period to care for the
servicemember. The leave described in this paragraph shall only be available during a single
twelve-(12)-month period.

Eligibility

An employee is eligible to take FMLA leave, if the employee has been employed for at least
twelve (12) months and has worked at least one thousand two hundred fifty (1,250) hours during
the twelve (12) months immediately prior to the date leave is requested, and there have been at
least fifty (50) District employees within seventy-five (75) miles for each working day during
twenty (20) or more workweeks in the current or preceding calendar year.

The Board has determined that the twelve-(12)-month period during which an employee may
take FMLA leave is twelve (12) months forward from the date of a particular employee’s first
FMLA leave.

Coordination of Paid Leave

Employees will (not) be required to use appropriate paid leave while on FMLA leave. Workers’
compensation absences will (not) be designated FMLA leave.

Medical Certification

The Superintendent has discretion to require medical certification to determine initial or
continued eligibility under FMLA as well as fitness for duty.

NOTE: This provision applies to school districts with fifty (50) or more employees. Those districts with less than fifty (50) employees must comply with notice and record retention but are not obligated to provide the leave as a benefit of any employee’s employment. Nothing in this policy guarantees approval for granting specific days as annual vacation leave in any instance. The District will judge each request for vacation in accordance with staffing needs.

Vacations

All classified employees, except those in a temporary status, serving more than six (6) months, are eligible to earn vacation leave credits retroactive to the date of employment. Leave credits may not be advanced nor may leave be taken retroactively. A seasonal employee’s accrued vacation leave credits may be carried over to the next season, if management has a continuing need for the employee, or paid out as a lump-sum payment to the employee when the season ends (generally in June). The employee may request a lump-sum payment at the end of each season.

Vacation is earned according to the following schedule:

RATE-EARNED SCHEDULE

<table>
<thead>
<tr>
<th>Years of Employment</th>
<th>Working Days Credit per Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 day - 10 years</td>
<td>15</td>
</tr>
<tr>
<td>10 - 15 years</td>
<td>18</td>
</tr>
<tr>
<td>15 - 20 years</td>
<td>21</td>
</tr>
<tr>
<td>20 years on</td>
<td>24</td>
</tr>
</tbody>
</table>

Time as an elected state, county, or city official, as a school teacher, or as an independent contractor, does not count toward the rate earned. For purposes of this paragraph, an employee of a district or the university system is eligible to have school district or university employment time count toward the rate-earned schedule, if that employee was eligible for annual leave in the position held with the school district or university system.

Maximum Accrual of Vacation Leave

All full-time and part-time employees serving in permanent and seasonal positions may accumulate two (2) times the total number of annual leave credits they are eligible to earn per year, according to the rate-earned schedule.

Sick Leave Bank

An employee may contribute accumulated vacation leave to the sick leave bank provided for in § 2-18-618, MCA. Donation of vacation leave credits to and use of vacation leave credits in the sick leave bank are governed by terms of the current collective bargaining agreement.

Annual Pay-Out

The District may, in its sole discretion and/or subject to the terms of a collective bargaining agreement.

agreement, provide cash compensation in June of each year for unused vacation leave in lieu of the accumulation of vacation leave.

Lump-Sum Payment Upon Termination

An employee who terminates employment for reasons not reflecting discredit on the employee shall be entitled, upon the date of such termination, to cash compensation for unused vacation leave, assuming that the employee has worked the qualifying periods set forth in § 2-18-611, MCA. The District shall not pay accumulated leaves to employees who have not worked the qualifying period. Vacation leave contributed to the sick leave bank is nonrefundable and is not eligible for cash compensation upon termination.

Compensatory Time and Overtime for Classified Employees

Non-exempt classified employees who work more than forty (40) hours in a given workweek may receive overtime pay of one and one-half (1½) times the normal hourly rate, unless the District and the employee agree to the provision of compensation time at a rate of one and one-half (1½) times all hours worked in excess of forty (40) hours in any workweek. The immediate supervisor must approve any overtime work of a classified employee prior to the time worked.

Under Montana law and the Federal Fair Labor Standards Act, a classified employee may not volunteer to work without pay in an assignment similar to the employee’s regular work.

A non-exempt employee who works overtime without authorization may be subject to disciplinary action.

Workers’ Compensation Benefits

All employees of the District are covered by workers’ compensation benefits. In the event of an industrial accident, an employee should:

1. Attend to first aid and/or medical treatment during an emergency;
2. Correct or report as needing correction a hazardous situation as soon as possible after an emergency situation is stabilized;
3. Report the injury or disabling condition, whether actual or possible, to the immediate supervisor, within forty-eight (48) hours, on the Employer’s First Report of Occupational Injury or Disease; and
4. Call or visit the administrative office after medical treatment, if needed, to complete the necessary report of accident and injury on an Occupational Injury or Disease form.

The administrator will notify the immediate supervisor of the report and will include the immediate supervisor as necessary in completing the required report.

An employee who is injured in an industrial accident may be eligible for workers’ compensation benefits. By law, employee use of sick leave must be coordinated with receipt of workers’ compensation benefits, on a case-by-case basis, in consultation with the Workers’ Compensation Division, Department of Labor and Industry.

The District will not automatically and simply defer to a report of industrial accident but will investigate as it deems appropriate to determine: (1) whether continuing hazardous conditions exist which need to be eliminated; and (2) whether in fact an accident attributable to the District working environment occurred as reported. The District may require the employee to authorize the employee’s physician to release pertinent medical information to the District or to a physician of the District’s choice, should an actual claim be filed against the Workers’ Compensation Division, which could result in additional fees being levied against the District.

Payment of Interest on Employer Contributions for Workers’ Compensation Time

An employee absent because of an employment-related injury entitling the employee to workers’ compensation payments may, upon the employee’s return to service, contribute to the retirement system an amount equal to the contributions that would have been made by the employee to the system on the basis of the employee’s compensation at the commencement of the employee’s absence plus regular interest accruing from one (1) year from the date after the employee returns to service to the date the employee contributes for the period of absence.

The District has the option to pay, or not pay, the interest on the employer’s contribution for the period of absence based on the salary as calculated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

It is the policy of this District to not pay the interest costs associated with the employer’s contribution.

Teachers’ Aides

Teachers’ aides, as defined in the appropriate job descriptions, are under the supervision of a principal and a teacher to whom the principal may have delegated responsibility for close direction. The nature of the work accomplished by aides will encompass a variety of tasks that may be inclusive of “limited instructional duties.”

Aides are employed by the District mainly to assist the teacher. An aide is an extension of the teacher, who legally has the direct control and supervision of the classroom or playground and responsibility for control and the welfare of the students.

It is the responsibility of each principal and teacher to provide adequate training for an aide. This training should take into account the unique situations in which an aide works and should be designed to cover the general contingencies that might be expected to pertain to that situation. During the first thirty (30) days of employment, the supervising teacher or administrator shall continue to assess the skills and ability of the aide to assist in reading, writing, and mathematics instruction.

The Superintendent shall develop and implement procedures for an annual evaluation of teachers’ aides. Evaluation results shall be a factor in future employment decisions.

Volunteers

The District recognizes the valuable contributions made to the total school program by members of the community who act as volunteers. By law, a volunteer is an individual who:

1. Has not entered into an express or implied compensation agreement with the District;
2. Is excluded from the definition of “employee” under appropriate state and federal statutes;
3. May be paid expenses, reasonable benefits, and/or nominal fees in some situations; and
4. Is not employed by the District in the same or similar capacity for which he/she is volunteering.

District employees who work with volunteers shall clearly explain duties for supervising children in school, on the playground, and on field trips. An appropriate degree of training and/or supervision of each volunteer shall be administered commensurate with the responsibility undertaken.

Volunteers who have unsupervised access to children are subject to the District’s policy mandating background checks.

Chaperones

The Superintendent may direct that appropriate screening processes be implemented to assure that adult chaperones are suitable and acceptable for accompanying students on field trips or excursions.

When serving as a chaperone for the District, the parent(s)/guardian(s) or other adult volunteers, including employees of the District, assigned to chaperone, shall not use tobacco products in the presence of students, nor shall they consume any alcoholic beverages or use any illicit drug during the duration of their assignment as a chaperone, including during the hours following the end of the day’s activities for students. The chaperone shall not encourage or allow students to participate in any activity that is in violation of District policy during the field trip or excursion, including during the hours following the end of the day’s activities. Chaperones shall be given a copy of these rules and sign a letter of understanding verifying they are aware of and agree to these District rules before being allowed to accompany students on any field trip or excursion.

Any chaperone found to have violated these rules shall not be used again as a chaperone for any District-sponsored field trips or excursions and may be excluded from using District-sponsored transportation for the remainder of the field trip or excursion and be responsible for their own
transportation back home. Employees found to have violated these rules may be subject to disciplinary action.

Employee use of Electronic Mail, Internet, and District Equipment

Electronic mail (“e-mail”) is an electronic message that is transmitted between two (2) or more computers or electronic terminals, whether or not the message is converted to hard-copy format after receipt, and whether or not the message is viewed upon transmission or stored for later retrieval. E-mail includes all electronic messages that are transmitted through a local, regional, or global computer network.

Because of the unique nature of e-mail/Internet, and because the District desires to protect its interest with regard to its electronic records, the following rules have been established to address e-mail/Internet usage by all employees:

The District e-mail and Internet systems are intended to be used for educational purposes only, and employees should have no expectation of privacy when using the e-mail or Internet systems for any purpose. Employees have no expectation of privacy in district owned technology equipment, including but not limited to district-owned desktops, laptops, memory storage devices, and cell phones.

Users of District e-mail and Internet systems are responsible for their appropriate use. All illegal and improper uses of the e-mail and Internet system, including but not limited to extreme network etiquette violations including mail that degrades or demeans other individuals, pornography, obscenity, harassment, solicitation, gambling, and violating copyright or intellectual property rights, are prohibited. Abuse of the e-mail or Internet systems through excessive personal use, or use in violation of the law or District policies, will result in disciplinary action, up to and including termination of employment.

All e-mail/Internet records are considered District records and should be transmitted only to individuals who have a need to receive them. If the sender of an e-mail or Internet message does not intend for the e-mail or Internet message to be forwarded, the sender should clearly mark the message “Do Not Forward.”

In order to keep District e-mail and Internet systems secure, users may not leave the terminal “signed on” when unattended and may not leave their password available in an obvious place near the terminal or share their password with anyone except the system administrator. The District reserves the right to bypass individual passwords at any time and to monitor the use of such systems by employees.

Additionally, District records and e-mail/Internet records are subject to disclosure to law enforcement or government officials or to other third parties through subpoena or other process. Consequently, the District retains the right to access stored records in cases where there is
reasonable cause to expect wrongdoing or misuse of the system and to review, store, and disclose all information sent over the District e-mail systems for any legally permissible reason, including but not limited to determining whether the information is a public record, whether it contains information discoverable in litigation, and to access District information in the employee's absence. Employee e-mail/Internet messages may not necessarily reflect the views of the District.

Except as provided herein, District employees are prohibited from accessing another employee’s e-mail without the expressed consent of the employee. All District employees should be aware that e-mail messages can be retrieved, even if they have been deleted, and that statements made in e-mail communications can form the basis of various legal claims against the individual author or the District.

E-mail sent or received by the District or the District’s employees may be considered a public record subject to public disclosure or inspection. All District e-mail and Internet communications may be monitored.

Acceptable Use of Electronic Networks and Internet Etiquette

All use of electronic networks shall be consistent with the district’s goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or appropriate legal action. The district technology coordinator shall act as the system administrator.

Terms and Conditions:

1. Acceptable use - Access to the district’s electronic networks must be:(a) for the purpose of education or research and consistent with the educational objectives of the district; or (b) for legitimate school business use.

2. Privileges - The use of the district’s electronic networks is a privilege, not a right, and inappropriate use may result in a cancellation of those privileges. The system administrator (and/or building principal) will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at anytime. His or her decision is final.

3. Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of those unacceptable uses are:

A. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any federal or state law;
B. Unauthorized downloading/installation of software or other media, including personal, regardless of whether it is copyrighted or de-virused;
C. Downloading copyrighted material;
D. Using the network for private financial or commercial gain;
E. Wastefully using resources, such as file space;
F. Hacking or gaining unauthorized access to files, resources, or entitles;
G. Invading the privacy of individuals, which includes the unauthorized disclosure, dissemination, and use of information of a personal nature about anyone;
H. Using another user’s account or password;
I. Posting material created by another, without his/her consent;
J. Posting anonymous messages;
K. Using the network for commercial or private advertising;
L. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, sexually oriented, threatening, racially offensive, harassing, or illegal material; and
M. Using the network while access privileges are suspended or revoked.
N. The network use of personal computers and software is prohibited.

4. Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited, to the following:
   A. Be polite. Do not become abusive in messages to others.
   B. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language.
   C. Do not reveal personal information, including the addresses or telephone numbers of students or colleagues.
   D. Recognize that school-issued electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
   E. Do not use the network in any way that would disrupt its use by other users.
   F. Consider all communications and information accessible via the network to be school property.
   G. No Warranties - The district makes no warranties of any kind, whether expressly or implied, for the service it is providing. The district will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, nondeliveries, missed deliveries, or service interruptions caused by its negligence or the user’s errors or omissions. Use of any information obtained via the Internet is at the user’s own risk. The district specifically denies any responsibility for the accuracy or quality of information obtained through its services.

5. Indemnification - The user agrees to indemnify the district for any losses, costs, or damages, including reasonable attorney fees, incurred by the district, relating to or arising out of any violation of these procedures.

6. Security - Network security is a high priority. If the user can identify a security problem on the network, the user must notify the system administrator or building principal. Do not demonstrate the problems to other users. Keep your account and password confidential. Do not use another individual’s account without written permission from that individual. Attempts to log on to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

7. Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data or another user, the Internet, or any network. This includes, but is not limited to, the uploading or creation of computer viruses, worms, Trojan horses, spyware, spam, etc.

8. Telephone Charges - The district assumes no responsibility for any unauthorized charges or fees, including telephone charges, long distance charges, per-minute surcharges, and/or equipment or line costs.
9. Copyright Web Publishing Rules - Copyright law and district policy prohibit the republishing of text or graphics found on the Web or in district Web sites or file servers, without explicit written permission/proper citation.

A. For each republication (on a Web site or file server) of a graphic or text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.

B. Staff engaged in producing Web pages must provide e-mail or hard copy permissions before the Web pages are published. Printed evidence of the status of “public domain” documents must be provided.

C. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. Webmaster displaying the material may not be considered a source of permission.

10. Use of Electronic Mail

A. The district’s electronic mail system, and its constituent software, hardware, and data files, are owned by the district. The district provides e-mail to aid staff and board members in fulfilling their educational responsibilities.

B. The district reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s users. However, the account user will be notified that such access or disclosure has occurred.

C. Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.

D. Electronic messages transmitted via the district’s Internet gateway carry with them identification. This ID identifies the author as being with the district. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the district. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to recipients.

E. Any message received from an unknown sender via the district email program should be forwarded to the system administrator. Downloading any file attached to any Internet based message is prohibited, unless the user is certain of that message’s authenticity and the nature of the file so transmitted.

11. Use of the district’s electronic mail system constitutes consent to these regulations.
Internet Safety:

A. Internet access is limited to only those “acceptable uses” as detailed in these procedures. Internet safety is enhanced if users do not engage in “unacceptable uses,” as detailed in these procedures, and otherwise follow these procedures.

B. Staff members shall supervise K-12 students using district electronic sources, to ensure that the students abide by Terms and Conditions for Internet access, as contained in these procedures. Such procedures are included in the Student Acceptable Use Policy which is signed by both student and his/her parent/guardian prior to access.

D. Each district computer with Internet access has a filtering device that attempts to block entry to visual depictions that are:(1) obscene;(2) pornographic;(3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and as determined by the Superintendent or designee.

E. The system administrator and building principals shall monitor student access as needed.

Electronic Resources and Social Networking

The Laurel School District recognizes that an effective public education system develops students who are globally aware, civically engaged, and capable of managing their lives and careers. The District also believes that students need to be proficient users of information, media, and technology to succeed in a digital world.

Public school employees are held to a high standard of behavior. The Montana Department of Education Professional Educators of Montana Code of Ethics requires District staff to maintain a professional relationship with each student, both in and outside the classroom. The District encourages all staff to read and become familiar with the Code of Ethics.

While acting within the roles and responsibilities as a Laurel School District employee, school district staff shall not socialize with students on social networking websites (during school or out-of-school) in a manner contrary to this policy. Staff are reminded that the same relationship, exchange, interaction, information, or behavior that would be unacceptable in a non-technological medium, is unacceptable when done through the use of technology. In fact, due to the vastly increased potential audience digital dissemination presents, extra caution must be exercised by staff to ensure they do not cross the line of acceptability.

Specifically, the following forms of technology based interactivity or connectivity are expressly forbidden when used in a manner not related to the delivery of educational services or district operations.

- Sharing personal landline or cell phone numbers with students for non-educational purposes;
- Text messaging students for non-educational purposes;
- Emailing students other than through and to school controlled and monitored accounts;
- Soliciting students as friends or contacts on social networking sites for non-educational purposes;
- Accepting the solicitation of students as friends or contacts on social networking sites for non-educational purposes;
- Utilization of social networking or messaging sites or applications that permit the broadcast of confidential student information;

Accessing social networking websites for individual use during instructional time or non-break service period is prohibited, unless asked to do so by administration. Except in an emergency situation, staff shall not access social networking sites using district equipment.

© MTSBA 2009
All school district employees who participate in social networking websites, shall not post any school district data, documents, photographs, logos, or other district owned or created information on any nondistrict website. Further, the posting of any private or confidential school district material on any website is strictly prohibited.

The Board directs the Superintendent or his/her designee to create strong electronic educational systems that support innovative teaching and learning, to provide appropriate staff development opportunities and to develop procedures to support this policy.

Staff should contact the administration if they would like to establish or utilized a District-related social media presence or student messaging application. Use of any site or application must not disclose staff members’ or students’ contact or personal information.

Payment of Wages Upon Termination

When a District employee separates from employment, wages owed will be paid on the next regular pay day for the pay period in which the employee left employment or within fifteen (15) days, whichever occurs first.

In the case of an employee discharged for allegations of theft connected to the employee’s work, the District may withhold the value of the theft, provided:

- The employee agrees in writing to the withholding; or
- The District files a report of the theft with law enforcement within seven (7) business days of separation.

If no charges are filed within thirty (30) days of the filing of a report with law enforcement, wages are due within a thirty-(30)-day period.

Note:

(1) Any school district offering a group “health care plan” for its employees is affected by HIPAA. School districts offering health plans that are self-insured will be entirely responsible for compliance with HIPAA, despite a third party administrator managing the plan. School districts may also be subject to HIPAA as a “health care provider” by either having a school-based health center or a school nurse. School-based health centers staffed and serviced by a hospital or local health department are responsible for complying with HIPAA if there is a sharing of records containing health information. For those districts providing the services of a school nurse, HIPAA regulations issued in 2000 commented that an “educational institution that employs a school nurse is subject to [the] regulations as a health care provider if the school nurse or the school engaged in a HIPAA transaction.” This transaction occurs when a school nurse submits a claim electronically.

(2) Any personally identifiable health information contained in an “education record” under FERPA is subject to FERPA, not HIPAA.

Background

Health Insurance Portability and Accountability Act of 1996 (HIPAA)

The District’s group health plan is a Covered Entity under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and its implementing regulations, the Standards for the Privacy of Individually Identifiable Information. In order to comply with HIPAA and its related regulations, the District has implemented the following HIPAA Privacy Policy:

The HIPAA Privacy Rule

HIPAA required the federal government to adopt national standards for electronic health care transactions. At the same time, Congress recognized that advances in electronic technology could erode the privacy of health information and determined there was a need for national privacy standards. As a result HIPAA included provisions which mandated the adoption of federal privacy standards for individually identifiable health information.

The standards found in the Privacy Rule are designed to protect and guard against the misuse of individually identifiable health information, with particular concern regarding employers using an employee’s (or dependent’s) health information from the group health plan to make adverse employment-related decisions. The Privacy Rule states that verbal, written, or electronic information that can be used to connect a person’s name or identity with medical, treatment, or health history information is Protected Health Information (PHI) under the HIPAA Privacy Rule.
Under the HIPAA Privacy Rule:

1. Individuals have a right to access and copy their health record to the extent allowed by HIPAA.

2. Individuals have the right to request an amendment to their health record. The plan may deny an individual’s request under certain circumstances specified in the HIPAA Privacy Rule.

3. Individuals have the right to an accounting of disclosures of their health record for reasons other than treatment, payment, or healthcare operations.

4. PHI, including health, medical, and claims records, can be used and disclosed without authorization for specific, limited purposes (treatment, payment, or operations of the group health plan). A valid authorization from the individual must be provided for use or disclosure for other than those purposes.

5. Safeguards are required to protect the privacy of health information.

6. Covered entities are required to issue a notice of privacy practices to their enrollees.

7. Violators are held accountable with civil and criminal penalties for improper use or disclosure of PHI.

Compliance

The District Clerk has been designated Privacy Officer. The Privacy Officer will oversee all ongoing activities related to the development, implementation, maintenance of, and adherence to the District’s policies and procedures covering the privacy of and access to patient health information in compliance with HIPAA, other applicable federal and state laws, and the District’s privacy practices.

As required for a Covered Entity under HIPAA, the plan has developed these internal privacy policies and procedures to assure that PHI is protected and that access to and use and disclosure of PHI are restricted in a manner consistent with HIPAA’s privacy protections. The policies and procedures recognize routine and recurring disclosures for treatment, payment, and healthcare operations and include physical, electronic, and procedural safeguards to protect PHI. The procedures include safeguards for sending PHI via mail or fax, receiving PHI for plan purposes, and workstation safeguards and procedures for securing and retaining PHI received by the plan. Plan participants are entitled to receive a copy of the plan’s policies and procedures upon request.

Designating a limited number of privacy contacts allows the District to control who is receiving
PHI from the contract claims payor for plan operations purposes. The contract claims payor will provide only the minimum PHI necessary for the stated purpose and, as required under the Privacy Rule, will provide PHI only to individuals with a legitimate need to know for plan operations purposes.

The District has distributed a notice of privacy practices to plan participants. The notice informs plan participants of their rights and the District’s privacy practices related to the use and disclosure of PHI. A copy of this notice may be obtained by contacting the Privacy Officer.

The District has reviewed how PHI is used and disclosed by the plan and has limited disclosure of that information to employees who have a legitimate need to know or possess the PHI for healthcare operations and functions. The District will make reasonable efforts to use de-identified information whenever possible in the operations of the plan and will only use the minimum PHI necessary for the stated purpose.

Some of the District’s employees need access to PHI in order to properly perform the functions of their jobs. The District has identified these employees and has given them training in the important aspects of the HIPAA Privacy Rule, the privacy policy, and procedures. New employees who will have access to PHI will receive training on the HIPAA Privacy Rule and related policies and procedures as soon as reasonably possible after they are employed. Employees who improperly use or disclose PHI or misuse their access to that information may be subject to discipline, as deemed appropriate.

In the event the group health plan must disclose PHI in the course of performing necessary plan operations functions or as required by law or a governmental agency, the District has developed a system to record those disclosures and requests for disclosures. An individual may request a list of disclosures of his or her PHI made by the plan for other than treatment or claims payment purposes. All requests for an accounting of PHI disclosures must be made in writing, and the plan may impose fees for the cost of production of this information. Requests will be responded to within sixty (60) days. If the plan is not able to provide the requested information within sixty (60) days, a written notice of delay will be sent to the requesting individual, with the reasons for the delay and an estimated time for response.

In order to comply with the new privacy regulations, the plan has implemented compliant communication procedures. Except for its use in legitimate healthcare operations, written permission will be required in order for the District to disclose PHI to or discuss it with a third party.

The HIPAA Privacy Rule prohibits the District from disclosing medical information without the patient’s written permission other than for treatment, payment, or healthcare operations purposes. An authorization signed by the patient and designating specified individuals to whom the District may disclose specified medical information must be on file, before the plan can discuss a patient’s medical information with a third party (such as a spouse, parent, group health plan...
representative, or other individual).

The District has taken the following steps to ensure PHI is safeguarded:

- The District has implemented policies and procedures to designate who has and who does not have authorized access to PHI.
- Documents containing PHI are kept in a restricted/locked area.
- Computer files with PHI are password protected and have firewalls making unauthorized access difficult.
- Copies of PHI will be destroyed when information is no longer needed, unless it is required by law to be retained for a specified period of time.
- The District will act promptly to take reasonable measures to mitigate any harmful effects known to the group health plan, due to a use or disclosure of PHI in violation of the plan’s policies, procedures, or requirements of the HIPAA Privacy Rule.
- The District will appropriately discipline employees who violate the District’s group health plan’s policies, procedures, or the HIPAA Privacy Rule, up to and including termination of employment if warranted by the circumstances.

The District has received signed assurances from the plan’s business associates that they understand the HIPAA Privacy Rule, applicable regulations, and the Privacy Policy and will safeguard PHI just as the plan would.

The contract claims payor and certain other entities outside the group health plan require access on occasion to PHI, if they are business associates of the group health plan and in that role need to use, exchange, or disclose PHI from the group health plan. The plan requires these entities to sign an agreement stating they understand HIPAA’s privacy requirements and will abide by those rules just as the group health plan does, to protect the PHI to which they have access. For example the plan engages a certified public accountant to audit the plan annually and to make sure payments are made in compliance with the Plan Document. In order for the CPA to complete an audit, the auditor reviews a sample of the claims for accuracy.

The District will ensure health information will not be used in making employment and compensation decisions. The HIPAA Privacy Rule and other applicable laws expressly prohibit an employer from making adverse employment decisions (demotions, terminations, etc.) based on health information received from the group health plan. To the extent possible, the District has separated the plan operations functions from the employment functions and has safeguards in place to prevent PHI from the plan from going to or being used by an employee’s supervisor, manager, or superior to make employment-related decisions.

Employee Use of Cellular Phones and Other Electronic Devices

The Board recognizes that the use of cellular telephones and other electronic communication devices may be appropriate to help ensure the safety and security of District property, students, staff, and others while on District property or engaged in District-sponsored activities. To this end, the Board authorizes the purchase and employee use of such devices, as deemed appropriate by the Superintendent.

District-owned cellular telephones and other devices will be used for authorized District business purposes. Personal use of such equipment may be prohibited except in emergency situations.

Use of cellular telephones and other electronic communication devices in violation of Board policies, administrative regulations, and/or state/federal laws will result in discipline up to and including termination of employment.

ADMINISTRATION

Goals

The administration of this school system is responsible, within the guidelines established by board policy, for the direction and coordination of student’s and staff in their efforts to reach educational goals adopted by the board. Administration must be based upon positive human relationships in order to serve as the keystone to the effective operation of the entire educational system. Without such a base, the school system will lack that uniting force which makes everyone in the organization feel important regardless of the tasks or duties which he or she is discharging.

The board expects the administration to specialize in:

- The processes of decision making and communication.
- Planning, organizing, implementing, and evaluating educational programs.
- The coordination of various centers of power within the school system and the community so as to enable people to do the things together for education that they might never be able to do separately.
- The demonstration of leadership.
- The development and maintenance of close working relationships and channels of communication within the school system and community.
- The prevention of misunderstandings and development of cooperation toward attaining the educational goals adopted by the board.

The Superintendent is authorized to develop administrative procedures to implement Board policy and to delegate duties and responsibilities; however, delegation of a power or duty does not relieve the Superintendent of responsibility for that which was delegated.

Qualifications and Appointment
The Superintendent will have the experience and skills necessary to work effectively with the Board, District employees, students, and the community. The Superintendent must be appropriately licensed and endorsed in accordance with state statutes and Board of Public Education rules; or considered appropriately assigned if the Superintendent is enrolled in an internship program as defined in ARM 10.55.602 and meets the requirements of ARM 10.55.607 and ARM 10.55.702.

When the Superintendent position becomes vacant, the Board will conduct a search to find the most capable person for the position. Qualified staff members who apply for the position will be considered for the vacancy.

Evaluation
The board shall establish evaluative criteria and shall be responsible for evaluating the performance of the superintendent as provided by law.

The superintendent may have the opportunity for a confidential conference with the board members each school year, the purpose of which shall be to aid the superintendent in his/her performance and to discuss goals and time line for goals. The board, on the basis of the evaluation, may with concurrence of the superintendent, terminate the existing contract and negotiate a separate contract for the superintendent's services for periods not to exceed three years.

In the event that a majority of the board wishes to terminate the superintendent's services at the expiration of the current contract, the superintendent shall be so notified in writing by February 1 of the final year of the contract.

Compensation and Benefits
The Board and the Superintendent will enter into a contract which conforms to this policy and state law. The contract will govern the employment relationship between the Board and the Superintendent.

INSTRUCTIONS ON USE OF APPRAISAL FORM

A. Each board member completes the appraisal form. In this phase of the evaluation process, each board member works independently without consulting any other board member to assess the performance of the superintendent. Written comments relating to any item are encouraged. Comments with specific reference to documents or events are particularly valuable for any unusual ratings.

B. Completed forms from individual board members are returned to a specified person by a certain date for tabulation. The board chair would be the logical person to receive the evaluations and compile the necessary information from these forms.

C. A copy of the composite evaluation is given to each board member.

D. The superintendent is given a copy of the board's composite evaluation at the time of the board's discussion with the superintendent. Both the board and the superintendent have the opportunity to fully discuss all aspects of the evaluation.

E. The meeting to review the evaluation of the professional competency of the superintendent can be held in a closed session of the board.

F. The superintendent is given the opportunity to respond to the evaluation in writing. The superintendent's written comments are reviewed by the school board members and become part of the superintendent's personnel file along with the written composite evaluation form.

G. Performance goals are established for the following year and incorporated into next year's evaluation process.

District Organization

The organization of the school district positions of employment for purposes of supervision, services, leadership, administration of school board policy, and all other operational tasks shall be on a "line and staff" basis. School district personnel occupying these positions of employment shall carry out their duties and responsibilities on the basis of the line and staff organizations.

The "line" portion of the organization is the vertical line of positions, starting from the top with the Board of Trustees and flowing down through to the teachers. This is the line of authority within the school district organization and it is the focal point of all operational functions.

The "staff" portion of the organization are those positions horizontally placed from the line organization. The primary function of the staff positions is to service and support the line organizations.

The purpose of the organization of the school district positions of employment on a line and staff organization basis is for the orderly and logical conduct of business. Under this administrative structure, the conduct of school district affairs may logically be carried out from the Board of Trustees to the teachers and students. This line of authority should be utilized to communicate actions of the school district and for the management of the school district. In addition to this, it should be used for the coordination of the organizational efforts, acts of leadership, and any other conduct of business.

The board will take into consideration administrative salaries across the state and in the inter-mountain region, initial placement salary, experience, education and continuing education. Guidelines found in administrative procedures will be used for initial placement. After initial placement, appropriate additional education, experience in district, and percentage raises will be applied to the administrators’ salary on a yearly basis.

The 2004-05 school year shall be the last year CEUs may be converted for quarter hour equivalency. The last day of earned CEU is June 30, 2005.

YEARLY RAISE:

ADMINISTRATION

Leadership Teams

The board recognizes the importance of maintaining an effective leadership team to strengthen the administration and educational programs of the district and to establish and improve communications, decision-making, conflict resolution, and other relationships among the members of the team. The leadership team provides a means whereby educational policies and administrative procedures that define the district’s programs and operations are arrived at through shared responsibility and authority.

While the leadership team concept places emphasis upon shared responsibility and authority, nothing in this policy is intended to limit the responsibility and authority of the board ultimately to make decisions.

The Superintendent shall prepare administrative guidelines for the operation to the leadership teams. Such guidelines shall provide that leadership team meetings will include representatives reflective of leadership staff, and on occasion, all such staff members. The leadership teams shall address themselves to appropriate concerns identified by the Superintendent and by any member of the team.

FINANCIAL MANAGEMENT

Goals

Because educational programs are dependent on adequate funding and the proper management of those funds, District goals can best be attained through efficient fiscal management. As trustee of local, state, and federal funds allocated for use in public education, the Board shall fulfill its responsibility to see that funds are used to achieve the intended purposes.

Because of resource limitations, fiscal concerns often overshadow the educational program. Recognizing this, the District must take specific action to ensure that education remains primary. This concept shall be incorporated into Board operations and into all aspects of District management and operation.

The Board seeks to achieve the following goals in the District’s fiscal management:

1. Engage in advance planning, with staff and community involvement, to develop budgets which will achieve the greatest educational returns in relation to dollars expended.

2. Establish levels of funding which shall provide superior education for District students.

3. Provide timely and appropriate information to staff who have fiscal responsibilities.

4. Establish efficient procedures in all areas of fiscal management.

Before presentation of a proposed budget for adoption, the Superintendent prepare, for the Board’s consideration, recommendations (with supporting documentation) designed to meet the needs of students, within the limits of anticipated revenues.

Budget Adjustments

When any budgeted fund line item is in excess of the amount required, the Board may transfer any of the excess appropriation to another line item(s) within the same fund.

The Board authorizes the administration to transfer line items within the same budgeted fund to adjust line item overdrafts or to meet special line item needs. Line item budget transfers to adjust line item overdrafts are at the discretion of the administrators.

Total budget expenditures for each fund as adopted in the final budget shall constitute the appropriations of the District for the ensuing fiscal year. The Board will be limited in the incurring of expenditures to the total of such appropriations.

With timely notice of a public meeting, trustees, by majority vote of those present, may declare by resolution that a budget amendment (in addition to the final budget) is necessary. Budget amendments are authorized for specified reasons by § 20-9-161, MCA. The resolution must state the facts constituting the need for the budget amendment, the funds affected by the budget amendment, the anticipated source of financing, the estimated amount of money required to finance the budget amendment, and the time and place the trustees will meet for the purpose of considering and adopting the budget amendment for the current school fiscal year.

The meeting to adopt a budget amendment will be open and will provide opportunity for any taxpayer to appear and be heard. Budget procedures will be consistent with statutory requirements. When applicable, the District will apply for state financial aid to supplement the amount to be collected from local taxes.

Purchasing

Authorization and Control

The Superintendent is authorized to direct expenditures and purchases within limits of the detailed annual budget for the school year. The Board must approve purchase of capital outlay items, when the aggregate total of a requisition exceeds Eighty Thousand Dollars ($80,000) except the Superintendent shall have the authority to make capital outlay purchases without advance approval when necessary to protect the interests of the District or the health and safety of staff or students. The Superintendent will establish requisition and purchase order procedures to control and maintain proper accounting of expenditure of funds. Staff who obligate the District without proper authorization may be held personally responsible for payment of such obligations.

Bids and Contracts

Whenever it is in the interest of the District, the District will execute a contract for any building furnishing, repairing, purchasing or other work for the benefit of the District. If the sum of the contract or work exceeds Eighty Thousand Dollars ($80,000), the District will call for formal bids by issuing public notice as specified in statute. Specifications will be prepared and made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the trustees may reject any or all bids as per § 18-4-307, MCA as stated below in the legal reference. The Board, in making a determination as to which vendor is the lowest responsible bidder, will take into consideration not only the amount of each bid, but will also consider the skill, ability, and integrity of a vendor to do faithful, conscientious work and to promptly fulfill the contract according to its letter and spirit. Bidding requirements do not apply to a registered professional engineer, surveyor, real estate appraiser, or registered architect; a physician, dentist, pharmacist, or other medical, dental, or health care provider; an attorney; a consulting actuary; a private investigator licensed by any jurisdiction; a claims adjuster; or an accountant licensed under Title 37, Chapter 50.

Advertisement for bid must be made once each week for two (2) consecutive weeks, and a second (2nd) publication must be made not less than five (5) nor more than twelve (12) days before consideration of bids.

The Superintendent will establish bidding and contract-awarding procedures. Bid procedures will be waived only as specified in statute. Any contract required to be let for bid shall contain language to the following effect:

In making a determination as to which vendor is the lowest responsible bidder, if any, the District will take into consideration not only the pecuniary ability of a vendor to perform the contract, but will also consider the skill, ability, and
integrity of a vendor to do faithful, conscientious work and promptly fulfill the contract according to its letter and spirit. References must be provided and will be contacted. The District further reserves the right to contact others with whom a vendor has conducted business, in addition to those listed as references, in determining whether a vendor is the lowest responsible bidder. Additional information and/or inquiries into a vendor’s skill, ability, and integrity are set forth in the bid specifications.

Cooperative Purchasing

The District may enter into cooperative purchasing contracts with one or more districts for procurement of supplies or services. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of 20-9-204(3), MCA if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor’s supplies and services on the cooperative purchasing group’s master list.

Vendor Authorization/Tax Exempt Financial Products

Laurel Public Schools allows employees to contribute to certain tax deferred financial products authorized by Internal Revenue Service (IRS) codes. A wide variety of products is available in the marketplace. The district does not wish to constrain the choice of employees, nor will the district endorse a product line in any tax deferred or tax exempt financial area.

However, to assure efficiency in business operations, certain criteria have been designed and will be uniformly applied.

1. The district will make no payroll deductions to any plan until and unless the vendor of that plan presents affidavits from three (3) district employees who expressly wish to have payroll deductions made on their behalf. Only ten vendors will be allowed.

2. It is incumbent upon the vendor of any such plan to maintain a minimum enrollment of three (3) district employees. Ninety days after a vendor has fallen below the minimum of three (3) required district participants in the plan, the district may, by serving notice to the employees and the vendor, terminate any further payroll deductions to that plan.

3. In the event of the loss of the availability of a financial product, the district will allow an employee who wishes to choose from any of the other qualified plans.

4. The district is aware that some plans are represented by more than one local agent. Irrespective, the district will make only one contribution monthly to the parent financial plan. Advertising in Schools/Revenue Enhancement

Revenue enhancement through a variety of District-wide and District-approved marketing activities, including but not limited to advertising, corporate sponsorship, signage in or on District facilities, is a Board-approved venture. The Board may approve such opportunities subject to certain restrictions in keeping with the community standards of good taste. Advertising will model and promote positive values for District students through proactive educational messages and not be simply traditional advertising of a product. Preferred advertising includes messages encouraging student achievement and establishment of high standards of personal conduct.

All sponsorship contracts will allow the District to terminate the contract on at least an annual basis, if it is determined that it will have an adverse impact on implementation of curriculum or the educational experience of students.

The revenue derived should:

1. Enhance student achievement;
2. Assist in maintenance of existing District athletic and activity programs; and
3. Provide scholarships for students participating in athletic, academic, and activity programs, who demonstrate financial need and merit.

Appropriate opportunities for marketing activities include but are not limited to:

1. Fixed signage.
2. Banners.
3. District-level publications.
4. Television and radio broadcasts.
5. Athletic facilities, including stadiums, high school baseball fields, and high school gymnasiums.
6. District-level projects.
7. Expanded usage of facilities beyond traditional uses (i.e., concerts, rallies, etc.).
8. The interior and exterior of a limited number of District buses, if the advertising is associated with student art selected by the District. The only advertising information allowed will note sponsorship of the student art by the participant. Maintenance for these buses will include but not exceed normal maintenance costs.
9. Individual school publications (when not in conflict with current contracts).

Advertising will not be allowed in classrooms, other than corporate-sponsored curriculum materials approved subject to Board policy.

The following restrictions will be in place when seeking revenue enhancement. Revenue
enhancement activities will not:

1. Promote hostility, disorder, or violence;
2. Attack ethnic, racial, or religious groups;
3. Discriminate, demean, harass, or ridicule any person or group of persons on the basis of gender;
4. Be libelous;
5. Inhibit the functioning of the school and/or District;
6. Promote, favor, or oppose the candidacy of any candidate for election, adoption of any bond/budget issues, or any public question submitted at any general, county, municipal, or school election;
7. Be obscene or pornographic, as defined by prevailing community standards throughout the District;
8. Promote the use of drugs, alcohol, tobacco, firearms, or certain products that create community concerns;
9. Promote any religious or political organization;
10. Use any District or school logo without prior approval.

Fund Balances

[Note: The provisions of this policy include the provisions of Statement No. 54 of the Governmental Accounting Standards Board (GASB).]

I. PURPOSE

The fund balance policy establishes a framework for the management of all excess funds managed by the Laurel School District. The policy is in accordance with GASB Statement 54; management of fund balance. It also provides guidance and direction for elected and appointed officials as well as staff in the use of excess funds at year-end.

II. SCOPE

This fund balance policy applies to all funds in the custody of the School District Business Manager/Clerk of the Laurel School District, Laurel, Montana. These funds are accounted for in the District's annual audited financial reports and include, but are not limited to, the following:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Enterprise Funds
- Any new funds created by the District, unless specifically exempted by the governing body; in accordance with state law or GASB pronouncements.

III. CLASSIFICATION OF FUND BALANCES

The school district shall classify its fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned, and unassigned.

IV. DEFINITIONS

A. Fund balance—means the arithmetic difference between the assets and liabilities reported in a school district fund.

B. Committed fund balance—amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest-level action to remove or change the constraint

© MTSBA 2011
C. Assigned fund balance—amounts a school district intends to use for a specific purpose; intent can be expressed by the District or by an official to which the Board of Trustees delegates the authority

D. Nonspendable fund balance—amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund)

E. Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation

F. Unassigned fund balance—amounts that are available for any purpose; these amounts are reported only in the general fund.

V. MINIMUM FUND BALANCE

The school district will strive to maintain a minimum unassigned general fund balance of 10 percent of the annual budget.

VI. ORDER OF RESOURCE USE

If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

VII. COMMITTING FUND BALANCE

A majority vote of the school board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

VIII. ASSIGNING FUND BALANCE

The school board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: Superintendent and Business Manager. Assignments so made shall be reported to the school board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the school board.
An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year’s budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

**IV. REVIEW**

The school board will conduct, at a minimum, an annual review of the sufficiency of the minimum unassigned general fund balance level.

Independent Investment Accounts

The Board may establish independent investment accounts separate and apart from those funds maintained by the county treasurer. The Board may transfer cash into an independent investment account from any budgeted or non-budgeted funds. A separate account shall be established for each fund from which transfers are made. The principal and any interest earned must be reallocated to the fund from which the deposit was originally made.

The District may either:

1. Establish and use the account as a non-spending account, returning sufficient funds to the county treasurer in time to pay all claims against the applicable fund; or

2. Establish a subsidiary checking account and make expenditures from the investment account, provided all transactions are accounted for and reported, as required by applicable accounting principles. If the District desires to establish a subsidiary checking account for purposes of paying for expenditures directly from an investment account, the District must enter into a written agreement with the county treasurer, in accordance with § 20-9-235, MCA.

NONINSTRUCTIONAL OPERATIONS

Goals

In order for students to obtain the maximum benefits from their educational program, a complex set of support services must be provided by the District. These services are essential to the success of the District, and the staff that provides them is an integral part of the educational enterprise. Because resources are always scarce, all assets of District operations, including noninstructional support services, shall be carefully managed in order to obtain maximum efficiency and economy. To that end, the goal of the District is to seek new ways of supporting the instructional program, which shall maximize the resources directly available for students’ learning programs.

Transportation

The District may provide transportation to and from school for a student who:

1. Resides three (3) or more miles, over the shortest practical route, from the nearest operating public elementary or public high school;

2. Is a student with a disability, whose IEP identifies transportation as a related service; or

3. Has another compelling and legally sufficient reason to receive transportation services.

The District may elect to reimburse the parent or guardian of a student for individually transporting any eligible student.

The District may provide transportation by school bus or other vehicle or through individual transportation such as paying the parent or guardian for individually transporting the student. The Board may pay board and room reimbursements, provide supervised correspondence study, or provide supervised home study. The Board may authorize children attending an approved private school to ride a school bus, provided that space is available and a fee to cover the per-seat cost for such transportation is collected. The District may transport and charge for an ineligible public school student, provided the parent or guardian pays a proportionate share of transportation services. Fees collected for transportation of ineligible students shall be deposited in the transportation fund. Transportation issues that cannot be resolved by the trustees may be appealed to the county transportation committee.

Homeless students shall be transported in accordance with the McKinney Homeless Assistance Act and state law.

In-Town Busing

In-town busing is defined as the busing of students within three (3) miles of their school. In-town busing is a privilege the District can discontinue at any time. The Superintendent will establish guidelines under which a student may request in-town busing.

Children in Foster Care

The building administrator will appoint a Point of Contact (POC) to coordinate activities relating to the District’s provisions of services to children placed in foster care, including transportation services. The Superintendent, or designee, will inform the Department of Health and Human Services who is the POC for the District. The District will collaborate with the Department of Health and Human Services when transportation is required to maintain children placed in foster care in a school of origin outside their usual attendance area or District when in the best interest of the student. Under the supervision of the Superintendent/designee, the POC will invite appropriate District officials, the Department of Health and
Human Services POC, and officials from other districts to consider how such transportation is to be arranged and funded in a cost-effective manner.

If there are additional costs to be incurred in providing transportation to maintain a student in the school of origin, the District will provide transportation to such school if:
- The Department agrees to reimburse the District for the cost of such transportation;
- The District agrees to pay for the cost of such transportation; or
- The District and the Department agree to share the cost of such transportation.

Definitions

“Foster Care” means 24-hour care for children placed away from their parents, guardians, or person exercising custodial control or supervision and for whom the Department has placement care and responsibility.

“School of origin” means the school in which a child is enrolled at the time of placement in foster care.

While “Best Interest” is not defined in ESSA, that determination shall take into account all relevant factors, including consideration of the appropriateness of the current educational setting, and the proximity to the school in which the child is enrolled at the time of foster care placement.

The Board of Trustees understands the importance of safety when transporting students. The Board also understands that having safe, well maintained, efficient buses in the fleet is important for the safety of the students and driver.

There comes a time when the replacement of a bus is necessary for the safety of all involved. Therefore, the Board of Trustees will use the Bus Depreciation Schedule, as a guide, when determining the time for bus replacements.

Bus Routes and Schedules

The Transportation Director shall be responsible for scheduling bus transportation, including determination of routes and bus stops. Such routes are subject to approval of the county transportation committee. The purpose of bus scheduling and routing is to achieve maximum service with a minimum fleet of buses consistent with providing safe and reasonably equal service to all bus students.

In order to operate the transportation system as safely and efficiently as possible, the following factors shall be considered in establishing bus routes:

1. A school bus route shall be established with due consideration of the sum total of local conditions affecting the safety, economic soundness, and convenience of its operation, including road conditions, condition of bridges and culverts, hazardous crossings, presence of railroad tracks and arterial highways, extreme weather conditions and variations, length of route, number of families and children to be serviced, availability of turnaround points, capacity of bus, and related factors.

2. The District may extend a bus route across another transportation service area, if it is necessary in order to provide transportation to students in the District’s own transportation service area. A district may not transport students from outside its transportation service area.

3. No school child attending an elementary school shall be required to ride the school bus under average road conditions more than one (1) hour without consent of the child’s parent or guardian.

4. School bus drivers are encouraged to make recommendations in regard to establishing or changing routes.

5. Parents should be referred to the Superintendent for any request of change in routes, stops, or schedules.

The Board reserves the right to change, alter, add, or delete any route at any time such changes are deemed in the best interest of the District, subject to approval by the county transportation committee.

Bus Stops

Buses should stop only at designated places approved by school authorities. Exceptions should be made only in cases of emergency and inclement weather conditions.
Bus stops shall be chosen with safety in mind. Points shall be selected where motorists
approaching from either direction will have a clear view of the bus for a distance of at least three
hundred (300) to five hundred (500) feet.

School loading and unloading zones are to be established and marked to provide safe and orderly
loading and unloading of students. The principal of each building is responsible for the conduct
of students waiting in loading zones.

Delay in Schedule

The driver is to notify the administration of a delay in schedule. The administration will notify
parents on routes and radio stations, if necessary.

Responsibilities - Students

Students must realize that safety is based on group conduct. Talk should be in conversational
tones at all times. There should be no shouting or loud talking which may distract the bus driver.
There should be no shouting at passersby. Students should instantly obey any command or
suggestions from the driver and/or his/her assistants.

Responsibilities - Parents

The interest and assistance of each parent is a valued asset to the transportation program.
Parents’ efforts toward making each bus trip a safe and pleasant experience are requested and
appreciated. The following suggestions are only three of the many ways parents can assist:

1. Ensure that students are at the bus stop in sufficient time to efficiently meet the bus.
2. Properly prepare children for weather conditions.
3. Encourage school bus safety at home. Caution children regarding safe behavior and
   conduct while riding the school bus.

Safety

The Superintendent will develop written rules establishing procedures for bus safety and
emergency exit drills and for student conduct while riding buses.

If the bus and driver are present, the driver is responsible for the safety of his/her passengers,
particularly for those who must cross a roadway prior to loading or after leaving the bus. Except
in emergencies, no bus driver shall order or allow a student to board or disembark at other than
his/her assigned stop unless so authorized by the Superintendent. In order to assure the safety of
all, the bus driver may hold students accountable for their conduct during the course of
transportation and may recommend corrective action against a student. Bus drivers are expressly
prohibited from using corporal punishment.
The bus driver is responsible for the use of the warning and stop signaling systems and the
consequent protection of his/her passengers. Failure to use the system constitutes negligence on
the part of the driver.

Inclement Weather

The Board recognizes the unpredictability and resulting dangers associated with weather in
Montana. In the interest of safety and operational efficiency, the Superintendent is empowered
to make decisions as to emergency operation of buses, cancellation of bus routes, and closing of
school, in accordance with his or her best judgment. The Board may develop guidelines in
cooperation with the Superintendent to assist the Superintendent in making such decisions.

**NOTE:** To receive full state/county reimbursement, budgets must have enough funds to cover
the costs of any changes to the route.

**NOTE:** The county transportation committee has authority to establish transportation service
areas, should circumstances and/or geography (demographics) warrant.

Transportation of Students With Disabilities

Transportation shall be provided as a related service, when a student with a disability requires special transportation in order to benefit from special education or to have access to an appropriate education placement. Transportation is defined as:

(a) Travel to and from school and between schools;

(b) Travel in and around school buildings or to those activities that are a regular part of the student’s instructional program;

(c) Specialized equipment (such as special or adapted buses, lifts, and ramps) if required to provide special transportation for a student with disabilities.

The Evaluation Team that develops the disabled student’s Individualized Education Program will determine, on an individual basis, when a student with a disability requires this related service. Such recommendations must be specified on the student’s IEP. Only those children with disabilities who qualify for transportation as a related service under the provisions of the IDEA shall be entitled to special transportation. All other children with disabilities in the District have access to the District’s regular transportation system under policies and procedures applicable to all District students. Utilizing the District’s regular transportation service shall be viewed as a “least restrictive environment.”

Mode of Transportation

One of the District’s education buses will be the preferred mode of transportation. Exceptions may be made in situations where buses are prohibited from entering certain subdivisions due to inadequate turning space, or when distance from school may seriously impact bus scheduling. In such situations other arrangements, such as an individual transportation contract, may be arranged with parents. Such voluntary agreement will stipulate in writing the terms of reimbursement.

School bus drivers must hold a valid Montana school bus certificate in order for a district to receive state reimbursement for that driver’s bus routes. Qualifications for bus drivers are prescribed by 20-10-103, MCA, and by the Board of Public Education in ARM 10.64.201. 3. When the school bus is parked.

A driver may not operate a school bus without a valid, current certificate.

A teacher, coach, or other certified staff member assigned to accompany students on a bus will have primary responsibility for behavior of students in his or her charge. The bus driver has final authority and responsibility for the bus. The Superintendent will establish written procedures for bus drivers.

Meal Charge Policy

Note: For the purpose of this policy, parent includes guardian, caretaker relative, and any adult responsible for the care of the child.

The goal of the Laurel School District is to provide students with healthy meals each day. However, unpaid charges place a financial burden on our Food Services Department. The purpose of this policy is to insure compliance with federal reporting requirements for the USDA Child Nutrition Program, and to provide oversight and accountability for the collection of outstanding student meal balances.

The intent of this policy is to establish uniform meal account procedures throughout the Laurel School District. The provisions of this policy pertain to regular priced school breakfast and lunch meals only. While the USDA Child Nutrition Program does not require that a student who pays for regular priced meals be served a meal without payment, the Laurel Public Schools provides this policy as a courtesy to those students in the event that they forget or lose their lunch money, or have an unpaid balance in their lunch account.

Parents are responsible for meal payment to the food service program. Notices of low or deficit balances will be sent to parents at regular intervals during the school year. Lunch account monitoring is the responsibility of the parent and child.

Elementary Students: K-8

After an account has a negative balance of $25.00, a phone call will be made to the parent to inform them that they are responsible for providing their child with a meal. No further meals will be served to the child until there is a positive balance in the meal account. The food service personnel and principal will monitor the student at meal periods to ensure the student is receiving a breakfast/lunch provided by the parent.

Elementary student(s) are required to have a separate lunch account from high school siblings.

If a student is without meal money on a consistent basis, the administration will investigate the situation more closely and take further action as needed. If financial hardship exists, parents and families are encouraged to apply for free or reduced price lunches for their child.
**High School Students: 9-12**

Students in grades 9-12 will not be allowed to charge meals. The food service personnel and principal will monitor the student at meal periods to ensure the student is receiving a breakfast/lunch provided by the parent.

High school student(s) are required to have a separate lunch account from elementary siblings.

If a student is without meal money on a consistent basis, the administration will investigate the situation more closely and take further action as needed. If financial hardship exists, parents and families are encouraged to apply for free or reduced price lunches for their child.

All school cafeterias possess computerized point of sale/cash register systems that maintain records of all monies deposited and spent for each student. Parents can monitor these records by setting up an account in the Infinite Campus Parent Portal. This can be found on the district website at [www.laurel.k12.mt.us](http://www.laurel.k12.mt.us). The building secretary can also assist with setting up an account or answering questions on the account.

Parents can pay for meals in advance through the Infinite Campus Parent Portal or with a check payable to Laurel School District. Funds should be maintained in accounts to minimize the possibility that a child may be without meal money on any given day. Any remaining funds for a particular student will be carried over to the next school year.

Parents can request a refund of any money remaining in the account of withdrawn or graduating students. The request for refund must be in writing. An e-mail request is also acceptable. Students who are graduating at the end of the year will be given the option to transfer to a sibling’s account with a written request.

Unclaimed Funds must be requested within one school year. Unclaimed funds will then become the property of the Laurel School District Food Service Program.

Balances Owed will be sent to collections per Federal guidelines.

**Adult Meals:** Adults are not allowed to charge meals or A la Carte purchases, as per USDA policy regarding school food service use of Federal NSLP funds.

  - The District may enter into a cooperative purchasing contract for procurement of supplies with one or more districts or a Cooperative Services Program. For the purpose of this policy, “public school building or public school property” means:

- Public land, fixtures, buildings, or other property owned or occupied by an institution for the teaching of minor children, that is established and maintained under the laws of the state of Montana at public expense; and

- Includes playgrounds, school steps, parking lots, administration buildings, athletic facilities, gymnasiums, locker rooms, and school vehicles.

Drills must be held at different hours of the day or evening to avoid distinction between drills and actual disasters. A record will be kept of all fire drills.

The trustees shall review the school safety or emergency operations plan periodically and update the plan as determined necessary by the trustees based on changing circumstances pertaining to school safety. Once the trustees have made the certification to the office of public instruction, the trustees may transfer funds pursuant to Section 2, 20-1-401, MCA to make improvements to school safety and security.

The District seeks to maintain and operate facilities in a safe and healthful condition. The facilities director, in cooperation with principals, fire chief, and county sanitarian, will periodically inspect plant and facilities. The facilities director will develop a program to maintain the District physical plant by way of a continuous program of repair, maintenance, and reconditioning. Budget recommendations will be made each year to meet these needs and any such needs arising from an emergency.

The facilities director will formulate and implement energy conservation measures. Principals and staff are encouraged to exercise other cost-saving procedures in order to conserve District resources in their buildings.

Lead Renovation

In accordance with the requirements of the Environmental Protection Agency (EPA), the Laurel School District has this Lead Renovation Policy that is designed to recognize, control and mitigate lead hazards at all District owned facilities and grounds.

The Lead-based paint renovation, repair and painting program (RRP) is a federal regulatory program affecting contractors, property managers, and others who disturb painted surfaces. It applies to child-occupied facilities such as schools and day-care centers built prior to 1978.

“Renovation” is broadly defined as any activity that disturbs painted surfaces and includes most repair, remodeling, and maintenance activities, including window replacement.

The District has implemented this policy to identify, inspect, control, maintain and improve the handling of lead related issues across the district facilities and grounds. In an effort to reduce potential hazards, the District through training has put together maintenance programs that will not only better protect the environment, but the students and employees of the District as well.

The District’s Lead Renovation Policy shall apply not only to employees of the maintenance department but to outside contractors as well. No outside painting contractor will be permitted to work for the District after April 22, 2010 unless they can show proof of training relative to lead renovation or maintenance from an accredited training institution.

Information Distribution Requirements

No more than 60 days before beginning renovation activities in any school facility of the District, the company performing the renovation must:

1. Provide the Superintendent with EPA pamphlet titled Renovate Right: Important Lead Hazard Information for Families, Child Care Providers and Schools.

2. Obtain, from the District, a written acknowledgement that the District has received the pamphlet.

3. Provide the parents and guardians of children using the facility with the pamphlet and information describing the general nature and locations of the renovation and the anticipated completion date by complying with one of the following:
   (i) Mail or hand-deliver the pamphlet and the renovation information to each parent or guardian of a child using the child-occupied facility.
   (ii) While the renovation is ongoing, post informational signs describing the general nature and locations of the renovation and the anticipated completion date. These signs must be posted in areas where they can be seen by the parents or guardians of the children frequenting the child-occupied facility. The signs must be accompanied by a posted copy of the pamphlet or information on how interested parents or guardians can review a copy of the pamphlet or obtain a copy from the renovation firm at no cost to the parents or guardians.

4. The renovation company must prepare, sign, and date a statement describing the steps
performed to notify all parents and guardians of the intended renovation activities and to
provide the pamphlet.

Recordkeeping Requirements *

All documents must be retained for three (3) years following the completion of a renovation.
- Records that must be retained include:
  - Reports certifying that lead-based paint is not present.
  - Records relating to the distribution of the lead pamphlet.
  - Documentation of compliance with the requirements of the Lead-Based Paint
    Renovation, Repair, and Painting Program.

*Note: The MTSBA recommends that districts follow the same record retention schedule as they
do for Asbestos abatement (forever).

Service Animals

For the purposes of this policy, state law defines service animals as a dog or other animal individually trained to do work or perform tasks for the benefit of an individual with a disability. Federal law definition of a disability includes a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition.

The District shall permit the use of a miniature horse by an individual with a disability, according to the assessments factors as outlined in Policy 8425P, if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability.

The Laurel School District will permit the use of service animals by an individual with a disability according to federal regulations. The work or tasks performed by a service animal must be directly related to the handler’s disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

The District may ask an individual with a disability to remove a service animal from the premises if:

- The animal is out of control and the animal’s handler does not take effective action to control it;
- The animal is not housebroken

The District is not responsible for the care or supervision of the service animal.

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of the District’s facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

Service Animal Allowance Procedure

The following procedures have been developed which will help guide the administration when a request for the use of a service animal has been presented by an individual with a disability.

Inquiries: The administration shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. The administration may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. The administration shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, the administration may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

Exclusions: The administration may ask the individual to remove the service animal from the premises if the animal is out of control and the handler does not take effective action to control it, or if the animal is not housebroken. If the administration properly excludes the service animal, it shall give the individual the opportunity to participate in the service, program, or activity without having the service animal on the premises.

Surcharges: The administration shall not ask or require the individual to pay a surcharge, even if people who are accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If the District normally charges individuals for the damage they cause, the individual may be charged for damage caused by his or her service animal.

Miniature horses assessment factors: In determining whether reasonable modifications can be made to allow a miniature horse into a specific facility, the District shall consider:

- The type, size, and weight of the miniature horse
- Whether the miniature horse is housebroken, and
- Whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

Records Management

The District will retain, in a manner consistent with applicable law and the state’s Rules for Disposition of Local Government Records, such records as are required by law or regulations to be created and/or maintained, and such other records as are related to students, school personnel, and the operations of the schools.

For the purpose of this policy, “records” are all documentary materials, regardless of media or characteristics, made or received and maintained by the school unit in transaction of its business. Records include email and other digital communications sent and received.

Records may be created, received, and stored in multiple formats, including but not limited to print, microfiche, audio and videotapes, and various digital forms (on hard drives, computer disks and CDs, servers, flash drives, etc.).

The Superintendent will be responsible for developing and implementing a records management program for the cataloging, maintenance, storage, retrieval, and disposition of school records. The Superintendent will also be responsible for developing guidelines to assist school employees in understanding the kinds of information that must be saved and those which can be disposed of or deleted. The Superintendent may delegate records-management responsibilities to other school personnel at his/her discretion to facilitate implementation of this policy.

All personnel records made or kept by an employer, including, but not necessarily limited to, application forms and other records related to hiring, promotion, demotion, transfer, layoff or termination, rates of pay or other terms of compensation and selection for training or apprenticeship, shall be preserved for 2 years from the date the record is made or from the date of the personnel action involved, whichever occurs later.

Student records must be permanently kept, and employment records must be kept for 10 years after termination.

Litigation Holds for Electronic Stored Information (ESI)

The School District will have an ESI Team. The ESI Team is a designated group of individuals who implement and monitor litigation holds, a directive not to destroy ESI that might be relevant to a pending or imminent legal proceeding. The ESI Team will include a designated school administrator, an attorney, and a member from the Technology Department. In the case of a litigation hold, the ESI Team shall direct employees and the Technology Department, as necessary, to suspend the normal retention procedure for all related records.
Inspections of ESI

Any requests for ESI records should be made in writing and will be reviewed by the Superintendent or designee, in consultation with an attorney if needed, and released in accordance with Montana public records law.

Delegated Authority

The Board delegates to the Superintendent or designees the right to implement and enforce additional procedures or directives relating to ESI retention consistent with this policy, as needed.

Automated External Defibrillators (AED)

The Board of Trustees of the Laurel School District recognizes that from time to time emergencies may arise that justify the use of an Automated External Defibrillator (AED). The Board has purchased one or more of these units for use by qualified personnel. The Board of Trustees approves the use of AED units, subject to the following conditions:

1. Establish a program for the use of an AED that includes a written plan that must specify:

   - The individuals who are authorized to operate the AED;
   - How AED use will be coordinated with an emergency medical service providing services in the area where the AED is located;
   - The medical supervision that will be provided;
   - The maintenance that will be performed on the AED;
   - Records that will be kept by the program;
   - Reports that will be made of AED use;
   - The name, location, and telephone number of a Medical Supervisor designated to provide medical supervision of the AED program; and
   - Other matters as specified by the Department of Public Health and Human Services;

2. Adhere to the written plan required by subsection (1);

3. Ensure that before using the AED, an individual authorized to operate the AED receives appropriate training approved by the DPHHS in cardiopulmonary resuscitation and the proper use of an AED;

4. Maintain, test, and operate the AED according to the manufacturer’s guidelines and maintain written records of all maintenance and testing performed on the AED;

5. Each time an AED is used for an individual in cardiac arrest, require that an emergency medical service is summoned to provide assistance as soon as possible and that the AED use is reported to the supervising physician or the person designated by the physician and to the District as required by the written plan;

6. Before allowing any use of an AED, provide the following to all licensed emergency services and any public safety answering point or emergency dispatch center providing services to the area where the AED is located:
   a. A copy of the plan prepared pursuant to this section; and
   b. Written notice, in a format prescribed by the DPHHS rules, stating:
      i. That an AED program has been established by the District;
      ii. Where the AED is located; and
      iii. How the use of the AED is to be coordinated with the local emergency medical service system.
Liability Limitations

An individual who provides emergency care or treatment by using an AED in compliance with this policy and an individual providing cardiopulmonary resuscitation to an individual upon whom an AED is or may be used are immune from civil liability for a personal injury that results from that care or treatment.

An individual who provides emergency care or treatment by using an AED in compliance with this policy and an individual providing cardiopulmonary resuscitation to an individual upon whom an AED is or may be used are immune from civil liability as a result of any act or failure to act in providing or arranging further medical treatment for the individual upon whom the AED was used, unless the individual using the AED or the person providing CPR, as applicable, acts with gross negligence or with willful or wanton disregard for the care of the person upon whom the AED is or may be used.

The following individuals or entities are immune from civil liability for any personal injury that results from an act or omission that does not amount to willful or wanton misconduct or gross negligence, if applicable provisions of this part have been met by the individual or entity:

a. A person providing medical oversight of the AED program, as designated in the plan;
b. The entity responsible for the AED program, as designated in the plan;
c. An individual providing training to others on the use of an AED.
